H. C. Maury of Jacksonville precinct was in town Monday on business. Mr. Maury is turning his attention to the growing of alfalfa principally. "I can make nearly as much net money from alfalfa without any of the trouble the orchardmen have, as long as the present prices of hay keep up, and I see no reason why the prices should be lower," is his idea of the situation.

George W. Frey of the upper Little Butte section, was in Medford Monday. Mr. Frey has been observing a few things in his neck of the woods lately and expresses the opinion that he will be able to hear the whistle of a P. & E. train just "over the hill" from his farm in the near future. Surveying parties and wagon loads of supplies are going up the creek all the time and indications are good for something doing.

The Silver Kings are in town.

W. A. Sumner left Monday evening for a business trip to Chicago. He has many improvements under way at the Modoc orchard, 67 acres of young fruit trees are being set out at the northwest corner of the property, under the Bybee ditch, and over 200 acres are in grain. Four miles of wire fencing, the best-built fence in the county, has been strung. Six cottages for employes, a new house, a bunk house and a large barn are to be erected near the north boundary on an elevation overlooking the orchard. The old barns and houses on the south side of the river have been torn down. The plum hedge along the county road on the north boundary has been cut down. Summer will see improvement plans under way upon a large scale.

Ask Adjutant's Removal.

SEATTLE, Wash., April 4.—Adjutant-General George B. Lamping has forwarded a formal request for the removal of Captain John Kinzie, inspector and instructor for the National Guard of Washington, to the war department at Washington.

The message was sent five or six days ago, but was just made public.

Los Angeles Police Department Will Teach Women in City Jail How They May Make Honorable Living.

LOS ANGELES, Cal., April 4.—More than a score of women prisoners at the Los Angeles city jail went to the school today, many of them for the first time in their lives.

The new school at the jail embraces in its curriculum the domestic sciences, cooking, sewing and house-keeping, and a training school for nurses also has been established.

Instruction in these branches will be given under the supervision of Chief of Police Galloway and Matron Aletha Gilbert. The plan originated with Mrs. Gilbert.

"I know that when many of our prisoners leave the jail they will have a knowledge of things they never knew existed. I'll wager three in every ten of the women who come here don't know that stockings can be darned, or that persons who are ill can be taken care of in a way that will help them to get well quickly," Mrs. Gilbert said. "If we can teach one woman in a something that will help to make her life easier and better when she leaves us, we will be satisfied. At any rate, they will have something to do while they serve their terms." If Mrs. Gilbert's plan is successful, it is probable that it will be given a further trial in Los Angeles county prisons.

TOURISTS TRAILS WILL BE MADE

Sisson Promotion Committee at Work and Will Take Care of the Annual Influx of Tourists to Mt. Shasta.

BISSON, Cal., April 4.—The Sisson Promotion club has been organized here. Its object is to advertise this section of country and do all things within its power for the advancement of commercial interests. It will try to cause the improvement of trails and roads leading to various mineral springs and points of interest in this vicinity. Notable of these and one of the first tasks to be taken up is the making and grading of a wide road to the snow line on Mt. Shasta to enable parties to make the ascent with wagon and team, thus obviating the irksomeness of the climb that has heretofore kept many from undertaking it.

Officers Elected.

The Sisson Promotion club is now thoroughly organized and its officers have been selected from the leading business men of the town. M. J. Knox, of the firm of Schuler-Knox company, has been selected as president, and W. H. McMillon, principal of the local public school, secretary. The executive committee is composed of the president and four others, namely: J. M. Schuler, W. H. Shebley, W. B. Rider and D. A. Sheldon.

About 200 have signed the membership roll and liberal subscriptions of money have been received.

This newly organized club starts out under very auspicious circumstances and it has the hearty co-operation of the entire community.

CHURCH 25 YEARS OLD.

the church in August, 1888, and served it for two years, during which time 31 united with the church.

Rev. F. J. Edmunds began his work of ministry of the church December 1, 1890, and continued for a term of two years. During this time 21 united with the church. Rev. Alexander S. Foster began his work as pastor of the church January 1, 1893, and served for a term of five years and three months. During this time 70 united with the church. Also in October, 1895, the old church building burned down and the present edifice was built and dedicated to the worship of Almighty God, May 31, 1896.

Mr. Foster closed his labors April, 1898. Rev. Adolph Haberly began his work as pastor of the church August 1, 1898, and served for a term of three years and three months. During this time 52 united with the church. Rev. Thomas F. Day, D. D., preached for the church for five months, commencing in May, 1902, and during this time one united with the church.

Rev. Weston F. Shields, coming from the foreign mission field of Stam, began his work as pastor of the church January 8, 1903, and still continues to be the pastor of the church after a term of seven years and three months. During this time the interior of the church has been greatly improved, a pipe organ installed, a piano secured for the Sunday school, and 180 have united with the church. The membership of the church is now 300.

The property of the church is valued at \$40,000. This church should recognize the help that has come to it from others, and especially the Jacksonville church.

Mr. C. C. Beckman deeded to the trustees of this church the ground upon which the present church building stands. The following extract from the records of the Jacksonville church when known as the Presbyterian church of Jackson County, will show how it stands in relation to us and other churches of the valley:

The following is taken from the narrative written by Rev. A. R. Beckenbach, April, 1885:

"The year just past includes the termination of the 28 years of the faithful pastorate of Father Williams and the opening of the present pastorate. It is still the old Jackson County Presbyterian church; from which has sprung the flourishing churches of Ashland and Phoenix, and which has also contributed its portion to the organization of the Presbyterian church of Medford. It is linked by a thousand associations of persons and circumstances to these two churches, which are growing so rapidly by its side, and by not a few tender ties to the church just organized—the youngest of them all—the Medford church."

In concluding his remarks Sunday Rev. Shields said:

The good that this church has done is not to be measured by the number that has constituted its membership—385 in all—nor by the number that now constitute its membership, which is 200, but rather by the influence it has had and has upon the moral and

JACKSON COUNTYITES FORM BOOSTERS CLUB

Say They Should Have Forty Instead of Twelve Representatives From This County at U. of O.

EUGENE, April 4.—This afternoon at 4 o'clock 72 representatives of Jackson county at the university will meet in Professor De Cou's room to form a boosters' club.

Jackson county, they say, has always believed in progress, especially along educational lines, as shown by the overwhelming majority cast in favor of the state university appropriation bill in 1908, and the leaders in the movement see no reason why Jackson county instead of 12 should not have 40 native sons and daughters at "Oregon." It is partly with this purpose of boosting the university in their home and partly through the desire of closer association with one another that the club is to be founded. It is expected that students from other parts of the state, where there is local pride, will follow Jackson county's example.

Some of the students who are interested in this movement are: Fred Strang, Glen Connell, W. Thomas, Miss Ruth Merrick, Miss Elizabeth Wagner, Arthur M. Geary, Miss McNeal, Everett Smith, Vernon Vawter, Ernest Smith and Miss Armour, Miss Wines.

WILL QUARANTINE ALL COLORADO CATTLE

DENVER, Co., April 4.—The federal government today is planning a quarantine against Colorado cattle, according to state veterinarian, Lombard. The quarantine will be enforced unless the cattle men of western Colorado dip their stock for scabies.

The proposed action by the government is being held in abeyance until after the coming meeting of the Colorado Growers' association at Grand Junction in July, to await co-operation by the cattlemen.

Jimenez Is President.

WASHINGTON, April 4.—The state department today received official notice that the election of Ricardo Jimenez, as president of Costa Rica, has been confirmed by the electoral college of the southern republic. Jimenez was elected some time ago, but his election was contested.

religious life of the people. This church has ever stood for the Bible, and for Jesus Christ as the divine and only Savior of men; it has urged individual and personal responsibility; it has denounced sin everywhere, and it has held up before men the great hope for time and eternity.

With our faces to the past, and in review, and then to the future, facing life's great duties, let us as a people say with the Psalmist: "Bless the Lord, O my soul, and forget not all his benefits."

EMPLOYEES VOTE TO RETURN TO OLD PLAN

The employees declare that Sir Christopher Furness' plans for increased employment of workmen were not

BUICK LEADS IN NUMBERS

More Buicks Built Than of Any Other Makes—Staggering Figures Show Relative Popularity of Car.

A revelation as startling as a searchlight switched out of the darkness upon a spooning pair in a public park, disclosed to the general public for the first time a short time ago, the true status of the automobile situation in America.

Heretofore the bewildered buyer has had only the haziest notion of the capacity and output of the several plants; his information having come to him in the shape of staggering figures and astonishing statements from the fertile young man whose business it is to boom his particular car like a pop-a-rima-sona.

A sudden realization that the public is entitled to the truth has resulted in the publication of a report of the cars manufactured during the quarter ending December 31 which is replete with sensations.

Eliminating 28 concerns, each of which built less than 100 cars, the production of the association membership during the last three months of the year attained the astonishing total of 26,648 cars.

Sixty-eight concerns had a part in the manufacture of this great output, and of that number the Buick Motor company of Flint, Mich., produced more than twice as many cars as its nearest competitor.

The Buick company leads with an output of 4437, or more than a quarter of the total production of all the other plants combined, and more than one-fifth of the entire production.

Such well known concerns as the Packard, Pierce, Peeries, Winton, Lozier, Knox, Stoddard-Dayton, Olds, Sterns, Haynes, Royal Tourist, Stevens-Duryea, Pope, Thomas and Locomobile produced 4436 cars, but their total still falls below the Buick figure of 4437.

Another interesting comparison is furnished by grouping the production of the Chalmers, Reo, Jackson, Mitchell Regal, Waltham, Moline and Brush, which reaches a total of 4351, as against the 4437 of the Buick.

Another list which takes in two cars with outputs of a considerable magnitude, is made up of the E-M-F, Overland, Franklin, Columbia, Mitchell, Mora, Corbin and Studebaker. These eight concerns total 3724 cars, as against the Buick total of 4437.

In point of production the Cadillac company is second on the list with 2156 cars.

In royalties paid under the Selden patent the Buick likewise leads the list for the quarter with a modest contribution of \$43,399.60; the Packard, seventh in point of production, being second in royalties, with a total of \$35,623.80.
