

GOVERNMENT SELLS LUMBER ON KLAMATH

Five Million Feet of Standing Timber on Upper Lake Disposed of—Several Small Sales Near Ashland

Fred Melhase of Klamath Falls has concluded the purchase of 5,000,000 feet of timber in the Crater national forest, lying north of the Pelican Lodge and adjacent to Malone Springs, about six miles above the lodge.

The timber is comprised principally of pine and comprises one of the best belts of timber in that section.

Also Supervisor Erickson reports the sale of eight or nine additional tracts of timber in the Ashland district to be cut for cordwood.

MEDFORD VS. GRANTS PASS AT LATTER PLACE TODAY

Can the Medford team make it five straights is the question agitating the fans this morning.

Twice have they carried off the big end of the score against Grants Pass, and twice have the county seat sluggers fell before the stunts of our pitchers and their star box-men have been helpless in front of the twenty willow-wielders of Medford. Will Grants Pass reverse the decision this afternoon? Manager Roper went home last Sunday evening with a resolve for "re-venge-ah," and the determination to get his team into working order when it next clashed with the Medford bunch, consequently there might be some ball playing on the Grants Pass lot, and a lot of us are going down to see it.

Jacksonville and Central Point will fight for the cellar championship this afternoon. Each has won a game. The team that loses will be in the ditch and the winner roosting on the edge.

OREGON BOY WINS THE MILE RUN AT STANFORD

STANFORD UNIVERSITY, Cal., April 23.—T. Huggins, a lone athlete from Hood River, Or., the only one to be entered in the annual inter-scholastic meet here, this afternoon from without the state won the mile run in the fast time of 4:39 1-5. The time compares favorably with the Stanford-California inter-collegiate record of 4:32 1-5, held by Saxon of California.

City Calls in Bonds.

The first eight of the Main-street improvement bonds issued a year ago have been called for by the city. These bonds are of denominations of \$500 each and represent part of the first issue of improvement bonds of \$20,000.

PLANTING TREES ON AREA BURNED OVER

Forestry Department Experimenting With Tree Planting on Ground Burned Over Years Ago.

Assistant Forester Foster and a crew of ten men are at work conducting an experiment on the slope of Cat hill, at the head of Big Butte, which may mean a rejuvenation of the burned-over forests of the Crater national forest.

The plan is to plant 20 acres of

this ground, which was burned over perhaps 50 years ago, to seeds of trees similar to those which formerly grew there. The hill, rightly named, for it requires a cat to climb it, lies on the northeastern slope of Mount McLaughlin, and is covered with a dense growth of snow brush and manzanita. The plan is to remove a small number of these bushes and plant the seed, depending upon the surrounding brush to protect the young trees from storm and sun until they become strong enough to take care of themselves.

German Lutheran Church.

Fourth street. Sermon at 11 a. m. All are invited. M. Markert, pastor.

HAVE YOU SEEN

THE LATEST THING IN LOCKETS, CHAINS, SILVER COLLAR PINS, NECK PIECES, SILVER RINGS AND BRACELETS ?

INQUIRE OF

Grant & Staples

ASHLAND, OREGON.

Representative will be at the Nash Hotel on Sunday evening April 24, and Monday, April 25, 1910.

Nobody Wants A Lot Now

UNLESS IT HAS ALL THE PRE-REQUISITES FOR MODERN LIVING—WATER, SEWAGE AND PAVED STREETS BEING AMONG THE ESSENTIALS.

The Southsea Addition

Soon to be placed on the market, offers, in addition to all these essentials, the great advantage of deep, rich soil, and close to the commercial district, being but six blocks from the busiest corner on Seventh or Main streets, and sure to be within a block of the trolley line.

This Beautiful Addition To Medford

We are not offering to sell lots in same now—only giving you the chance to have one of the best lots reserved, if wanted—this beautiful addition has been staked off, and will add about forty choice residence lots to Medford's exclusive or restricted list, just east of "South C" street, hence the name.

Every Lot Has Just The Right Exposure

The grade is about perfect, the soil the best ever, and incidentally the opening of this addition will open another street, with another bridge in prospect, being an extension of Twelfth street east to a junction with Cottage street on the East Side.

This Only a Reminder

That the public may know what is in prospect. The streets will probably be graded, sidewalks and curb and sewers laid and water connections installed before the lots are placed on sale, but if these close-in lots are just what you have been looking for, we can, as suggested, place a reservation for you against the time when plats are fully prepared and approved. There's only three-crop alfalfa growing on these lots now, but the Kentucky blue grass is running out the alfalfa, giving a premonition of the superb lawns to be had on such soil.

Just see us about them---that's all.
