SAYS NO SALOONS WILL BREAK CHICAGO

City Statistician Says Annual Loss to Chicago Will Be \$8,000,000 if Saloon Licenses Are Forbidden.

CHICAGO, March 3.—A heated discussion between leaders of the Chicago "drys" and Hugh S. Grosser, formerly city statistician, is predicted today following the declaration by Grosser that Chicago will become bankrupt if the city votes to make it anti-saloon territory.

Grosser said that the annual loss to the city from saloon licenses alone would be \$8,000,000, in addition to other revenue.

William F. Mulvihill of the Anti-Saloon league on the other hand has prepared a table of statistics in which it is set forth that the city can realize at least \$9,000,000 more each year by a system of equal taxation.

Both the "wet" and "dry" forces soon will be given an opportunity to submit their conclusions to the committee appointed by Mayor Busee to investigate the matter.

One of the people you passed on the street today had a letter from a business house appointing an interview—written in answer to a want ad.
