becoming subscribers. He dwelt on the need of co-operation among the fruitgrowers as essential to marketing fruit at a profit, and how, upon the prosperity of the fruitgrower rested the prosperity of the valley and every one in it. WILL TEST AIRBRAKE ON SISKIYOU GRADE.

ASHLAND, Or., April 19.—The Southern Pacific road across the Siskiyou from Ashland is soon to be made the scene of another airbrake-testing campaign.

A few years ago the Westinghouse Airbrake company had an immense equipment, including two big freight trains and their crews and a score of air experts, employed for two weeks making tests of the efficiency of the air equipment furnished by them for such grades as that across the mountains south of here on the Shasta route.

Now the New York Airbrake company is arranging for a similar campaign of tests, and an equipment of two trains is being fitted up at Sacramento shops for the work.

Several officials of the company have been in Ashland recently making preliminary arrangements. The New York company now has the contract for equipping Southern Pacific rolling stock with airbrakes, but it is said the Westinghouse people are after the contract.

OH, YOU HOBO! YOU HAD BETTER KEEP OUT OF ELLENSBURG.

ELLENSBURG, Wash., April 19.—Hereafter it will be dangerous for any here-bodied man to venture within the limits of this city unless he be prepared to accept a job on short notice or produce proof that he is financially beyond the necessity of laboring. Under direction of Chief Calvin, police officers are watching the railroad yards day and night for indigent travelers, and as fast as these are rounded up they are offered the alternative of going to work on nearby ranches or filling an engagement on the chain gang. The reason for the unusual activity of the police is that the entire Kittitas valley is suffering from a scarcity of labor. Three hundred farm hands are needed.

Fifteen tramps were arrested yesterday and accepted work in the country in preference to the chain gang. The police then rounded up all the men found in rooming-houses and served notice that every man not at work would be given employment on the chain gang if he did not accept farm work.

CASE MUST BE HEARD AGAIN.

(Continued from Page 1.)

ment of condemnation there was a complete void of authority of law in John S. Coke to create a special term of court by calling a legal term for Jackson county, as well as a lack of power to hold such a term.

"It follows," says the court, "that an assemblage of persons claiming to act as a court at that time was not the court known to our law, and hence all proceedings then had and entered of record were void."

"As the entrance of the city upon the premises of M. F. Hanley would be of irreparable injury to his property and as the said void judgment is a cloud upon the title to his premises, this court of equity will interfere to set aside such judgment, and Judge Hanna's action in enjoining the city from proceeding further to complete its water system was just and his decree is affirmed."

Rev. Goulder Emphatically Denies Story

Story Published in Oregonian on Monday, April 18, is Absolutely Groundless.

Here is the story as it appeared in Monday's Oregonian:

MINISTER TABOOS OLIVER.

Medford Pastor Asks Followers to Avoid Evangelist.

Medford, Or., April 17. (Special.)—The South Methodist minister of this place has requested his congregation not to attend the revival meetings of Evangelist Oliver, who begins a six weeks' revival here tomorrow. Some of the people of Ashland recently took exception to remarks made by the evangelist, and demanded a public apology of the ministerial body of that place.

Rev. Goulder was very indignant when he read the story in the Oregonian last night and requests that it be most emphatically denied. He said that he never requested his congregation to pass up Oliver's meetings, but had urged just the opposite—that they support the Oliver meetings, as he fully intended doing.
