Bedding plants; we certainly have them. Phone 606. 302*

Full assortment of Whitman's candies at The Merrivold Shop.

VERNON TO MAKE BID FOR PENNANT

Hap Hagan Inaugurates Coast Baseball Season by Predicting Vernon Will Win Rag This Year.

VERNON, Cal., March 5.—"Hap" Hagan inaugurated the local baseball season today with a modest announcement that Vernon would win the pennant, or come near doing so. "It's only a question of how far we are going to finish in front of the other fellows," said Hagan.

"The Vernon management has spent a lot of money to secure new players, and from where I am sitting I can't see where any other club in the Pacific Coast league has any the best of us.

"I asked the boosters and knockers alike to have patience with me, and I would put a real ball team back of the searlet 'V'. Now I have kept my word, and we are ready to go before the public for judgment.

"I am giving the fans a brand-new infield—Fisher, Brasher, Lindsay, Burrell and Ward—all new men, and they cost us a lot of money. I tell you, we are going to make a big fight for the pennant, and I want the support of every man, woman and kid who will come out and root for us."

I FINDER FIVE FEET YOU CAN'T BE A "HELLO" GIRL

WASHINGTON, March 5.—She is not a telephone girl if she is under five feet. The companies employ only girls who can reach to the top of their switchboards and a reasonable distance sidewise.

Conditions existing in telephone exchanges throughout the country are set forth in the report recently sent to the senate dealing with the investigation made by the bureau of labor.

The height is often determined without the applicant's knowledge by a young woman who engages the former in conversation while she compares the level of the other's eyes with her own.

Wages for telephone girls vary from a highest monthly average of \$36.96 in New York city to \$22.40 in Nashville, Tenn. In some of the smaller cities the average goes even lower, particularly in the south.

Efficient service is possible up to 225 calls an hour for each girl. She cannot answer more than that without injury to herself or injuring the service.

LONGWORTH WILL NOT RUN FOR GOVERNOR

WASHINGTON, March 5.—Nicholas Longworth will not be the candidate of the republicans for the Ohio governorship this fall. This news came as the result of a three-hour conference held at the White House today by President Taft, Wade H. Ellis, the new chairman of the Ohio state republican executive committee, and Mr. Longworth.

Mr. Longworth has just returned from a tour of Ohio. He reported to the president that the outlook for republican success is unusually bright, but declared he had no desire to run for governor, preferring to stay in congress.

President Taft expressed a desire that the opinion among Ohioans that he intends to take any part in the fight for the gubernatorial nomination be dissipated. The president wants a free-for-all contest for the nomination. He has no choice.

The president thinks the republicans should hold their conventions before the democrats hold theirs.

MEXICO COLLECTS DUTY ON IMPORTED MEXICAN PESOS

LAREDO, Tex., March 5.—Mexican customs officers are now collecting Mexican dollars under a recent order of the government establishing a duty of 10 per cent on Mexican silver dollars brought into that country.

Many merchants in this city have taken Mexican money at 40 cents on the dollar since the duty was established and have been in the habit of sending it to the opposite side of the Rio Grande and securing for it 46 and 49 cents. The customs authorities this week apprehended one of these messengers and confiscated his silver cargo.

GERGORY INVESTS IN LARGE CIRKUT PANORAMA CAMERA

Lawrence A. Gregory has purchased a large cirkut panorama camera, which is the third owned in the state, one being owned by Kiser of Portland and the other by Gifford of The Dalles. The machine will take a panorama photo ten feet long and is a splendid one for orchard and scenic work.

BUSINESS LOCALS

Singer sewing machines, 244 S. G street. Phone 2954. 314

This will produce a nice crop this year; 2 1/2 acres Newtown apples just planted, 6 acres brush land, all good, tillable land; fine building site, one mile to good school, fine orchards all around. Price \$2500. J. W. Dressler Agency, West Main. 305*

HER 'DEAD' NO. 1 REAPPEARS AS HER NO. 2 GOES TO JAIL

CINCINNATI, O., March 5.—Bertha Stark-Scarborough is having great annoyance with her husbands. No sooner is she rid of one than another pops up. She is tired of this and now asks the courts to disentangle her. She says that in May, 1907, she met and was wedded to Lehman Stark. For a time all went well, but one day Lehman disappeared. After many months there came a letter from a sister of the missing bridegroom saying that Stark was dead.

On due time Mrs. Stark became Mrs. Scarborough. Last month Scarborough was sent to dwell in the workhouse. Then who should appear but the supposedly defunct Lehman. He was welcomed by Mrs. Scarborough, who today asked the courts to sever the knot that tied her to Scarborough.

ELLIS TO CALL ON TAFT ON MINOR BUSINESS

CINCINNATI, O., March 5.—Following his social repudiation by President Taft, Wade H. Ellis, chairman of the Republican state central committee, today departed for Washington. It was announced that he intended to confer with the president in the capital on "minor business details."

Guaranteed Hosiery

In our Hosiery Department we have always carried ladies' and children's hosiery. We are just in receipt of ladies GUARANTEED square deal hosiery, a written guarantee signed by ourselves goes with each box of six pairs for \$1.50; six pairs guaranteed six months, or new stockings; price for single pair, 25c, although the factory will not furnish a written guarantee where less than six pairs are purchased at one time. The Wardrobe
210 West Main
Farmers & Fruitgrowers
Building

Alfalfa, Fruit and Vine Land

\$75 per acre in tracts to suit. Three lines of transportation; near three good towns with S. P. Station on property.

Abundance of Water For Irrigation

See D. Vreeland, Hotel Nash, Medford, Oregon, about the McIntosh ranch that is located on the following lines of transportation in the great Sacramento valley

Shipping—
On the Southern Pacific and Northern Electric railroads and bordered on the east by the Sacramento river—with its boats plying between San Francisco and Red Bluff—this land has the best possible rail and water transportation.

Electric Power—
Nearly are located two of the great stations of the Valley Counties Electric Company, which is one of the greatest power transmitting concerns in the United States, and which by its wonderful system is capable of conducting electricity three hundred miles.

Light—
Two of the transmission lines of this company pass over our property, thus affording opportunity for the obtaining of lights and power at a very low cost.

Six Trains Daily—
Five trains each way daily on the electric railway, and one passenger train daily on the steam railway pass McIntosh Ranch.

Rich, Deep Soil—
The soil is rich and deep and affords opportunity for the growing of a great variety of products, but is particularly suitable for producing peaches, pears, oranges and grapes, while alfalfa is grown here luxuriously and yields a crop quickly, affording forage for live stock, and when more is raised than can be consumed at home it is always salable at good prices.

An Inland Empire—
Of all the rich valleys in California none is richer—no soil is more fertile than that of the great Sacramento Valley, and of all of the tracts comprised in this great inland empire none is more delightfully situated than McIntosh Ranch in Glenn County.

Deposit of Uncounted Centuries—
The soil is a mixture of alluvial and gravel formation and perfectly adapted to the growth of oranges, nuts, olives and all the semi-tropical fruits, and especially alfalfa—the richest and most nutritious forage for the live stock. This splendid soil is the deposit of uncounted centuries left by the flow of the great river gathered from the watersheds of the mountains.

An Evidence of Faith—
An evidence of faith in this location is given by the investment of extensive capital in the building of an electric railway, and the erection of a sugar manufacturing plant at Hamilton City, one and one-half miles from our land, at a cost of \$1,500,000.

Beet Sugar—
One of the greatest industries in the United States today is that of making beet sugar. In 1907, 7,150,010 tons of beet sugar were refined in the United States.

The Factory—
At Hamilton City, one and a half miles from our property, the beet sugar factory is already established, and employs 400 hands. The factory pays out one quarter of a million dollars a year to its men, besides large amounts for necessary supplies.

Hamilton City—
Hamilton City already has a hotel, bank, school, church, business houses, dwelling houses, ice plant, water works, electric lights, cement sidewalks, fine streets one hundred feet wide, river, steam, and electric transportation, park, pleasure grounds, and is located in one of the most delightful countries on earth.

Market for Ranch Products—
Here you will find a growing western community, full of life and prosperity, a market for many of the small products of the ranch and the center of amusements and pleasure and education and refinement.

Rainfall—
The average rainfall in this country for the past sixteen years has been 21.156 inches.

Temperatures—
The average mean temperature during the same time has been as follows:
January . . . 46.58 May 67.44 September . . . 72.49
February . . . 49.02 June 75.53 October 68.02
March 53.09 July 82.48 November . . . 55.85
April 60.24 August 79.90 December . . . 48.66

Orland—
Orland is five and one-half miles from McIntosh Ranch, on the main line of the Southern Pacific from San Francisco to Portland, Oregon. It is a prosperous, growing city which offers many advantages to those who buy at McIntosh Ranch. There are schools, churches, splendid stores, bank, hotel, opera house, and it is the center of the Government Irrigation Project, where thousands will be spent in the experimental plant which is to be established here.

Where the Profit Is Made—
The development of this rich region lies before you. The profit made is in the early purchase of the land, and not after it has been planted to a variety of fruits and alfalfa, when it will be sold for several times the prices now asked.

Largest River in California—
Our property lies along the Sacramento river, the largest river in California, in which flows at all seasons an abundance of water for the purposes of the many industries of the rich valley which carries its name, as well as for irrigation on such of the fine lands as require that aid to nature. The Sacramento river is navigable for a distance of about 200 miles.

Water Transportation—
Water transportation wherever you find it is the least expensive, and enables the producer to market his products at low cost, and keeps down railroad rates by an inexpensive method. Sacramento river compels reasonable transportation charges through the rich country north and south. Besides this valuable service the river distributes large quantities of merchandise and insures cheap and effective transportation between the cities and the country. The Sacramento river affords water transportation direct from San Francisco to Red Bluff. It is to this great inland empire what the Mississippi is to the middle west.

Semi-Tropical Fruits—
The land we are selling and all the adjoining properties are capable of producing the semi-tropical fruits in luxurious abundance, but they have been devoted ever since this country has been settled to growing wheat, and it is only through our purchase of this large body of land, and dividing it into small tracts, that the farmer who wishes to produce a variety of products has an opportunity to do so.

Alfalfa, Live Stock—
The ease with which the frequent and abundant crops of alfalfa grow affords opportunity for the dairy farmer, and the development of this industry will yield a large profit for the investment and labor expended. Stock animals live out of doors all the year round in the equable climate of Glenn County.

Oranges, Figs, Almonds, Olives—
The orange, almond, fig, olive and cherry trees grow luxuriously and yield abundantly in this rich soil. The growing of these fruits is very profitable.

Compared With Italy—
Eastern visitors wonder at the orange trees heavily laden with their golden fruit used as shade trees along the avenues and streets of the towns throughout this section. The soil of Glenn County produces nearly every commercial fruit found in the state, and this is not true of any part of Italy or of any of the countries around the Mediterranean.

Winter Months—
Our so-called winter months are months of active plant growth, while the warmth of the summer perfects the fruit. Intelligent endeavor in such a climate with such rich soil to work upon is sure to yield abundant reward for the energy expended.

The Good Mother of Egypt—
Our land on the Sacramento river lies midway in the great valley which extends from Mt. Shasta on the north to the bay of San Francisco on the south. The melting snow from Shasta affords a never-ending supply of water which flows down to the plains, bringing with it the richness of a thousand mountain hills, like the grand old Nile, the good mother of Egypt, which has maintained the productive qualities of the ancient valley since the period before the history of man.

Building Material—
Those who wish to build on their land will find all kinds of building material on hand, as the Diamond Match Co., which operates one of the largest planing mills in the state, located at Chico, only seven miles away, will establish a branch lumber depot at Hamilton City, with a complete line of lumber supplies.

Chico—
Chico is one of the most rapidly growing and prosperous little cities in California. Chico is known as the city of roses, and is the seat of the State Normal School for the training of teachers, where twenty-four instructors and six hundred pupils are engaged in preparation for their work. Here also is a new High School, completed at a cost of \$25,000, besides three Grammar Schools. The total enrollment in the city schools is 2309.

Good Roads—
This County is noted for its excellent roads—particularly the main County road which borders our land for five miles on the south, connecting the towns of Chico, Hamilton and Orland.
