

NEXT SENATE TO SEE MANY NEW FACES

Retiring List May Be Fourteen Republicans and Three Democrats Before Elections.

WASHINGTON, May 5.—Five United States senators have already announced their voluntary retirement to private life at the expiration of their present terms, March 3, 1911. They are:

Republicans—Aldrich Rhode Island; Hale, Maine; Flint, California; Piles, Washington.

Democrat—Money, Mississippi.

Former Minority Leader in the House John Sharp has been elected successor to Mr. Money.

It is possible that this list may be augmented by the voluntary retirement of four additional republicans and one democrat because of the apparently certain defeat awaiting their candidacy. The republicans are: Senators Burrows of Michigan, Depew of New York, Scott of West Virginia and Warner of Missouri.

The democrat is Senator Tallaferrro of Florida.

Five republicans and one democrat seemed destined to fight it out, although the present outlook is discouraging for them, and sick to the contest even if certain defeat is evident in advance. The republicans are: Senators Beveridge, Indiana, Burkett, Nebraska; Carter, Montana; DuPont, Delaware; and Dick, Ohio. The democrat is Senator Frazier, Tennessee.

Senator Burrows tonight emphatically denied statements regarding his possible retirement sent out from Detroit. He declared his intention of remaining in the race and predicted that he would win. He also denied the rumor that there would be a meeting here early this week of prominent Michigan republican leaders to consider the advisability of his withdrawal as a candidate for re-election.

CARDINAL GIBBONS LAUDS "A GOOD HOUSEKEEPER"

BALTIMORE, May 5.—"I have ten times more respect for the woman who goes out and earns her living, toils for herself and family and becomes a good housekeeper than for the idle and gossiping society woman who passes away her precious moments in doing nothing."

Cardinal Gibbons spoke thus in the sermon at the confirmation exercises at the St. Joseph's Catholic church today. The confirmation class was the largest in the history of the church, 269 children and adults being confirmed.

"Above all, my boys and girls, be industrious," continued the cardinal. It is an honorable thing to work, and honorable and industrious work is what has made this great nation. Never be ashamed to work, and always be ready to do your share when the time comes.

"Men alone should not be industrious. Women also must be industrious, and the working woman always commands and should demand much more respect than the idle woman."

STOMACH MISERY FOR OVER SIX YEARS

Think of it! After six years of sour stomach, of gas eructations, of nervousness, during which time every meal lay on his stomach like a lump of lead, a man was restored to perfect health by MI-O-NA stomach tablets.

Read what Mr. Hoffman, landlord etc., as compeo ded in the Chicago "I suffered misery and intense pains from stomach trouble for over six years, and all the doctoring that I did or medicine I used were of no avail until about two years ago when I used a treatent of MI-O-NA. The first few days' treatment helped me greatly and upon using it a while I was made entirely free from any stomach trouble or complaint whatever. Since the cure by MI-O-NA I have regained my weight, I eat and sleep well, am never nervous, and my entire general health is much better."

—Max M. Hoffman, Webster, N. Y., Aug. 2, 1909.

MI-O-NA relieves stomach distress in five minutes. It acts like magic. It is guaranteed to cure sour stomach, gas eructations, heartburn, dizziness, biliousness and nervousness, or money back. For sale by druggists everywhere and by Chas. Strang, for 50 cents a large box.

PARKER "TOO OLD" FOR EVANS TO THRASH

Rear-Admiral Refuses to Engage in a "Mud-Slinging Controversy" With Naval Critic.

WASHINGTON, May 5.—"Capt. Parker is an old man, too old for me to thrash, and I will not engage in any mud-slinging controversy with him."

This is Rear-Admiral Evans' expressed opinion of Capt. James Parker, formerly of the United States navy, but now a lawyer in New Jersey, and author of the book, "Schley, Sampson and Cervera."

In the publication Capt. Parker speaks with bitter contempt of Rear-Admiral Evans, and likens the latter's book, "A Sailor's Log," to the "Tales of Baron Munchausen." Capt. Parker protests against the sobriquet, "Fighting Bob," saying that Admiral Evans was not conspicuous at Fort Fisher, and by no means deserves the title.

Admiral Evans said: "As to the sobriquet, I will say this: It was upon Capt. Parker's recommendation that I was restored to active duty after being retired for disability, and upon his recommendation that I was promoted soon after the war. In that recommendation, Capt. Parker said: 'His determination and bravery to enter the fort was wonderful and could be surpassed by none.'"

"It was in the attempt to force an entrance into Fort Fisher that I was wounded in both legs, and for which I was afterward retired."

"So far as my work in the Spanish-American war is concerned, I leave that, too, in the hands of my brother officers, among whom is Admiral Schley. It was Admiral Schley, who, when he made his report of the battle of Santiago, said that I handled my ship in a splendid manner and played a prominent part in the battle."

"During the Sampson-Schley controversy, I did not speak to Parker, owing to statements he made about me before that time. Since then he has tried to show his enmity."

"I will let my record from the time I entered the navy until today stand. It is in the hands of my brother officers and the general public. I have been before the public many years and I think the people know my history as well as Parker does. While Admiral Schley and I differed regarding the controversy, we are, I believe, friends. At least, I am friendly to Admiral Schley."

SHIP BACK WITH MANY VALUABLE SPECIMENS

SAN FRANCISCO, Cal., May 5.—Returned from a two-year cruise in the South seas, the steamer Albatross in the harbor today brings back specimens for the Smithsonian Institution valued at many thousands of dollars. The specimens include spawn of nearly every species of fish in the tropical waters in the Philippine archipelago. Specimens of large fish were shipped from Manila in tanks long before the Albatross arrived here.

The vessel was chartered and sent out by the fish hand game commission of the institute. It was in charge of Captain C. H. McCormick, U. S. N., and was equipped with a complete apparatus for catching fish, taking soundings, exploring ocean beds and had a supply of dynamite bombs to force deep sea fish to the surface where they could be captured.

The voyage of the Albatross was practically without incident. She encountered no storms and was never in danger. Her only unpleasant experience was a two weeks' quarantine at Honolulu because of chicken pox on board on the return trip.

BASEBALL DELAYING VOTE ON RAILWAY BILL

Aldrich Learns to His Dismay That "These Games Keep on All Summer."

WASHINGTON, May 5.—It may be several days yet before President Taft's railroad legislation as many delays have been caused by the desire of members to go to the afternoon baseball games, Friday and Saturday, early adjournments were necessitated by the absence of a quorum.

Supporters of the bill had planned to get a vote yesterday on section 7 of the bill, which relates to traffic agreements. Senator Elkins reported that he had sufficient votes to defeat the Cummins substitute for the Elkins-Crawford provision, which the senators in charge of the bill want adopted.

"Then let's get a vote," urged Senator Aldrich.

"It wouldn't be safe this afternoon," said Mr. Elkins. "Too many Senators are attending the ball game."

"That would affect both sides, wouldn't it?" persisted Mr. Aldrich. "I don't know about that," replied Mr. Elkins. "It seems to be our fellows who are away."

"Do these base ball games keep on all summer?" asked Mr. Aldrich in a grumbled tone. Vice President Sherman or Senator Crane could have answered, but both were at the ball grounds. So a newspaper man had to tell him.

"Twenty-two out of the next twenty-nine American league games will be played in Washington."

"Humph!" Mr. Aldrich condensed a world of meaning in this comment. Noses then were counted. Mr. Elkins made no attempt to get a vote.

MAN "KILLS" GRANDMOTHER TO GO TO BALL GAME

WASHINGTON, May 5.—It is a common thing, according to all reports, for a small boy who wants to see the ball game to make the excuse that his "grandmother" is ill, but is unusual for a grown man to resort such subterfuges.

Yet that is just what got Private William Dales, of the 24th United States Infantry into trouble. Stationed at Fort Ontario, this soldier wanted to visit Buffalo. So he "faked" a telegram from his "Aunt Jennie" saying that his grandmother was very sick. His deception was found out and he was promptly court-martialed, with the result that he was dishonorably discharged, due him, and sent to prison with hard labor for six months.

TAFT TO GET KICKED OUT OF UNION

Attends "Unfair" Baseball Game and Demand Is Made for His Expulsion From Steam Shovelers' Union.

CLEVELAND, O., May 5.—There are hard times in store for President Taft if he is ever forced to go back to his trade of "steam shove, operator" to earn a living. A demand is to be made for the president's expulsion from his union. It is all because of his love for the great American game.

Taft attended a ball game which had been declared "unfair" by the building associations. The building association declared non-union men were employed in erecting the Cleveland ball park.

Taft was notified that the game was unfair, he attended, and now, it is declared, his expulsion from the steam shovelers' union will be demanded.

RADIUM COSTS OVER \$5,000,000 PER POUND

And it is not expected that William B. Patten carries a barrel, but is a fact that he will bring several tiny tubes of the marvelous substance to show the audience and to perform experiments with at the Medford Opera house, Wednesday, May 11.

The term "mystery seems inadequate in referring to radium. "Miracle" appears one too strong. Each part of this wonderful mineral constantly gives heat and light and perpetually throws off the tiniest particles of itself, yet apparently it does not diminish in weight or strength, and scientists estimate this phenomena will continue for many thousands of years before radium dies out. Experiments with liquid air and wireless telegraphy will also add to the interest and entertainingly instructive features.

TESTIFYING AS TO MENTAL CALIBRE OF MILLIONAIRE

KANSAS CITY, Mo., May 5.—The defense for Dr. B. C. Hyde, the physician charged with having murdered Colonel Thomas H. Swope began today with the introduction of evidence tending to throw light upon the character and actions of the late philanthropist.

J. W. Spangler, Colonel Swope's confidential man, was placed on the stand. He testified that Swope drank to excess daily until eleven months before his death. Spangler declared that frequently the Colonel swooned at his office.
