DEATH OF PIONEER OF SOUTHERN OREGON

R. J. Cameron, a pioneer of Southern Oregon of 1852, and for the past forty-five years a resident of the Applegate valley, died at his home near Uniontown Friday morning at 8:30 this morning.

Mr. Cameron first came to Southern Oregon in 1852, and then recrossed the plains, returning in 1865 with his bride. He settled on the farm on Applegate, where he has lived ever since.

Mr. Cameron was a man of sterling character. Honest and conservative, at the same time he was one of the most progressive people of the Applegate valley. Nobody ever went to Robert J. Cameron in need but he was given relief.

He leaves a widow and six living children: Frank Cameron, of Union, Mrs. L. L. Jacobs, of Medford; Mrs. W. B. Hanley, of Burns, Mrs. Cater, of Houston, Texas, Miss Bernice Cameron of Medford and Dr. Warren L. Cameron of Uniontown.

The funeral will take place at Jacksonville Sunday afternoon.

Just A Word Mr. Investor

NO INFLATED PRICES Honesty, the Best Policy

Honesty has been my policy in all my deals, and I am satisfied that is what has made my ever increasing business, and I believe that this is the one thing that every investor looks for first in the man that he is thinking of dealing with, and again it has been my idea of showing the man only that which I thought would be a great money maker for him, and so far it certainly has been that way, and that said, I am going to tell you of one of the best buys in the valley below:

Deeded Water Right

54 acres of fine river bottom and beaver dam land, all free soil, the finest land for berries, fruit, vegetables or, in fact anything you want to plant in the entire valley today; 12 acres in high class apples, part 6 years old; 2 acres fine berries; about 5 acres alfalfa; about 2 acres in garden; about the same in potatoes; balance in grain; about 3 acres woodland. There are several acres of made land, which adds to the number of acres in the place. This place is about seven miles out, but only three miles from a railroad station. There is a deeded water right of several hundred inches that goes with the place; also a sorghum mill, 2 cows, about 30 stands of bees, some lumber, this year's crop, tools and implements, also some household goods. There is a fair barn on the place, but the house is old. This is without a doubt the best buy in the valley. This will not last long and I have it exclusively and I can deliver the goods.

Don't wait until tomorrow, but see about it today. Phone or write for an appointment.

\$13,500, \$8000 Cash, Balance 3 annual payments, 6 perc't

Nob Hill Addition

Lots are not yet ready to sell, but reservations have been made for the entire front row of lots and the high lots in the rear with the magnificent view of the valley, will be placed on the bargain counter for a quick cleanup immediately after the plat is approved. If you know a good thing when you see it—and most Medford men recognize a snap—you will at once inspect these lots, all staked out, and place a reservation with Dr. Bundy or W. M. Holmes, for your own future home. No such values are offered for the money in any other part of Medford.

These lots are the only lots close to the business section where at one sweep a magnificent view can be had of the entire city and the lower valley—and all the benefits of the best city conditions can be had and no assessments for paving. There are still eight of the snaps left. Four lots reserved yesterday, and at least two will move today.

There is only one Nob Hill and within a year these elevated lots will be valued the highest of any in the tract

Lots 9 and 10, in Block 2 are reserved for the purpose of placing the house now on lot 5 in Block 1, all the persons holding reservations in Block 1 preferring only modern bungalows on their lots. By the way, are you aware that at least twenty modern houses will be built within three blocks of these lots within six months?
