

MUCH LAND TO BE IRRIGATED

Over \$103,000,000 Worth of Lands Will Be Added to Irrigable Areas in the Northwest During the Next Year Is Report.

One hundred and three million, six hundred thousand dollars' worth of lands will be added to the irrigable areas in the four northwestern states, according to advices received from the federal reclamation service, as follows: Montana, \$49,000,000; Washington, \$31,000,000; Idaho, \$22,000,000; Oregon, \$16,000,000.

Lands now under government irrigation projects are as follows: Idaho, 162,000, of a total of 480,000 to be reclaimed; Montana, 50,000 acres, of 550,000; Oregon, 142,000 acres, of 193,000, and Washington 20,000 of a total of 262,000.

The lowest cost of reclaiming semi-arid land is on the Minidoka project in Southern Idaho, estimates ranging from \$22 to \$30 an acre, and the highest is on the Okanogan project in north Central Washington, estimated at from \$60 to \$80 an acre.

Settlers on the government projects in the four states have repaid to the government the following amounts: Montana, \$81,000; Washington, \$71,100; Idaho, \$11,000; Oregon, \$11,000.

Several hundred thousand acres of lands in Eastern Washington and Oregon, north and central Idaho and western Montana are also under private irrigation projects, and it is conservatively estimated that not less than 1,000,000 acres will be reclaimed by private capital in the four states in the next five years, thus adding millions of dollars to the wealth production of the northwest.

Circulars received from the United States forest service announce that 281,400 horses and cattle and 2,630,300 sheep and goats is the maximum of livestock to be grazed on the forest reserves in Idaho, Oregon and Washington during the season of 1910, as follows: Reserves Cattle, Sheep, Horses, Goats.

CRYING FOR HELP.

Lots of it in Medford, But Daily Growing Less.

The kidneys cry for help. Not an organ in the whole body so delicately constructed.

Not one so important to health. The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood.

Backache is one of the first indications of kidney trouble.

It is the kidneys' cry for help. Heed it.

Doan's Kidney Pills are what is wanted.

Are just what overworked kidneys need.

They strengthen and invigorate the kidneys; help them to do their work; never fail to cure any case of kidney disease.

Read the proof from a Medford citizen.

G. M. Jones, 1404 North Central avenue, Medford, Or., says: "I have found Doan's Kidney Pills especially adapted to my case. My back was very stiff and painful and I had other annoying symptoms of kidney trouble. Doan's Kidney Pills brought me prompt relief and since taking them my health has been much better. This excellent remedy has earned my endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

Circuit Court.

Lillian Gibbs vs. Elijah Gibbs—Divorce; decree by default.

John Peninger vs. Laura Hansen—Demurrer sustained and plaintiff given 15 days to plead further.

Effie May Terrill vs. George W. Stevens et al.—Additional testimony taken; case argued and submitted and taken under advisement.

Edgar Hafer vs. Medford & Crater Lake Railroad company—Order made allowing receiver part payment in sum of \$6390.15.

TAKES HIS WORD THE SECOND TIME

C. A. McArthur Is Steered Right Once and Takes Perry's Advice Again and Invests in Rogue River Land.

C. A. McArthur of Aberdeen, S. D., is not only a firm believer in the future of the Rogue River valley, but also has considerable confidence in the advice of J. A. Perry.

Two years ago he dropped off at Medford and, following Mr. Perry's advice, he invested in a tract of land at a small figure. A few months ago he was offered an advance of over 150 per cent. "Shall I take it?" he asked Mr. Perry by wire. "Take your profit and buy something else," was the answer.

The advice was taken, Mr. McArthur took his profits and today closed the deal whereby he purchased 20 acres of land lying west of Medford and adjoining the Ross farm from A. H. Miller for \$13,000.

Sixteen acres of this tract are planted to apples 7 years old and the other four acres are in 2-year-old pears.

There are no buildings on the property. Mr. McArthur intends to make Medford his home.
