### TO PROBE HIGH PRICES FOR FISH

Immediate Action Promised by State Senator in California Regarding Alleged Fish Combine.

SAN FRANCISCO, Cal., March 8.—Immediate action tending toward the prosecution of wholesalers alleged to have combined to keep the price of fish at a certain price, is promised today by State Senator E. I. Wolfe, and Attorney General U. S. Webb, following an investigation by the state senate committee on the high price of living.

For several days the committee has been busy probing into the dealings of the wholesale fish dealers, who it is declared have combined since the San Francisco fire in 1906 to stifle competition and maintain high prices for fish.

Should the actions be brought, the members of the alleged fish trust will be prosecuted under the Cartwright anti-trust law.

During the investigation, testimony was offered tending to prove that the wholesalers prevented dealers from purchasing fish from Puget Sound and the Columbia River fishermen for consumption here.
