TAKEN TO PENITENTIARY TO SERVE FIFTY YEARS

NEGRO FINANCIER HAS CLEVER WAY MAKING MONEY

LOS ANGELES, Cal., May 13.—Advanced finance that would astound a Rockefeller or a Morgan will enrich C. B. Green, a negro, to the extent of many two-bit pieces if Halley's comet doesn't wipe him and his clients from the face of the earth on May 18.

Green has established himself as an institution of insurance against the comet. He figures if the speeding mass deals the earth a jolt he will be in the same fix as the man he has insured and will not have to settle claims. If the world escapes, he will be winner by a satisfactory sum.

Two weeks ago Green began insuring his brethren of the negro section of the city. A premium of 25 cents a week guarantees a payment of \$500 should the comet prove fatal to the policy holders. He has a proviso in his contracts, that death due to fright caused by the comet is not covered by the policy.

Mother Is Burned, Daughter Injures Spine and Valuable Horse Hangs Up on Fence, All in One Day.

(By A. C. Howlett.)

Scott Claspill, one of Butte Falls merchants and a general hustler, called Tuesday evening and informed me that last week old Grandma Allen, aged 90 years, and blind, had her clothes to take fire and came near being seriously burned, but he did not know the particulars. On the same day her little granddaughter, Agnes Allen, fell and hurt her spine so that she had to be carried home from school. Dr. Holt was called and Tuesday morning reported that she was getting along quite well, and the same day John Allen, with whom Grandma Allen lives, went out and found one of his horses hung on a fence where he had tried to jump and got caught on the fence. I did not learn if it was a wire fence or not, or how bad the horse was hurt. It looks as though John's troubles do not come single.

ROOSEVELT TO STUDY U. S. SOCIAL CONDITIONS

BERLIN, May 13.—That Theodore Roosevelt intends to apply himself to the study of social conditions when he returns to the United States was indicated today when he substituted visits to model tenement houses for the poor, old people and homes and insane asylums for other features that had been on his program. He inspected each place closely, making copious notes. He has gathered statistics regarding such institutions and has announced his intention of making similar studies in England.

His voice today is considerably improved and he has suffered no great inconvenience following his lecture yesterday.

The German people are surprised and delighted at the democratic attitude of both the kaiser and Roosevelt. The genuine friendliness of their companionship in which formality and traditions have been cast to the winds has created favorable comment among all classes.

Some persons are wondering what might have happened in the way of precedent smashing if the kaiser had not been restrained by the decorum imposed by his mourning for the death of his uncle, King Edward of England.

WIDOW GETS POSSESSION OF ESTATE AFTER YEARS

OAKLAND, Cal., May 13.—Mrs. Joseph Boardman and her young daughter are today in possession of the million-dollar estate left by her husband who died seven years ago. Since then the question of division has been in the courts. The will contest was settled by Judge Wells' decision in favor of the widow and her child, dividing the estate evenly between them.

Boardman left four wills, giving his finances to Oakland charities. He had been declared mentally incompetent before his death and the wills were denied probate.

The estate was appraised at \$826,000, but the advance in real estate has since increased this to more than a million. The will contest has been before the courts several years.
