ROBBER FINDS NO GOLD; INDULGES IN PRACTICAL JOKE DOUGLAS, Ariz., Feb. 24.—Despite the efforts of the authorities, no trace has been found today of the highwayman who compelled Rev. A. J. Benedict to eat a hearty lunch under penalty of death, because the robber could find no money in the pockets of the parson. Rev. Benedict was driving through South Pass alone when the highwaymen held him up. He searched the minister's clothes, but found every pocket empty. The man then examined every cranny of the buggy and came across a big lunch stored away under the seat. He opened it and commanded Rev. Benedict to swallow every morsel. While the clergyman ate, the robber kept a cocked revolver pointed at his head. The food was eaten in record time. The minister was allowed to proceed. FIRE IS CAUSED BY BOYS WITH MATCHES The fire which destroyed the Gagnon planing mill, belonging to the Trail Lumber company, located just west of the Highland Park station on the Rogue River railway, is believed to have been caused by children playing about the mill having matches in their possession. The plant has not been in operation for several months and the fire could not possibly have originated from any other than an outside source. The loss was not great, inasmuch as there was but little valuable machinery and the building was of cheap construction. The building was beyond the reach of the fire department, the nearest hydrant being several blocks away. Don't Argue With "Central." CINCINNATI, Feb. 24.—Under a rule put into effect today in all the Cincinnati telephone exchanges opportunities for picking a quarrel with "Central" hereafter will be confined to people who can do so in not over half a dozen words.

JEFFRIES STARTS A RUN ON BANK

Big Fighter Draws Crowd to Bank and Timid Depositors Believed a "Run" is in Progress.

LOS ANGELES, Cal., Feb. 24.—When Jim Jeffries went into the Merchants' National bank to put away a little of his theatrical pile, his presence drew a crowd of the curious and started a run on the institution, causing its officials symptoms of heart failure, from which they had hardly recovered today. The first depositor who saw the crowd around the bank had visions of his money being hypothecated and he entered the bank with a rush. Soon scores of other depositors were "cashing in" and it was not until the fighter retired with a greater number of the throng that the frightened depositors became reassured and replaced their savings.

Death of Mrs. E. C. Scudder.

Mrs. E. E. Scudder died at the Medford hospital Wednesday evening. Mrs. Scudder, who had been conducting the Emerick rooms, was taken to the hospital several days ago in order to undergo an operation. The disease had progressed so far, however, that the physicians were unable to afford relief, and Mrs. Scudder passed away yesterday afternoon at the age of 39 years and 1 day. Three years ago Mrs. Scudder and her husband came to Eagle Point and entered into the hotel business. Mr. Scudder soon afterward died, and since then Mrs. Scudder has been working to support herself and two children. She leaves two little girls, Mabel and Madeline, the latter a cripple. There is quite an amount of property coming to the two little girls. The funeral will take place at Jacksonville Friday.

FINE AND PRISON FOR WEARERS OF BIG HATS

ANNAPOLIS, Md., Feb. 24.—Women's big hats must go, if a bill now in the hands of Delegate Wittig of Allegany county becomes a law. It limits the diameter of women's headgear to ten inches and imposes severe penalties for violation of the law. Delegate Wittig received the bill from David A. Robb, state attorney of Allegany county. The bill reads in part: "It shall be unlawful for any woman to wear in any public place or upon any public street a hat the diameter of which shall be more than ten inches; or for any woman to wear or have upon her head any hat of any description in any theater or concert hall when any performance shall be in progress." Violations are to be punished by a fine of not less than \$10 nor more than \$100, or by imprisonment for not less than 30 days nor more than three months.

HAS PRAISE FOR WORK AT STATE COLLEGE

Phoenix Man Back From Attending Winter Course at O. A. C.—Is Greatly Pleased.

C. C. Scott, who in October purchased a place near Phoenix and has since resided there, has returned from attending the winter short course at the Oregon Agricultural college and farmers' week, and is most enthusiastic over the course. "These winter short courses in practical orchard work are invaluable," states Mr. Scott, "to men like myself, who are forced to learn something of actual orchard practice in order to intelligently care for our properties. The course given at the college is a splendid one and of great value to all. It was worth far more to me than the trouble and expense of attending."

Battleship Robbed.

SAN FRANCISCO, Cal., Feb. 24.—The United States postoffice aboard the armored cruiser Tennessee was looted of \$350 in money and a quantity of stamps, according to a message received today from the ship's postmaster, Frank J. Smith. The robbery is reported to have occurred when the warship was on its way from here to Puget Sound. The Tennessee is now at Bellingham, Wash., and it is reported two men aboard the cruiser are being held for court martial. Their names were not mentioned in the message.

PREMIER SOUTHPAW IN FINE FETTLE

Jud Pernoll, Who Goes to Detroit, Feels Fine After Winter's Rest—Injury to Hand Cured.

John W. Pernoll of Aplegate, brother of Henry Pernoll, the southpaw twirler, who was sold by Aberdeen to Detroit last season for \$4000, was in Medford Thursday. He says the premier southpaw of the Pacific coast is in fine shape after a winter's rest on the farm. Henry mixed up with a bad colt in the fall and had his salary hand badly cut, but the injured member has healed without injury to the digits that make the Spaulding take deceptive curves and slants, and "Jud" will show up at the training ground at San Antonio, Tex., with more speed—which is some—and a better control than ever before. He leaves this evening on his journey south.

FREDDIE WELSH NEXT FOR AD WOLGAST

Offers of Theatrical Engagements Pour in on New Lightweight Champion—Nelson Off East.

SAN FRANCISCO, Cal., Feb. 24.—Offers of theatrical engagements continued to pour in on Tom Jones, Ad Wolgast's manager, today, but he will not act upon them until he has carefully gone over all. Jones is determined to make hay for the new champion while the sun shines, but not at the expense of his health. Therefore, he has decided to select about ten weeks time about his time and after filling engagements to give Wolgast a good rest; after that Ad will be prepared to defend his title. In all probability his next opponent will be Freddie Welsh, but it is hardly likely that his demand for a \$45,000 guarantee will be granted. Hester has cabled Welsh making him a definite offer to meet Wolgast in April or May and expects a reply late this evening.

Wolgast was about town today, accompanied by Jones, calling on his friends. Contrary to expectations, the little fellow is not a bit "swelled up" over his victory. Naturally he is proud of his performance and is elated over the prospect of deriving from it an income, but his nose is pointing straight ahead, and not up in the air. Battling Nelson was agreeably surprised when his manager, Jack Robinson, received telegrams from the east advising him that the Dane's theatrical engagements, despite his defeat, had not been canceled. They packed up at once and left for Chicago. Nelson will not have to appear before next Monday night, by which time he figures that his "mush" will have readjusted itself into something akin to the semblance of a human face.

BOYS ARE NOT SO BAD AS PAINTED

In the report of the case of the City of Medford vs. Coyle Johnson yesterday the inference might have been given that the Anderson boys were bad all the way through. Such was not the intention. The boys are just boys, but at the same time the old-fashioned axiom that "children should be seen and not heard," might be considered by the parents of all the boys engaged in the fracas. Charles Greenstrut and James S. Wilson, who were arrested on a charge of robbing several houses on Riverside avenue Sunday night, were taken to Jacksonville Wednesday afternoon and turned over to the care of Sheriff Jones.

CONSTABULARY ORDERED.

(Continued from Page 1.)

forces now on hand were unable to control the situation he would call upon the governor to send the state militia into Philadelphia.

Some Cars Run.

More cars were running today than at any time since the strike began. The number, however, was nowhere near the normal number. Large bodies of men are held in reserve at the police precinct stations to respond to riot calls. "Grooms' black horse cavalry," as the state constabulary is called, is feared and hated by every union man in Pennsylvania. These men have established a record for fearlessness and determination that is unrivaled. They are expert horsemen and one of the qualifications of the service is a deadly accuracy with weapons. Discipline Thorough.

Cars in the section of the city they patrolled today were running on schedule time. Thoroughness of discipline enabled the scattered detachments of constabulary to mass at any point where riot seemed imminent, and little disorder was reported from the district. Hatred of the constabulary caused scores of leaders of various unions to visit the city hall to argue with the mayor for their withdrawal. Other leaders visited the earmen's headquarters to assure them that a general strike would meet with their approval.

No Arbitration.

Company officials maintained their determined attitude today by declaring that they will not consent to submit their difficulties with their men to arbitration. National Organizer Pratt claimed that the unionists have the upper hand and that their success was only a matter of time. To support this he pointed out that 6200 platform men have quit the company and that only 225 cars were being operated today. Four Thousand Men Out. On the other hand, the company declared that only 4200 employees have struck and that 750 cars were being operated. The damage to property, according to the company, has reached \$50,000. Three persons have been killed during the six days' fight, 50 persons injured and there have been 500 arrests. The forces on duty comprise 5500 police, 3000 special police, occasional details of firemen, 185 state constabulary and 150 state felcibles. The felcibles, after their humiliating experiences at the hands of a mob, are being held in the armory as a reserve force. The state felcibles on duty are the Philadelphia companies, and their hesitancy in using violence upon their townsmen resulted in disorders in which many of them were beaten, stripped of their uniforms and weapons and made targets of abuse and missiles. The state constabulary, under Captain Groom, have seen strike duty in all parts of Pennsylvania and form a seasoned body of men. Groom's force is mounted on coal black horses. The men are armed with carbines, automatic revolvers and riot maces. From experience, they know when to use their clubs and when to shoot.

CAPTAIN AND MEN STAY BY THEIR BATTERED SHIP

CORDOVA, Alaska, Feb. 24.—With the wreck apt to go to pieces at any moment and all the ship submerged except the forward house at high tide, Captain Porter and six of the crew of the ill-fated Ucatan are sticking to their vessel in an attempt to save it from the ice floes and bergs which are battering it daily, according to the steamer Victoria, which has arrived here from Seattle.
