

TAFT IS TRYING TO GET ACTION ON POSTAL BILL

Will Also Endeavor to Obtain Action Upon Statehood Bill—Intimates That If Regulars Block Passage Insurgents Will Be Appealed to—Confident of Railroad Bill Passing.

WASHINGTON, D. C. April 27.—With the possibility of congress adjourning soon after June 1, President Taft is attempting to get action on the postal bank bill, which appears to have struck a snag in the house.

The president is confident that a railroad bill will pass and hopes that the withdrawal of an injunction bill be enacted.

He is anxious to see the postal bank bill passed and will try to obtain action upon the statehood bill. The president has told friends that he considers the postal bank bill necessary to uphold the platform promises. He is reported to have intimated plainly that if the house regulars blocked its progress, votes could be gained for it among the insurgents and the democrats.

It is expected that as soon as the vote is taken on the railroad bill, the house republicans will hold a caucus upon the postal bank bill and the statehood measure.

PLAYED POLITICIAN AND BUNCOED HOUSE

California Man Impersonates Secretary of State and Carries on Whirlwind Campaign for Votes.

SAN JOSE, Cal., April 27.—A man who bears a striking resemblance to Charley Curry, secretary of state and candidate for governor, is in jail here today, charged with having short-changed various bartenders yesterday. It is alleged that he introduced himself as Curry and carried on a whirlwind campaign for votes while playing the role of politician.

Four alleged conferees are incarcerated with the alleged short-change specialist. According to those who lost at the hands of the gang, the man would enter a saloon and after introducing himself as Curry, would proceed to "set 'em up" to every one in the house.

DEER LASSED BY STEAMERS CREW

Fine Doe Caught While Swimming Channel—is Dragged Aboard the Boat, Frightened, but Uninjured.

NEW WESTMINSTER, B. C., April 27.—A fine doe lassoed by one of the crew of the steamer Paystreak near Dextil's Run will be offered to the city zoological department. The deer was swimming to one of the islands in the channel when the steamer passed along. With a dexterous throw of the ropes a deck hand dropped the noose around the little animal's head at the first attempt and it was dragged aboard the steamer, uninjured, but frightened.

ENGLAND MAKES HEADWAY WITH NEW FLYING MACHINE

BARROW, England, April 27.—After remaining clear up to the present time at the extreme rear in the international race for the world's aerial mastery, English experts believe they are at least on the eve of turning out the most effective lighter than air craft in existence.

The ship is being put together by the firm of Mivins here. The machinery is being constructed at the Birmingham and experiments are in progress in connection with the undertaking under the direction of the British air office, an adjunct of the National Physical Laboratory at Teddington.

In a general way the vessel will resemble the latest type of Zeppelin. The Zeppelin is of the same circumference from bow to stern however, which gives it, British experts say, a drag. The English ship will have a form similar to the deck outline of a cruiser. It is argued that this will give it much greater speed, rigidity and responsiveness to the helm.

BLACKS DRIVEN FROM TOWN BY WHITES

Negroes Are a Rarity in Texas Town After Whites Grow Indignant and Order Them Out.

COLEMAN, Tex., April 27.—A negro is a rarity in Coleman today, following a race war which raged until nearly daybreak. The masculine population of Coleman, aroused at the importation of black laborers to work on the railroad, drove out the negroes with sticks and stones and defied the authorities to interfere.

In individual cases the negroes fought the whites, but scores fled. Firearms were not used.

The black residents of Coleman, numbering 200, were driven from town, in addition to the ousted laborers.

RAISIN DAY, APRIL 30, 1910.

The above date has been set apart as an annual event by the people of California, in which all are asked to join by eating raisins in the form of "Raisin Bread" or in any form that may be desired. The object of this special day is to create a widespread raisin sentiment that will result in a greater demand for that fruit, and to direct the attention of all good housewives to the excellence of the raisin as an article of food. The good people of the northwest are invited by their neighbors to participate in the pleasant custom and "break" raisin bread on April 30th.

JOHNSON STARTS TRAINING MAY 1

Jack Gleason Returns, Buoyed Up by Interest Taken in Big Mill in the East and Middle West.

SAN FRANCISCO, April 27.—Jack Johnson will be in San Francisco by May 1 to begin training. That is the message brought by Jack Gleason, one of the promoters of the big bout, who has returned from a long eastern trip.

"The people here cannot imagine the interest the people of the east and middle west are taking in the coming scrap," he said.

"I cannot see how the railroad companies are going to get enough Pullman cars to haul them here. It is not alone the sporting element, but the best citizens as well, who are interested in the battle."

"THE GENT WITH A BUN" MUST NOT BE KICKED OUT

MORRISON, Ill., April 27.—The humble resident of Morrison must not be thrown unceremoniously into the street when he has acquired an over-supply of joy juice, under severe penalty for the ejector according to an ordinance in effect here recently.

The ordinance provides for the culture, care and disposal of hopeless and helpless inebriates and provides various penalties for the hard-hearted saloonman who fails to aid the "gent with the bun."
