

### WILL MEXICO PLAY OWN HAND?

Looks as if Republic to South intends to Cut Loose From United States and Deal With Neighbors in Her Own Way.

WASHINGTON, May 4.—Has Mexico decided to cut loose from Uncle Sam and follow its own course in supervising the political affairs of Central America?

This is becoming a serious question, not only in the United States, but in those republics which have heretofore kept their eyes on their big neighbors of the north before executing a political coup. There is reason to believe, too, that the bonds of mutual interest which united Mexico and the United States in keeping the peace in Central America and, possibly, with each other, are just about ready to snap.

The particular occasion for this surmise was the Nicaragua situation. When the United States could no longer tolerate the impossible Zelaya, who committed just one crime too many in murdering the two Americans, Mexico hurriedly sent former Ambassador Creel to Washington to see if "something could not be done."

It was shown very quickly that "something" could be done, and Creel went back to Mexico. Of course that should have ended the matter, but it didn't. Mexico and the United States had always joined hands on Central American affairs.

Together they had arranged the Washington conventions by which the five republics had agreed to keep the peace. Despite this traditional friendship, when Zelaya fled, Mexico received him more like a fugitive king than a despicable tyrant whose career in Nicaragua would have made Caligula green with envy.

Zelaya having left, his office fell on the shoulders of Madriz, a more or less constant adherent and follower in his footsteps. The United States did not propose to accept Madriz any more than Zelaya—at least not until he had shown himself in a mood to give some heed to the constitution of Nicaragua. Mexico thought otherwise. Madriz indicated that if Uncle Sam didn't like it he could put it in his pipe and smoke it. This was a vast contrast between the attitude of the two governments which worked together so harmoniously in arranging the peace conventions of Washington but a few years before.

When the Pan-American conference meets in Buenos Ayres next July it will be very embarrassing if Nicaragua should send delegates who would be recognized by Mexico and ignored by the United States.

### WHITE SLAVER ADMITS GUILT

Man Arrested in New York for Dealing in Girls Turns State's Evidence and Tells of Great Traffic Throughout States.

NEW YORK, May 4.—Harry Levinson today pleaded guilty to selling girls for immoral purposes and told the court he wanted to turn state's evidence and go before the grand jury.

Justice O'Sullivan warned Levinson that he would receive no mercy through turning state's evidence, but that he was liable to severe punishment and might be sentenced to twenty years imprisonment.

Levinson answered that he knew this, that he had considered the matter carefully and that he wanted to tell all he knew about the white slave traffic.

He declared that he had been a white slaver for years. He said his testimony would implicate a number of persons, some of whom are prominent.

District Attorney Reynolds is today trying to establish the connection between white slavers and a school of occult sciences run by Pierre Bernard. Bernard claims to be a Hindu. He is known as "Om" Bernard.

Bernard was held in bonds of \$10,000 today by Justice Breen on charges of abduction made by two of Bernard's pupils, Miss Zelia Hopp and Miss Gertrude Lee, each nineteen years of age.

Miss Lee lives at Tacoma, Wash. "Om's" school was raided by the police last night. The officers found a score of men and women dressed in tight fitting gowns wriggling about the floor. "Om" explained that the motion was a part of the occult science he was teaching, but the police dispersed the Hindu's disciples and took "Om" to a cell.

#### WALTER DAMROSCH SOON TO BE HEARD IN MEDFORD

Walter Damrosch, who will be heard at the Medford Theatre May 16, during his annual spring festival tour, has this season celebrated his twenty-fifth anniversary as conductor, while practically a young man. His success has not come by reason of ambition, of study, of talent or adaptability alone, but all of these combined, in addition to a great capacity as organizer, and ability to carry out the plans and aims he sets for himself, have contributed toward making Mr. Damrosch an entirely unique figure in the musical life of this country.

Placed in the position where he was compelled to take into his own hands the lines held by his noted father, Dr. Leopold Damrosch, at the age of twenty-three, he became conductor of grand opera. Nor was he permitted to get his routine in the lighter forms, but the German opera was the sea into which he was plunged and all records are unanimous in declaring it unprecedented in merit and endurance.

### CLEAN CLOTHES FOR BALL PLAYERS

President Graham Has Constituted Himself a Committee of One on Sanitation and Will Enforce His Ruling.

SAN FRANCISCO, May 4.—President Graham has constituted himself a committee of one on sanitation. The next time a player appears on the field in a dirty, filthy uniform such as Don Cameron sported last week he will be ordered to the clubhouse and instructed to see a laundryman.

When a team leaves on a road trip it is customary for the players to send their suits to the wash. After players have rolled around in the dirt for a week or more their uniforms, black or white, are quite ready for a liberal application of soap and water.

When the Oaks went north recently every player looked after his duds save Cameron, whose memory failed him. President Graham was very much miffed when he saw Cameron appear in such filthy rags.

"I have made an order to the effect that no player can commence a series in a dirty costume," said President Graham this morning.

"If a player cannot give time and thought to his personal appearance, we don't want him on the field. It is offensive to the audience to see players look as if they had come out of some pig sty, and we don't propose to have it. The players do not have to pay their laundry bills, so there is no excuse as to the expense. A club that is natty and cleanly outfit presents a pleasing appearance, and that's what I want to see."

### YOUNG OFFENDERS LET OFF LIGHTY

Judge Canon Tempers Justice With Mercy in Police Court This Morning—Go, and Sin No More, Is His Injunction to Wayward Boys.

In the police court this morning J. G. Lackons and D. Gray were arraigned charged with fighting on the streets. The row started in Selsby's saloon on Front street and the combatants were "bounced" by the bartender. The third man in the scrap, Tom Carney, and Sackons were the principals. Gray claimed that he was attempting to act as a peacemaker.

Carney put up \$10 cash bail, but the other two passed the night in the city jail, which should be punishment enough for any crime less than murder.

Judge Canon fined the young men

# The Pasadena of Oregon

People of refinement; people with means; retired business men; professional men; college and university graduates, are coming to the Rogue River Valley by the score. Within the past two years almost a hundred Chicago and Evanston, Illinois, people have purchased homes near Medford, and nearly every one of them has a friend or two whom they hope to induce to come and locate in the valley.

New York, Philadelphia, Boston and many other eastern cities are almost if not quite as well represented, while St. Paul and Minneapolis have more representatives here than any other several cities combined.

Think these statements over and get your thinker going. Write to the undersigned or the Medford Commercial Club for detailed information about the country, and you will never have cause to regret it.

## Bearing Orchards Near Medford

Most of the producing orchards have been held in large holdings until recently. A few weeks ago the Eden Valley Orchard, containing 605 acres, was placed on the market in any desired acreage. We have been authorized to offer the bearing apples and pears for sale, and if you know anything about this country and want a desirable block of bearing trees, write or come soon. During the past week over \$150,000 worth of the property has been disposed of. It is located within two miles of Medford at an elevation of about 100 feet above the city and is one of the best kept orchards in the world. Parts of the orchard offered for sale have paid the owner over \$600 per acre per year for four years straight.

Do not come unless you are prepared to stay, for just so sure as you do come the combination of a fat soil, grandeur of scenic beauty and Italian climate will steal you, body and soul. After one visit here you will be miserable any other place on earth.
