We note with much interest the way some of our enterprising local dealers are putting forth every effort this spring to make their stores attractive. This week Olmstead & Hibbard, whose progressive policy has been strongly shown this spring by their large, attractive advertisements in our columns, have a fine window devoted entirely to house paint.
 On close inspection one finds not only the usual display of paint cans, but long cards showing rows of houses in new and handsome combinations of colors for exterior painting. An attractive window border brightens the appearance of the whole store and draws much attention from the passers-by. It attractively illustrates how easily and well any shabby surface in or about the home can be fixed up.
 Olmstead & Hibbard deserve much credit for this window and we are sure it will prove of much benefit in reminding people of the many things around their homes that can easily be beautified at housecleaning time.

Comfortable Work Shoes

go a long way toward keeping a smile on a man's face and a song in his heart. That's why a sunny disposition always belongs to the man who wears

MENZ "EASE" SHOES.
 When you get a pair of Menz "Ease" shoes in your hands you will be surprised at the softness and glove-like feeling of the leather. After you have worn Menz "Ease" shoes for six, eight or ten months you will again be surprised when you find that the uppers are still just as soft and easy on the feet as when you first put the shoes on. You may not think of it then, but when you keep on wearing them month after month you will suddenly remember that they have worn you longer than any shoe you ever had on your feet. \$3.50 to \$4.50 is the price.
