**WANTED**—Woman, Chinaman or Jap for general housework. Apply at Hotel Moore. 307

**PEOPLE READY TO FLEE FALFURIAS**

**Mexicans Greatly Excited Over Killing of One of Their Number and State Troops Are Called.**

SAN ANTONIO, Texas, March 14.—State troops have been ordered to hold themselves in readiness and the San Antonio and Aransas Pass railway is prepared to run a special train out of Falfurrias, Texas, to carry American women and children to San Antonio, if an attack is made upon them by Mexicans.

The Mexicans are greatly excited at Falfurrias over the killing of Baltazar Garcia, a Mexican, by Dave Dolan, an American, Saturday night. Dolan is under arrest.

Garcia was shot by Dolan in a revolver duel at the railroad station and was killed almost instantly after he had attempted to shoot down the American.

At the time Garcia had just been released from the county jail on bonds following his arrest for the murder of Dolan's cousin, J. F. Goodwin, Jr. He was preparing to take the train for his home at Alice. Dolan had come to the station to bid farewell to Goodwin's father who was starting for his home in Live Oak county.

As soon as the Mexican saw Dolan, he drew his revolver. Dolan saved himself by grabbing the upraised revolver. He then turned the weapon on the Mexican, fired one shot and killed Garcia.

The Mexicans are armed and threaten to kill the prisoner who is in the county jail.

**TAFT'S BROTHER-IN-LAW TAKES HIS OWN LIFE**

PITTSBURG, Pa., March 14.—Thomas K. Laughlin, a brother-in-law of President Taft, committed suicide by shooting himself, according to the statement of the coroner here today.

Laughlin's death occurred yesterday, and the report of the physicians that he died from "cerebral hemorrhage" gave no inkling at that time that he had come to a violent death.

**MINING ACTIVE NEAR GOLD HILL**

**Several Mines Are Working Large Crews and Are Cleaning Up Good Daily Average of the Dust That Lures.**

One hundred dollars a day has been the average clean-up at Billington & Blue's Centennial mine on Kanes creek for the past week, says the Gold Hill News. The Centennial is one of the richest placers in southern Oregon, as well as one of the oldest. It has been mined since the fifties, and at no time has it produced better than now. One giant is operated. In many places the gravel is so rich that the gold shows plainly, and 200 ounces have been taken out with a pan this season from such gravel. The gravel stratum is from twenty to thirty feet in depth, and may be worked at a good profit from the surface, although the richest dirt is found on the bedrock. As much as forty dollars have been taken out in a single pan this season, while the largest nugget found was valued at eighty-four dollars. Already in the neighborhood of \$4000 have been taken out this year, and the lower race, carrying the wash from the giant, has not been touched. The final clean-up will be made in a few days, and the season's result will probably be swelled by several thousand dollars.

"There are plenty of good mines in southern Oregon," said Mr. Blue, as he picked a four-dollar nugget from the box at clean-up time, "but if they are operated successfully it must be with work, not wind. I will venture to say that enough pockets have been taken out on summer evenings, under those trees at the hotel in town, to fill a boxcar. But a mine must be mined to pay. We have sold the Centennial and have no ulterior motive in saying that whoever works it will be well paid."

The Electric Gold Dredging company of which F. W. Dodge is local manager, has bought the Centennial, and will take possession June 1st. They have a big modern electric dredge on the ground—considerable work was done with it a year ago—and they purpose making further additions to the equipment which will enable them to get all the gold that may be in the Centennial's eighty acres of gravel at a minimum of time and expense.

"No ore is being shipped from the Galice district at present, but active development work is being done on all the mines, which shows that the men who are back of the mines have confidence in their investments," said Dr. C. H. Smith, of Galice, who was looking after local mining interests several days this week. "Especially is this true of the two big mines, the Almeda and the Oriole. It is reported that the Almeda is bonded for \$6,000,000 by eastern capitalists. A smelter will be put in at this mine as soon as fuel can be secured, and a coke plant is now being installed at Merlin will supply it. As soon as we get transportation facilities or some means of taking the gold from the ore at the mines, the Galice district will come to the front as a leading producer of the yellow metal."

The ten-stamp-mill at the Grey Eagle mine on Sardine creek is almost completed, and thousands of tons of rich ore are ready for it. A gasoline engine will furnish the power for the mill. Work on the tunnel is progressing rapidly, and all but a small part of the 300 feet gone has furnished pay rock. The only thing that is troubling the Grey Eagle people, as it is all others on Sardine creek, is the poor road to Gold Hill, and they are hoping for, and using their best efforts to get a new road that will reduce the grades and shorten the distance to town, so that ore may be hauled in and shipped at a profit.

Twenty-four hours of milling at J. H. Beeman's Lucky Bart stamp mill on Sardine creek this week took \$156 in gold from seven tons of rock, or an average of over twenty-four dollars per ton in free gold besides about two per cent in sulphides.

**We Want Bids For Grading HIGHLAND PARK ADDITION This is no Small Job**

We will receive bids for grading for sidewalk and for parking on one side of West Main street from Washington street to Elm street—400 feet; also for grading for sidewalk and parking on one side of Washington street—653 feet, and for grading Elm street—653 feet; also for grading for sidewalk and parking on both sides of Elm street—1306 feet.

This is all slip or frize work; dirt to go back on lots; no fills in street or sidewalks. This is ready now. Work can commence at once. Bring in your bids as soon as possible. All bids must be in by Thursday noon.

**LANGFORD AND FLYNN ARE READY**

**Little Betting Has Been Done on Coming Mill But Negro Will Be the Favorite—Flynn Confident of Success.**

LOS ANGELES, Cal., March 14.—Jim Flynn and Sam Langford are on the final lap of their preliminary work and from both camps today came the word that the fighters are in excellent shape for the 45-round go on March 17.

Langford, according to Manager Woodman, is seven pounds heavier than when he met Flynn in McCarey's pavilion some time ago. Woodman apparently is sanguine of his black man's ability to put Flynn away and predicted today that the fight would not go 15 rounds.

Flynn is no less confident of success. He will begin to "taper off" today for he believes that he has done all the hard work necessary for the fight. All indications point to a record house when the bruisers come together next Thursday. It has been many days since the local fans have had an opportunity to see two good men who are bigger than gnats in a long fight, and already they are rolling the sweet morsel in their mouths. Little betting has been done but the negro will be the favorite.

**JOHNSON STARTS CAMPAIGN FOR GOVERNORSHIP**

LOS ANGELES, Cal., March 14.—Hiram W. Johnson, gubernatorial candidate of the Lincoln-Roosevelt league, will fire the first gun of his campaign at Simpson auditorium tonight. Johnson will deliver an address in which he will elaborate upon the lanks of his platform, according to his statement today.

In an interview today, Johnson flayed what he termed the Southern Pacific machine for "causing a conflict of interests between southern and northern California." He predicted a cessation of international or sectional strife in the event of his nomination by the republican primaries.

There are no saloons in the city and the investigation which has been carried on seems to indicate that there have been very few instances in which students have been guilty of using intoxicating liquors in the past. The faculty will attempt to put an end to all such practices in the future.

**FOUR STUDENTS DROPPED BECAUSE THEY BOOZED**

CORVALLIS, March 14.—Because they were found guilty of violating the college regulation prohibiting the use of intoxicating liquors, four students have been suspended from the Oregon Agricultural College for one year, four others have confessed and apologized before the faculty and student body and four more are still under investigation.

President Kerr and the faculty have expressed themselves as being determined to protect both the students and the institution.

There are no saloons in the city and the investigation which has been carried on seems to indicate that there have been very few instances in which students have been guilty of using intoxicating liquors in the past. The faculty will attempt to put an end to all such practices in the future.

**Police Nab Suspect**

SAN DIEGO, Cal., March 14.—When the Owl train from Los Angeles unloaded in the morning a man supposed by the police to be one of the criminals who are said to have broken jail in San Bernardino while serving a term for burglary, was among the passengers and was arrested by a detail of police who had received a telegram that the suspect was aboard.

He is held at police headquarters in company with a woman, his traveling companion, who is suspected of having knowledge of the shooting of Mrs. Henry C. Stephens at San Bernardino this week while bandits were attempting to rob her home.

**CONVICTS SHOW GREAT COOLNESS**

**Prisoners Threatened by Fire Are Held in Check by Chaplain—Panic Threatened for An Instant But Soon Subsided.**

PITTSBURG, Pa., March 14.—Warden Francis of the Western penitentiary expressed high praise for the self-control shown by six hundred convicts yesterday who were placed in danger by fire at the prison. The men had assembled at service in the prison chapel when a fire started in the hosiery factory near the chapel.

"At the first alarm the stripe-clad worshippers sprang to their feet and a panic seemed imminent. The men were calmed, however, by the assurances of the chaplain, and services were continued. Later the arrival of the city fire department and the shouts of the firemen caused a second tremor to sweep the audience and a stampede was threatened.

At this juncture the choir began a hymn and the convicts joined in. This music allayed the feelings of fear and the service continued without further interruption.

Meanwhile the city firemen and a brigade of prison "trusties" fought a vicious blaze and it was not controlled for many hours. In the course of the fire, several trustees and firemen were overcome by smoke.

The hosiery factory was damaged to the extent of \$12,000. No one was seriously injured.

**MAN WHO PROSECUTED DURANT PASSES AWAY**

SAN FRANCISCO, March 14.—Preparations are being made today for the funeral of William S. Barnes, one of the best known attorneys of the Pacific coast, who died at his home at Salada Beach yesterday after an illness of several days. Appoplexy was the immediate cause of his death.

Barnes was district attorney of San Francisco from 1891 to 1898. He acted as prosecutor of Theodore Durant, the notorious "church murderer" who was convicted and hung, after one of the most sensational trials in the history of the west.

**CITY TREASURER'S NOTICE**

Office of City Treasurer, Medford, Oregon, March 14, 1910.

Notice is hereby given that there are funds on hand in the city treasury for the redemption of warrants Nos. 5, 7, 8, 9, 10, 11, 12 and 13, issued against the trunk sewer fund, protested May 12, 1909.

Interest on the same will cease after the above date.

L. L. JACOBS,  
City Treasurer.

**PUBLIC OPINION SAVED RUSSIAN**

**Real Reason for Acquittal of Nicholas Tchaikovsky Was That Government Heeded Protests From Other Powers.**

ST. PETERSBURG, March 14.—It is declared on good authority today that the real reason for the acquittal of Nicholas Tchaikovsky, the Russian patriot, was that the government after considering all the protests from abroad, decided it would be unwise to punish him at this time. The declarations by British and American officials that the trial in secret of Tchaikovsky and Mme. Breschkovsky was part of a plot to put both of them out of the way, was investigated by the Russian trusted agents of the interior department. They reported that the sentiment was genuine and that there was a feeling that both the United States and England might be compelled to address notes to the Russian government protesting against summary judgment in the Tchaikovsky case.

To avoid this the interior department ordered the acquittal of the patriot as the lesser of two evils.

So sure were the members of Tchaikovsky's family that he was to be convicted that they had mourning outfits ready to don as soon as the verdict was announced. Tchaikovsky stated that he anticipated leaving Russia immediately and he made it plain that he expected should he not flee from the country to be prosecuted again on a similar charge.

He has not decided yet where he will go but probably will go first to England and later to the United States.

Several of the witnesses are to be prosecuted. It is alleged in the investigation which resulted in the prosecution being ordered, they told a much more convincing story than when on the stand. A number of them are alleged to have fled the country.

It is not believed that Mme. Breschkovsky can survive the journey to Siberia and her friends are declaring the government would have been more human had it pronounced a death sentence instead of exile.

**TEDDY, JR., TO LIVE IN SAN FRANCISCO**

**After His Marriage in June Young Man Will Make His Home on Coast Still With Carpet Company.**

NEW YORK, March 14.—Theodore Roosevelt, Jr., will take his residence in San Francisco after his marriage with Miss Eleanor Butler Alexander, which will take place probably next June.

George Perkins, treasurer of the Hartford carpet corporation at the company's mills here, where young Roosevelt has been working, announced today that Roosevelt would be given a responsible position with the San Francisco branch of the concern.

When asked if Roosevelt would be manager, Perkins said:

"No; at least not at the outset."

"Will he get a big increase of salary?" was asked.

"That concerns only the young man and the company," was the reply, "but you know raises of salary frequently come with marriage."

**MAN WHO PROSECUTED DURANT PASSES AWAY**

SAN FRANCISCO, March 14.—Preparations are being made today for the funeral of William S. Barnes, one of the best known attorneys of the Pacific coast, who died at his home at Salada Beach yesterday after an illness of several days. Appoplexy was the immediate cause of his death.

Barnes was district attorney of San Francisco from 1891 to 1898. He acted as prosecutor of Theodore Durant, the notorious "church murderer" who was convicted and hung, after one of the most sensational trials in the history of the west.

It is not believed that Mme. Breschkovsky can survive the journey to Siberia and her friends are declaring the government would have been more human had it pronounced a death sentence instead of exile.

**LORDS TO CONSIDER THEIR REORGANIZATION**

**Lord Roseberry Will Present Motion Tonight Which Will Tend to Bring About Reformation of Upper House**

LONDON, March 14.—Lord Roseberry will present a motion tonight in the house of lords to the effect that the house resolve itself into a committee of the whole to consider the best means of reforming the existing organization.

Roseberry is chairman of a committee recently appointed by the peers to consider measures for the reformation of the house of lords. It is understood that his proposed motion is the result of the deliberation of that committee.

It is probable that Lord Roseberry will propose a reduction in membership of the second house from 600 to 350. According to a tentative plan, under consideration, 200 of this latter number will be hereditary members and they will select the remaining 150.

Very few of the Liberals in commons may approve of this plan but most of them insist of an elective second chamber.

The Irish want the house of lords destroyed because it opposes home rule. The Laborites want no second chamber at all.

The lords themselves are not over enthusiastic for reformation of the house but they are turning to it to prevent more sweeping reforms.

**Country Club Burns**

BURLINGAME, Cal., March 14.—It was announced by the directors of the Burlingame Country Club today that immediate work on the construction of a new club building would be started to replace the one destroyed by fire yesterday. The loss is estimated at \$35,000. The building was insured.

Although a number of rare tapestries and several paintings were lost in the fire, most of the contents of the attractive club were saved by the efforts of several millionaire members who worked in the face of the flames removing trophies, paintings and works of art from the interior.

The fire was caused either by a defective flue or crossed electric wires.
