TWO GIVEN FINES ILLEGAL FISHING

Justice Holman in Grants Pass Imposes Fines of \$100 Each on Men Caught Fishing With Nets in Rogue River.

Last Saturday night Deputy Fish Warden Ed Clanton and Walter Balliff Walter Smith arrested Cal Allen and Sid Howell for illegal fishing with nets, says the Observer, and Monday morning they appeared before Justice James Holman and were each fined \$100 and costs, the costs amounting to \$4.45.

This year there has been a fine lot of salmon congregate at the foot of the Ament dam, where they lie for a few days before going up the river. The temptation was too great for the two young men and they dropped their drift nets right at the toe of the dam. How many nights they had done this is not known, but Saturday night the deputy fish warden and water bailiff were concealed in the new fishway in a boat and when the two fishermen dropped their nets the officers shot out into the river and captured them, with the result of the above fine, which was paid.

Also taken with the capture was a set net that had been placed at the top of the dam, but the two fishermen claimed that it did not belong to them, nor did they know to whom it did belong.

This was seized, together with the fish that it contained, by the officers. The fish were cleaned and shipped to Portland and sold, there being 413 pounds in the catch. The money derived from the sale of the fish will be turned over to the state.

STENOGRAPHER ASKS SHARE OF RYAN'S MILLIONS

NEW YORK, May 5.—William W. Johnstone, a stenographer, has filed a suit against John D. Ryan, president of the Amalgamated Copper Company for payment of \$252,000 which he claims is due him for services in February, 1906.

Johnstone says he assisted Ryan, in a confidential capacity, in getting control of F. Augustus Heinze's copper interests in Montana and his share of the millions made in the transactions is \$252,000.

Ryan states that Johnstone was never more than a stenographer when in his employ.

COMMUNICATION. Medford, Oregon, May 4, 1910. I would like to ask the Mail Tribune if there is any such thing in Medford as a dog tax. I think most assuredly there is not, judging from the hordes of curs and canines that infest our streets, tearing our parking lawns and gardens, destroying flowers and every thing else destructible, and presenting disgraceful sights before our children going to and from school, as well as all other persons on the streets.

TROUT DO NOT CAUSE CANCER

So States Physician Before Congress of American Physicians and Surgeons Now Convened in Washington.

WASHINGTON, May 5.—The congress of American Physicians and Surgeons in session here today began a discussion of medical, surgical and therapeutic questions. More than 1000 delegates are attending the conference.

Dr. R. G. Curtin of Philadelphia took issue with those who have contended recently that cancer was caused by eating fish, especially trout. He argued that statistics showed that cancer was more common in centers of population where not one person in 50 ate trout. The country lad who lived on trout, he continued, was seldom affected.

His position was that cancer, probably, was caused by over-nutrition. Dr. Curtin maintained in his paper that cancer is increasing and that it seems to be hereditary.

Most of the producing orchards have been held in large holdings until recently. A few weeks ago the Eden Valley Orchard, containing 605 acres, was placed on the market in any desired acreage. We have been authorized to offer the bearing apples and pears for sale, and if you know anything about the country and want a desirable block of bearing trees, write or come soon. During the past week over \$150,000 worth of the property has been disposed of. It is located within two miles of Medford at an elevation of about 100 feet above the city and is one of the best kept orchards in the world. Parts of the orchard offered for sale have paid the owner over \$600 per acre per year for four years straight.

Do not come unless you are prepared to stay, for just so sure as you do come the combination of fat soil, grandeur of scenic beauty and Italian climate will steal you, body and soul. After one visit here you will be miserable any other place on earth.
