TRAINS AGAIN AT WELLINGTON

For First Time in Three Weeks. Scene of Awful Avalanche Is in Connection With the Outside World.

WELLINGTON, Wash., March 10.—For the first time since February 24, Wellington has railroad connection with the outside world today, and some time tonight the first train to pass over the main line of the Great Northern for exactly two weeks will go through the Cascade tunnel on its way to Spokane.

The rotaries working from the east side of the tunnel finished their fight with the snow last night, and today a gang of 500 men and two rotaries are battling with the last remaining drift between here and Scenic.

The Great Northern today issued orders to discontinue the detouring of trains by way of the Northern Pacific to Spokane.

Revivalist to Be Calm.

ASHLAND, Or., Mar. 9.—Revivalist Oliver is coming to Ashland for a month's campaign, under the auspices of the Ashland Ministerial Association. His advance agent, Rev. Beeler, has been here for several days making arrangements for the meetings, which will be held at the Chautauqua Tabernacle.

Some of the members of the latter society, it is reported, read in the papers the alleged utterances of the revivalist at Eugene, and object to the use of the tabernacle for the meetings. The evangelist's representative however, said that the press had greatly misquoted his chief, and after some discussion the objection was withdrawn.

\$1800 FOR EACH WIDOW OF CHERRY MINE DISASTER

CHERRY, Ill., March 10.—Following the settlement of fifty death claims of widows and relatives of miners lost in the Cherry mine disaster by payments ranging from \$800 to \$1200 each, the St. Paul mine officials today entered into negotiation with approximately 100 more cases with the widows.

At a conference between the attorneys representing the widows and counsel for the mining company it was tentatively agreed that the company should pay \$1800 to each claimant who proved a case.

Burton Hanson, secretary of the corporation, said:

"I believe a settlement on this basis will be agreed upon, as there is a disposition on the part of the widows to settle their claims against the company at this figure."

One hundred and fifty-seven of the miners who perished in the disaster left widows with 423 children. The remaining 107 men were single.

FRENCH DEFALTEUR STOLE FOUR MILLIONS

PARIS, March 9.—The alleged defalcations of Edmund Dues, who was employed as a government liquidator in the sale of confiscated church property are growing, according to the government officials who are probing into his past activity.

They estimate today that Dues embezzled two million dollars instead of half the sum, and that there is a possibility that he stole four millions from the government.

FELS SCORES ALL HIGH FINANCE

Brands Carnegie, Morgan and Rockefeller "Robbers." But Places Himself in Their Class—Says He Will Henceforth Fight System.

CHICAGO, Ill., March 10.—Carnegie, Morgan and Rockefeller, three of the great money kings of the world, today stand branded as "robbers" and their millions as "ill-gotten," in a speech delivered by Joseph Fels, the Philadelphia soap manufacturer, who places himself in the same class with the financiers he castigates.

"Carnegie, Rockefeller, Morgan and other captains of industry are robbers and their millions are ill-gotten gains. We cannot get rich fast enough nowadays without robbing the public. I admit that I, too, have robbed the public, and I am still doing it, but I propose to spend the accursed money in wiping out the system by which I made it."

Fels further remarked that he would spend his life and fortune to the eradication of the system whereby he and the three mentioned men made their colossal wealth.

"John D. Rockefeller," he continued, "is a mild, harmless man with a mistaken ideal. But, personally honest, none the less, he is a robber."

"Rockefeller and other millionaires have accumulated their wealth through unjust laws, and especially under the tariff's protection, and because of these laws, I, too, have robbed the public, and am still robbing it. I am not responsible for these laws, but am doing and intend to do what I can to change them."

"How are you getting rid of your 'robber wealth?'" Fels was asked.

"For one thing," he replied, "I am interested in spreading the single tax propaganda throughout the world. The movement is active in the United States, England, Canada, South Australia, New Zealand, New South Wales, Denmark, Sweden and other nations."

Fels' address was made to guests seated at a dinner at the University of Chicago settlement.

Card of Thanks.

I wish to thank the friends and neighbors for their kindness and sympathy done for me in my bereavement.

MRS. E. LUMAN AND FAMILY.

NEW TORPEDO BOAT SOON TO BE LAUNCHED

Present Style Is Improved Upon, as It Has No Funnel—Steam Can Be Gotten Up Rapidly.

NAPLES, March 10.—A torpedo boat without funnels, having three distinct advantages over the present type of boat, is soon to be launched at the royal dockyard at Castellamare, according to a statement today by Commodore Calabritto, director of the dockyard and the inventor of the boat.

By means of a special system of electrical ventilators, the products of combustion are discharged without the need of smokestacks, which, besides offering a target in battle, also lead during gales to a partial or complete extinction of the furnaces. The new system has the further advantage of permitting steam to be gotten up with great rapidity.

The government is maintaining the utmost secrecy regarding the invention, but it is said that successful tests have already been made on a remodelled torpedo boat.

Deficit is \$24,604,750.

WASHINGTON, March 10.—Secretary MacVeagh's estimate of a deficiency of \$24,604,750 in the ordinary receipts of the government for the fiscal year 1910, made in his report for 1909 together with 19010 recommendations will be increased by several millions beyond that figure if the rate kept up during the first eight months of the year is maintained. Thus far the deficiency in the ordinary receipts during 1910 is \$24,604,750 as against \$68,168,980 during the corresponding period of 1909.

Although customs receipts have increased \$33,269,074 over last year, it is as yet impossible to tell whether these actually reflect the effect of the Payne-Aldrich tariff law on the revenues. Internal revenue receipts show an increase of \$12,000,000 over 1909.

WARNING STATION TO BE ESTABLISHED

Agricultural Department Will Send Instruments for Observations to Professor O'Gara.

A. E. Beals, government forecaster at Portland, became convinced on his visit here lately that Rogue River valley needed something different from most sections in the way of weather forecasting, as it was practically, "a wheel within a wheel," and local conditions were at variance with other sections, and that forecasts for sections only a short distance away would not fit.

To this end, Mr. Beals, in a letter to Congressman Hawley, recommended that a volunteer station be established here, at least, and a twice-a-day warning service from the Portland station be established. This service has now been ordered, and during the frost season orchardists will be warned of danger of killing frosts, so that they may be able to handle their preventatives accordingly.

Professor O'Gara took up the matter of proper instruments with the agricultural department and has now on the way a set consisting of a compensating barograph, a maximum and minimum thermometer, a psychrometer and a standard thermometer. With these instruments he can keep an accurate record of weather conditions.

Portland Man Would Fly.

ALBANY, Or., March 10.—John C. Burkhardt of Portland said today that he expects to have his airplane repaired in less than a week and that yesterday's accident had not lessened his confidence in his machine. After testing the engine of the airship with ground rungs for two days Burkhardt attempted a flight yesterday. The machine rose to a height of 30 feet and started gracefully away with every promise of a successful flight, but suddenly careened and dropped to the ground, breaking one runner. Burkhardt, although shaken up by the fall, was uninjured. He is planning to conduct further experiments in aviation with the airship of his own design and construction.

FRANCE BALKS AT NEW TARIFF LAW

French Government Does Not Agree to New Schedule as Easily as Did the Germans.

WASHINGTON, D. C., March 10.—The boast of a semi-official Parisian newspaper that the French would not be hoodwinked so easily as Germany has been when a readjustment of tariffs between France and the United States is attempted, appears to be sustained today.

Tariff officers here have made little progress in negotiations with the French officials in the establishment of a satisfactory list of imports.

The outlook is not encouraging and American officials fear that it is hardly likely that an agreement will be reached before the Payne-Aldrich maximum tariff rates go into effect on April 1.

Write it as though it were a telegram—and it will make a good want ad.

EMPLOYMENT AND BUSINESS CHANCES

840 acres, 30 miles from Grants Pass. 60 acres, 7 miles from Medford. 10 acres, 20 miles from San Jose, Cal.

FOR SALE
40 acres near Woodville, \$1000.

A Tale of Bargains

At Meeker & Company's Monster Removal Sale

Our story of store news today is one of bargains. Just now we cannot think of anything more interesting to a thrifty housewife than news of how she can secure desirable, dependable household supplies for less money. We believe with the majority of the nation that living expenses today are too high. As far as is in this store's power, we intend to lessen them. These items quoted below are but a few as examples gathered at random throughout the store.

McCall Pattern NEW SPRING

Suits
An Attractive and Complete Showing of the Spring Styles in Women's Suits

More varied, perhaps, than the showing of any previous season. There is a wide diversity to the styles and a greater number of materials are smart. We show home-spuns, French serges, diagonals, English suitings and novelty mixtures in all the new spring shades. Throughout our entire lines, values of note prevail—close pricing is a feature. We describe and illustrate two popular models as representative.

Children's Dresses

We have just received by express a select lot of children's and misses' dresses in white and colors that are without exception the best bargains for the money we have ever offered.

Petticoats
Women's Silk Petticoats, Easter Specials

New styles in beautifully made garments will be offered in this sale at scarcely more than the regular selling prices of the silks—a fact that every visitor will at once appreciate.

Underwear

Decided Clearing of Knit Underwear—Women's, men's and children's Knit Underwear—broken lines—discontinued numbers—soiled garments—all reduced.

Corsets

Some of the very best of this season's models, made specially for our March sale, and others that have sold for at least a third more—now featured at unusually low prices.

HOSIERY

Women's Black Lisle and Cotton Hose—Specially Low Priced Lines.

Qualities that would sell readily in our regular lines at a higher price—black gauze, mercerized lisle with double garter tops, and black cotton with trunk, tops. 50c values, 29c, until Saturday.

All Merchandise Bought Here is Unconditionally Guaranteed

There are no strings to our guarantee. There are no exceptions. You, as a customer, must first be completely satisfied before we consider the sale made. Now, don't you think that a store like that is a safe place to trade? Suggest something that will make it safer for you and we will adopt your suggestion. The new spring goods are all here now and await the honor of your selections.

W. H. MEEKER & CO.

FOR SALE

80 acres, the north half of the northwest quarter of section 14, township 36 south, range 4 west, one and one-half miles from Woodville, ten miles south of Grants Pass and one and one-half miles from Rogue river. About ten acres, at west end of tract, on a slight east slope. Then, there are about 50 acres level and rolling. At east side of tract there are about 20 acres hilly, and at extreme east line it is steep. From 20 to 30 acres have been cleared. Balance is in brush and timber. There is enough wood on the place to pay for the clearing. All has a south slope, and is ideal for fruit. There is a good log house and a couple of old barns. Stream of water, and can be irrigated if necessary. About 60 acres are as good for pears or apples as one can find in Rogue River valley. Is only 20 minutes' walk from Woodville, and its nearness to town will make the land advance in value rapidly.
Price is \$40 per acre; about \$2000 down and balance one year at 6 per cent.
