

EAGLE POINT EAGLETS

(By A. C. Howlett)

A few days ago Ray Harnish went up to the high hills to help Roy Ashpole with his cattle and returned very unexpectedly, and when asked why he returned so soon, replied that five feet of snow was a little too much for him, so he came home. The deep snow in the hills this spring will insure us a plenty of water and is a good indication of a healthy season as well as a good crop season.

I had the pleasure of meeting A. H. elset of White Rock, S. D., last Tuesday, who is here to look after his brother-in-law, J. C. Dahl, who was an invalid at the Sunnyside for some months. Mr. Kolset is cashier of the Citizens' State bank of White Rock, S. D., and, like all the rest of the people who come from the states and territories north of us, think that we have an ideal climate here. Also J. C. Hood, the man I spoke of in my last, was instituting a comparison between our climate and that of Chicago. He said that when he left there was snow three feet deep on a level. Who would live in such a country, when they can come to Southern Oregon and find such a climate as we have here?

The men who have been clearing the right of way for the P. & E. railroad have been coming out for the past few days with their checks to be cashed, buying up supplies for the spring work. They all say that the work is progressing finely, considering the amount of rain we have had, but now that the winter seems to be broke, the company is pushing more men to the front. There is one thing noticeable, and that is that the Hindus are leaving and the Greeks seem to be taking their places.

Harvey Spencer of Dudley came out from Medford last Tuesday and Wednesday morning went on up home. Scott Bruce, also of Dudley, was here a few days ago from Portland, where he had been to have his hand treated for blood poison. He cut it some months ago and blood poison set in, so that he had to go to Portland for treatment. Also Elmer Spencer of Dudley, who was operated on in Medford for appendicitis, went back to the hospital to have the wounds dressed the first of the week.

A man by the name of J. M. Morrow came in looking for relatives in

a destitute condition last Tuesday. He has what the health officer of Eugene calls cancer of the jaw, and is in a terrible condition, and the next morning your correspondent started with a subscription paper and raised him \$15.25 and he took the train for Portland Wednesday. He used to work for John Nichols and seemed to be highly respected.

I learn on what I think is good authority that Harry Carlton has sold 120 acres of his ranch for \$16,000, and that Jo Hader has resold his farm for \$42,000 and that there are several other deals on hand.

The surveyors have been busy this week laying off what is known as the Hamilton (Ulrich) tract of land in small lots, and that they will be placed on the market soon.

The carpenters are being engaged in advance here to build and the indications are that there will be quite a rush here this summer and us old mossbacks are hoping that we will have to employ two more teachers in our school.

S. B. Holmes and the Browns are putting in a sewer system on their places and are building a septic tank, taking time by the forelock to prevent disease when the town gets full of people.

I understand that George Childreth, who has been working in the blacksmith shop with his brother Wesley, is going to Medford to live and work at brickmaking.

Mesdames Riddle and Maney, wives of the contractors on the P. & E. railroad by that name, came out last Thursday and called on Mrs. Howlett. They are camped at the commissary store on the P. & E. about three miles from our depot.

E. W. Phillips, who has been spending some months trapping in the grand cave, near John Obenchain's, came out Thursday with a fine lot of furs. He expects to ship them to the eastern states direct, as he says that he can realize more for them than he can here.

Mr. Deter, of the firm of Deter & Daley, informs me that he has just bought 18 head of fine fatted beef cattle for the Eagle Point meat market, and that that concern is a permanent fixture.

Mrs. Malthy of Long Branch at this writing is visiting the family of J. J. Tryer and her daughter, Miss Bell, who has also been visiting the

same family, went up to her home last Wednesday.

Hay hauling seems to be the order of the day now, as one can see loads of hay driven onto the scales every day.

TWO LIVES SAVED.

I wish to testify that my husband was suffering for a long time from stomach trouble and a complication that various physicians declared to be Bright's Disease, and was given up by them to die. He then consulted Dr. T. Wah Hing at No. 725 J street, Sacramento, who cured the trouble entirely. This was seven years ago and there has been no return of the complaint.

My little boy, Virgil Strickland, was shot through the stomach and intestines and the doctors said he could not live unless he was operated on and Dr. Hing cured him without a knife. That was in Sept. 1907, and the little boy is enjoying good health ever since.

We formerly resided at No. 215 Eighteenth street, and have since moved to 3207 East Avenue, Oak Park. I cheerfully recommend Dr. Hing's services to anyone needing medical attention.

(Signed) MRS. S. E. STRICKLAND.

I verify the above statement.
