

## WOMAN'S SUFFRAGE SURE SAYS LEADER

"You Can No More Check Movement Than Ocean With Hatpin," Declares President of Club.

SANTA BARBARA, Cal., April 9.—"You can no more stop woman's suffrage from becoming a accomplished fact than you can hold back the tide of the Pacific ocean with a hatpin," was the emphatic declaration today of Mrs. E. L. Baldwin, president of the California club of San Francisco.

Mrs. Baldwin led the attack of the "votes for women" supporters upon the constitutional bar that prohibited the California federation of women's clubs from assuming a definite attitude in the suffrage campaign that is being waged throughout the country. Her declaration was delivered during this afternoon's session of the delegates to the annual convention of the federation.

More than 25 women took part in a spirited discussion of the mooted subject. When it was apparent that an agreement could not be reached the matter was shelved, to be taken up again at a future session.

The report of the nominating committee which was to have been read today was withheld. It probably will be presented at Tuesday's session. The convention adjourned at 2 o'clock this afternoon until next Monday. It will probably conclude its work on Tuesday.

### PUNCHOT WILL MEET TEDDY.

(Continued from Page 2.)

Regarding the insurgent movement, soon after his return to America, will not cause much surprise of political circles.

In fact many political leaders in Washington would not be surprised if Roosevelt's coming were the time for the exploding of a political bomb. Insurgents are delighted over the correspondent's despatches from Italy that state, while not directly quoting the former president, that he still admires Congressman Victor Murdock, the Kansas insurgent leader.

It is pointed out that the standing of the correspondents' concludes any misrepresentation of Roosevelt and the fact that Roosevelt never has any difficulty in getting his views printed even when refraining from giving interviews directly.

Roosevelt's political and official attitude towards Aldrich and the things Aldrich stands for, are being pointed out today in connection with the fact that most men opposing Ballingerism, Cannonism and tariff are personal and political friends of Roosevelt, who stood with him during his administration in the fights he made against the "Aldrich policies."

This, say politicians, who are eager to know what attitude the former president will assume when he returns to his own country, is a strong indication that Roosevelt will join the insurgent cause on June 15.

### RECORDS BROKEN FOR LONG-DISTANCE SENDING

LOS ANGELES, Cal., April 9.—Operator Ryan of the local station of the United Wireless company today claims a long-distance "receiving" record of 3200 miles.

Nightly during the last week Ryan has heard the calls "Nax" and "Nax." At first he believed them to have been given by an amateur operator at a station near Los Angeles. The calls were more distinct last night, and after consulting his files Ryan discovered the "Nax" call to be that of the government station at Key West, Fla., and "Nax" to be that of the United States government at Colon, Panama.

Colon is 3200 miles, approximately, from Los Angeles. The local officials of the company claim this to be a long-distance overland record.

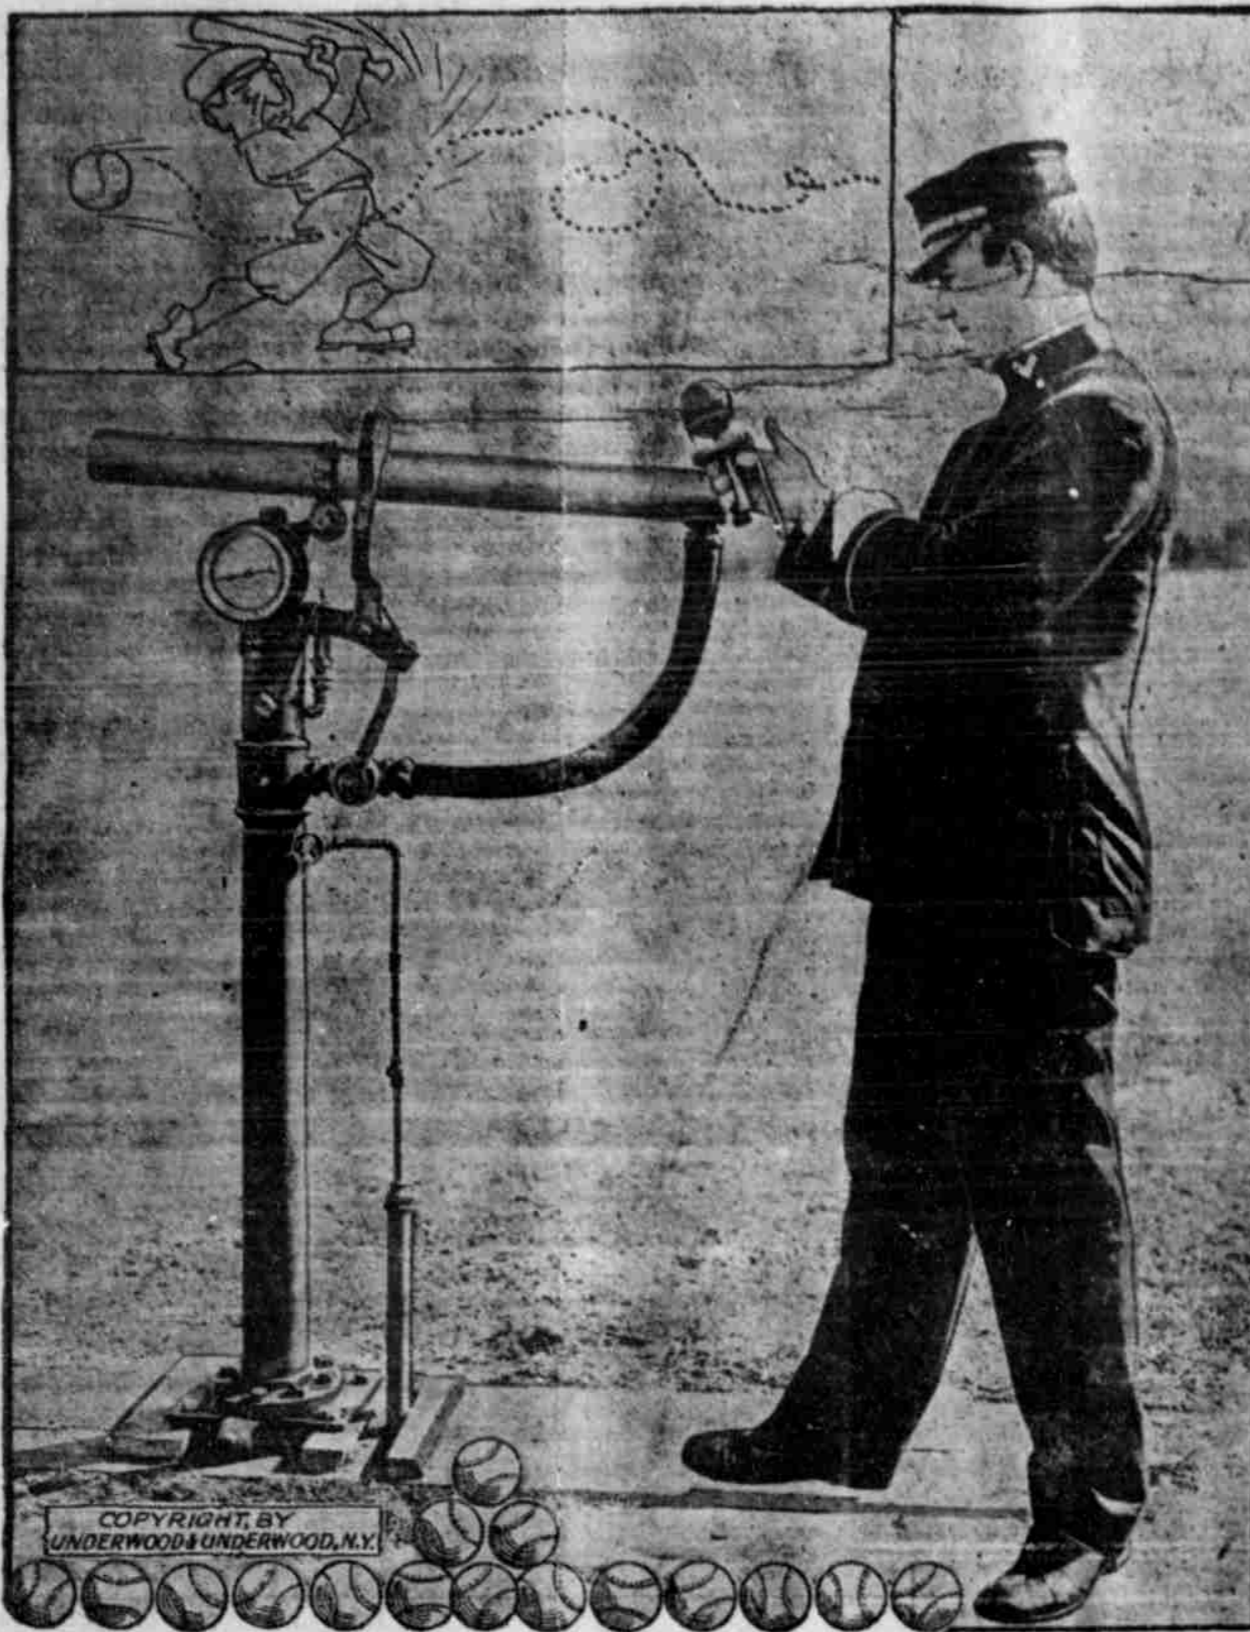

### Company Found Liable.

OLYMPIA, Wash., April 9.—Because its workmen left explosives in an unsecured place where children found them, the Gill Home Investment company of Tacoma must pay \$25,000, according to the unanimous decision of the state supreme court today.

This is the amount of judgment rendered by John Olson, who was one of the boys who found and exploded as part of the powder which tore away both his arms. The decision declares there is nothing in the company's defense that the boys were accomplices and had stolen the powder and caps, but that instead, the fact that the boys had been previously driven away should have warned the company that the outcome was no place to leave high explosives and that the company's carelessness in leaving explosives there made it liable for damages.

## "Baseball Gun," Intended to Take Place Of Human Pitcher, With Its Inventor.

This is the first picture made of the new "baseball gun" and its inventor, P. H. Lake, a warrant officer in the United States navy. The photograph was taken at Annapolis while Mr. Lake was demonstrating the use of his invention. It is intended to take the place of the baseball pitcher. With it the ball is propelled by compressed air at a speed equal to that of the speediest of pitchers. By means of a strap of variable length fixed at the breech and the degree of the curve, which may be as much as eight feet, is accurately determined. The gun is mounted on a swivel and can be pointed at any angle, vertical or horizontal.

## PORTLAND TAKES FIFTH GAME

Leads From Second Inning Until the End—Some Errors and Fine Hitting Win for "Clarices"

In the second inning against Hapius Hogan's ballstossers the "Ducks" waddled through with four runs, which was enough to clinch the game, the way those people are playing ball in the south. Ort secured first on a hit and stole second on an overthrow to the first bag, then the villagers threw the ball all around the lot and four of the "ducks" sailed over the plate.

Hogan's bunch took two in the third, but they were never dangerous and the final was Portland 8, Vernon 2.

SAY NEEDLE IN HIS BRAIN  
MADE HIM CRIMINAL

RENO, Nev., April 9.—At St. George's hospital an operation which, it is believed, will remove the criminal inclinations of a life convict, was performed by the removal of a needle from the brain of Frank Everett, serving a life sentence at Carson City for murder.

Auto Strikes Down Man.

SACRAMENTO, Cal., April 9.—Struck by a speeding automobile, full of "joy-riders," and fatally hurt, J. P. Anderson, a well-known citizen of Brighton, was left in the roadway all night, where he was found today by August Ruhstaller and brought to Sacramento. Anderson died at 7:30 o'clock at the Wentworth hospital, five minutes after he had been received at the institution. The speed maniacs left no clue as to their identity. The police believe they must have known of the accident, as Anderson was riding a bicycle, and it would have been impossible for him to have collided with the big machine without the occupants knowing they had struck something.

If your ad is in the paper when the worker-hunter looks, he'll be pretty sure to see it, and have an impression that you're the "right one."

### Too Late to Classify

WANTED—Every man to know the Smoke Club. You can pass a pleasant hour at the Smoke Club, a gentlemen's resort; newspapers, magazines and writing materials at your service; a good cigar, to be had at all times; soft drinks, all flavors; lunch counter in connection. Room formerly occupied by Emerick Cafe.

LOST—Baseball glove. Finder please leave at this office. 17

### FOR THE NOVELTY OF IT, WED ON ROLLER SKATES

MILWAUKEE, April 9.—While a band in the balcony played Mendelssohn's "Wedding March," W. H. McGrath and Miss Hattie Baldwin were married on the floor of the River-view roller rink, while on roller skates, by a justice of the peace on roller skates, attended by bridesmaids and groomsmen on skates.

## COAL MINES GOOD FOR 4913 YEARS

Further Testimony Is Taken in Connection With Alaskan Coal Fields—Engineer Says Coal Supply Is Great.

WASHINGTON, D. C., April 9.—Further testimony regarding the Alaskan coal fields occupied the time of the Ballinger investigation committee today.

Alfred H. Brooks, a mineralogical expert, testified that coal mines in the United States would supply consumers for 4913 years to come at the present rate of consumption. In making this estimate, Brooks excluded Alaska and the American insular possessions.

Rains on Teddy.  
GENOA, Italy, April 9.—Genoa "La Superba" failed to put on its

# Clothes Confidence

Comes By Wearing Our Clothing

One distinct service we render the men of Medford is our display of the finest collection of the best good clothes ever offered to discriminating buyers. Our own chosen clothes, chosen with utmost care, made exclusively for us, and exhibits not only our own good judgment, but the unequalled art of those best-of-all clothes makers. Our Suits have no counterpart in ready-to-wear clothing. The newest cuts, weaves and styles are here and you'll find the very highest class fabrics used in our suits. The prices range from

\$10.00  
To  
\$35.00

## FURNISHINGS HATS, ETC.

Ask the men who have known Bill for the past six years, and they will tell you that this is the place to buy your furnishings, hats, etc. You get the newest ideas right while they are new.

OUR LINES ARE ALL FROM  
THE WORLD'S BEST MAKERS

Always in Earnest

# The Toggery Of Course

## A Book Store Stationery
