HERE IS A SPLENDID OPPORTUNITY FOR INVESTMENT
WILL SELL IN LUMP OR ACRE TRACTS

We wish to sell eight acres of as rich level land as can be found in the valley; almost in the heart of a growing city, where the surrounding resources, such as lumber, mining, lime industry, etc., are getting to be very active; where a branch railroad is now in course of construction, and other developments under way which are sure to make a very large, live city.

LAND ADJOINING HELD MUCH HIGHER

A 500-acre tract adjoining this eight acres could not be bought today at \$500 an acre. This is just as good, if not better land; running water in several places; county road runs along the front of this tract; close to the finest fishing and hunting in the state; desirable in many ways.

PRICES LOW AND PROSPECTS VERY FINE

\$400 an acre will buy this tract, and we will subdivide to suit—either in acre tracts or as you wish. This tract could be platted and would make five large lots to the acre; each lot today would bring \$200 a lot. For full particulars and quick sale see
