STEEL TO GO EAST FOR AID.
(Continued from Page 1.)
appropriated for work on the highway from the western boundary of the Cascade forest reserve to the Na-

tional park boundary. Ten thousand dollars was appropriated for this work by Mr. Pinehot, but when the supreme court decided adversely on the state appropriation, half of it was diverted to other uses. The remaining \$5000, however, can be secured for expenditure before July 1, and an additional \$20,000 for continuing work during the summer.
The sending of Mr. Steel will keep the government in close touch with the builders, convince them that Medford means business and assure them that the highway will really be constructed. Mr. Steel will also secure the report upon a highway made by Engineer Heidel last summer, and the appointment of an engineer to take charge of construction.
Plans looking toward enlarging the committee and the planning of city, county and state campaigns were discussed. Another meeting will be held the first of the week to perfect plans.
All the members were enthusiastic over the prospects and confident of raising sufficient funds to construct the highway.
