After you have figured all round then go

Back to the Woods

There is certainly a reason and you'll find it

The oldest lumber yard in Medford—always the closest figurers of profit—never handle anything but the best materials—a reputation for straight dealing—keep a well replenished stock of all kinds of building materials and always make prompt deliveries.

We own our forest, therefore we save the middleman's profits and give it to our patrons. Come and let us figure with you.

Ibex Building Paper

WHY IT IS FAR SUPERIOR

There is as much difference in building papers as in common news and fine bond.

The **Ibex** is the best. It will not allow dampness or moisture to pass through or find lodgment. It saves fuel bills and remains all that an insulating paper should be for all time. Investigate before you buy.

Flintkote Roofing

WHY YOU SHOULD USE IT

Flintkote roofing is odorless, will not dry out or evaporate—is fire resisting and waterproof—will not crack or run. It is unaffected by heat or cold and those who have most experience recommend it in preference to all others.
