BISHOP PREDICTS LAW TO STOP BAD MARRIAGES

BOSTON, May 30.—Bishop William N. McViekar of the Episcopal diocese of Rhode Island believes that persons physically and mentally unfit should be prevented by national laws from marrying, and that a commission of experts should be appointed to pass upon the fitness of would-be brides and bridegrooms.

"I fully believe that in less than a generation we shall see national legislation that will check indiscriminate marriage, and so prevent the propagation of disease, mental and physical.

"Hundreds of cases are on record of whole families who are criminals. Sons follow fathers in evil ways, and generation after generation is a means of breeding more criminals. Persons afflicted with tuberculosis should be prevented from marrying. Incipient or threatened idiocy and insanity should be treated in the same way. A person apparently free from taint, yet of a family in which there was inherited insanity, ought to be prevented from marrying. In addition there are many diseases, purely physical, that ought to be, and will be, considered grave enough to act as a bar to marriage.

"It would probably be necessary to establish a sort of 'marriage commission' in each state or large city, the members of which should decide on each applicant."

CAT IN THE BED SPRINGS SCARES MARRIED COUPLE

DARBY, Pa., May 30.—A large gentleman cat having no known home caused several kinds of excitement and diversion in the residence of Edwin Smith of North Sixth Street, Darby, last night, which for a time baffled an explanation.

In the afternoon, while one of the bedroom windows was open, the cat entered the house and finally lodged itself comfortably between the springs and the mattress of the main bed and fell asleep.

Shortly after 11 o'clock Mr. and Mrs. Smith retired, and, after getting in bed, were aroused by hearing a terrific shriek, seemingly beneath them. At first it was thought that burglars were in the house, but finally, turning up the mattress Smith detected the big grap cat, which, finding the weight of the spring lifted, lost no time in making its escape.

END OF OLIVER MEETINGS

Large audiences greeted Dr. Oliver morning, afternoon and evening.

Three great sermons characterized the day. In the morning the subject was "The Heroism of Christianity and Its High Standard of Life."

In the afternoon the subject was "Manhood, and What Constitutes It."

In the evening the subject was, "The Unpardonable Sin," the text being Matt. 12:31. "I say unto you, every sin and blasphemy shall be forgiven unto men; but the blasphemy against the Holy Spirit shall not be forgiven, neither in this world nor in that which is to come."

Dr. Oliver in the evening said in part:

"There is no hope for the man who does not want to clean up, but for the man who repents and forsakes his sins there is hope. In a meeting of this kind a young man said that Christianity was ideal, he believed in Christ, but he said that he could not live the life. And confidentially he said, 'If I accept Christ I must go to Peoria, Illinois, and confess to having taken money that belonged to my employer. It was taken years ago, and it is not known that I took it.'"

"He was brought to see that there could be no hope for the man or the woman who covers up sin instead of cleaning up the life from its pollution. He went and confessed and made restitution and today that man stands like Gibraltar for God and humanity. Many people when they came to the Pacific Coast left their Christianity east of the Rocky Mountains, and here live the aimless drifting life, think that they are trifling with eternal issues. Neighbor, hear me! You may run from duty; you may refuse to obey the voice of conscience, but you cannot run from the judgment. Psychologically, repeated resistance to known duty and to the offer of salvation establishes a negativ attitude of the soul to these things. With repeated offers there come with increased emphasis, No.

"No will be the eternal requiem of the lost soul. When the Israelites were to be protected from the avenging angel the blood of the slain lamb was to be sprinkled on the door posts and on the lintel of the door. To fall in this was to bring disaster on the house. Father, mother, is the blood of the Lamb slain from the foundation of the world protecting your boys and girls from the avenging angel?"

"A young Southern soldier boy was seriously wounded and his life's blood was fast ebbing. When asked what message he had to leave he said: 'Put your hand under my pillow and there find the Bible mother gave me when I left home with the injunction to pillow my head on God's promises. Send the Bible to her and tell her that I died like a Christian, not afraid to go.' Neighbor, resist not the strivings of the Holy Spirit, and Christ will not be ashamed of you at the judgment."

Dr. Oliver was given a free will offering yesterday of \$900. Mr. W. H. Gore took the offering. In his remarks he was frequently applauded. He said that he had not seen nor heard all that Dr. Oliver had done or said, but in so far as he had seen and heard, he gave Dr. Oliver his unqualified endorsement. At these words an audience of 2,000 people broke into loud applause, when Mr. Gore said: "I see that I am not alone in a high appreciation of Dr. Oliver."

When Dr. Oliver rose for the purpose of addressing the people the whole audience rose to their feet and gave him the Chautauqua salute. It was evident yesterday that the people have highly appreciated Dr. Oliver, despite the slander of those on the street who never heard him and the papers that misrepresented him.

Dr. Oliver is a great preacher, and he goes hence with the people's benediction upon him.

He had with him a band of noble helpers. During the meetings about 500 people lined up for Christ.

VILLAGE OF 25 PERSONS HAS THREE NEWSPAPERS

MITCHELL, S. D., May 30.—The increasing number of settlers has given an added impetus to the establishment of newspapers in the western part of the state to get the final proof business which will eventually be handed out. The papers have grown numerous in the past few months, and at Farmingdale three newspapers are thriving on a population of about 25 people and three or four business houses.

The editors of two of the papers have adopted unique names, one being called Screwdriver and the other Gimlet, the former being the latest accession to the town. The third paper takes on a more dignified name

and is called the Great Western Magazine.

It is not likely that as small a town in the world has as many newspapers as Farmingdale, and they are all waiting for the final proof harvest to start.

DEATH OF HUSBAND FORETOLD IN DREAM

WASHINGTON, Pa., May 30.—That the death of her husband in an automobile accident followed a dream in which she saw him killed was the declaration today of Mrs. John Datig. The dream came true Sunday when Datig was killed in an automobile wreck near here.

Harry Whitley, a well-known mu-

sical, was also killed and Charles Babbitt fatally injured.

The men were attempting to break a speed record from Mariana to Washington when the machine struck a bridge and was demolished.

The dream corresponded in many details with the accident.

NEW YORK, May 30.—Attorneys for Albert Wolter, the youth convicted of having murdered Ruth Wheeler, a stenographer, and sentenced to be electrocuted in June, filed notice today of an appeal from the judgment and verdict. The court allowed a stay of execution and an appeal will be heard in October.

The Pasadena of Oregon

People of refinement; people with means; retired business men; professional men; college and university graduates, are coming to the Rogue River Valley by the score. Within the past two years almost a hundred Chicago and Evanston, Illinois, people have purchased homes near Medford, and nearly every one of them has a friend or two whom they hope to induce to come and locate in the valley.

New York, Philadelphia, Boston and many other eastern cities are almost if not quite as well represented, while St. Paul and Minneapolis have more representatives here than any other several cities combined.

Think these statements over and get your thinker going. Write to the undersigned or the Medford Commercial Club for detailed information about the country, and you will never have cause to regret it.

Bearing Orchards Near Medford

Most of the producing orchards have been held in large holdings until recently. A few weeks ago the Eden Valley Orchard, containing 605 acres, was placed on the market in any desired acreage. We have been authorized to offer the bearing apples and pears for sale, and if you know anything about the country and want a desirable block of bearing trees, write or come soon. During the past week over \$150,000 worth of the property has been disposed of. It is located within two miles of Medford at an elevation of about 100 feet above the city and is one of the best kept orchards in the world. Parts of the orchard offered for sale have paid the owner over \$600 per acre per year for four years straight.

Do not come unless you are prepared to stay, for just so sure as you do come the combination of fat soil, grandeur of scenic beauty and Italian climate will steal you, body and soul. After one visit here you will be miserable any other place on earth.
