PINK SHEET SUED BY RAE

Head of Firm of Rae & Hatfield Asks \$100,000 for Libel From Editor Who for Two Years Past Has Attacked His Reputation.

NEW YORK, June 8.—George Rae, head of Rae & Hatfield, started suit against H. L. Preston, proprietor of the pink sheet, this week for \$100,000. In the summons and complaint served on Preston Wednesday Mr. Rae charges malicious libel and embodiment in the complaint a number of libelous items which Preston has published about him. It seems as though for the past two years Preston has gone out of his way to publish what appeared to be his personal opinion of Rae at different times. There was very little if any news in the items that Preston manufactured all of them containing for the most part uncalled for slurs of the most despicable character.

George C. Delacey, Mr. Rae's attorney, who is one of the best known lawyers in New York which case is in hand. From the papers which Mr. Rae files it is shown that he has saved every copy of the pink sheet for the past three years which has contained any reference at all to him and he has embodied all of these items in his complaint. The law of New York is such that when suing a newspaper for libel it is necessary to show malice and a succession of attacks such as Preston has made on Rae provides sufficient evidence to prove malice. Rae says there is going to be no letup, and he intends to find out whether a man of Preston's caliber can use his paper to make unwarranted attacks on reputable business men.

PEACE DOVE DRIVEN OFF

All Efforts to Settle Transfer Teamsters' Strike at Portland Fail—Strikebreakers Said to Be En Route From East—Draymen Insist

PORTLAND, Or., June 8.—All efforts to settle the transfer teamsters' strike has thus far met with no success. The 400 striking teamsters say they are determined to secure their demands for an increase of 25 cents per day, and recruits are continually joining their ranks.

It is reported that strikebreakers are en route from eastern cities, but the rumor is denied by officials of the Draymen's association.

A voluntary arbitration committee held several meetings yesterday and will hold conferences today in an effort to patch up the differences between the strikers and employes.

With the Draymen's association firmly determined to establish the open-shop policy and the teamsters firmly convinced that they have the strike already won, there seems little chance for a peaceable settlement.

The teamsters declare that the drivers for one of the largest nonunion transfer companies in the city will join the union today and that a number of other companies probably will be tied up within a few days.

The picket system established by the Teamsters' union is being strictly maintained. Pickets have induced a number of nonunion drivers to join the union ranks.

Mayor Simon has refused the request of the employers that a policeman be detailed to each wagon driven by a nonunion teamster.

HUNDRED AND FIFTY PAID IN FINES IN MAY

The mayor's report shows that \$150 in fines were collected by the mayor's court during the month of May.

Sport and Athletics in America. Sport and athletics in America are vastly different terms. Sport should be played, not worked. Athletics as practiced in general are too strenuous, too spectacular and too exclusive. We are not an athletic nation. Far from it. We talk athletics, but there is too much grand stand and too little actual participation in games.—Malcolm Kenneth Gordon in Century.

29 PERCENT OF CROP REMAINS

Missouri State Board of Horticulture Reports Widespread Damage to Apples—Only Southern Tier of Counties Left With Partial Crop.

COLUMBIA, Mo., June 8.—The state board of horticulture has received special reports from the leading fruit growers of nearly all the counties which show the condition of the crop of Missouri to be as follows:

There was a widespread injury from the low temperatures which prevailed between April 30 and 25 and as a result it seems that practically all the fruit was killed in the central-northern, northeastern, eastern and in many of the counties of the central part of the state. With the exception of three or four counties in the second tier south of the Missouri river and extending southwestward about four counties back from the Mississippi river, all the regions mentioned seem to have been swept clear of practically all kinds of fruits.

The fruit that remains in good condition is confined to approximately one-third of the state, consisting of three or four tiers of counties along the western border and the whole of the southwestern corner, as well as one tier of counties along the Arkansas line extending as far eastward as Ripley county. In other words the apples and peaches were found to be confined to about 40 or 45 counties mainly in the west (from Iowa to Arkansas) and in the southwest and south. In these 40 or 45 counties the condition of the apple crop for the whole area is 46 per cent, while for the whole state it is only 26 per cent. In the 40 or 45 counties the peach crop amounts to 25 per cent, while for the whole state it is only 18 per cent.

The best prospect for peaches is in the well known Koshong district in Oregon and Howell counties where the outlook is for a full crop. The highest percentage of a crop of apples is reported from Buchanan and the three surrounding counties. However, eight or ten of the counties in the extreme southwestern corner of the state have prospects of from 25 to 50 or 60 per cent of a crop.

The cold weather has caused apple scab to appear in a few places, particularly in the southwest. Curculio have begun to puncture peaches in orchards that have not been sprayed.

CHERRY SHIPMENTS ABOUT CONCLUDED

SACRAMENTO, Cal., June 8.—Early sections have about completed cherry shipments and the supply now is coming principally from San Jose. The quality continues fine.

There is a fair movement of apricots from Winters and Vacaville, considerably larger this week than previously.

Alexander peaches increased considerably in movement this week, but total shipments will not be as heavy as in former years. The quality has been normal. Crawford's have been dropping quite heavily and the yield will be curtailed in some districts, mostly in the early sections.

Small plums have been moving in a small way and next week will move freely. The fruit is of good quality. A recent wind storm reduced the crop to some extent, but the total supply will be liberal.

Bartlett pears and grapes continue to develop in a satisfactory manner. Recently the weather has become warmer and fruit is developing more rapidly than previously.

Hotel Arrivals.

Would the Fact that Somebody Wanted to Pay You More Money Than You're Now Earning INTEREST YOU?

If so—and there's probably no reason to use the word "if"—then the help wanted ads should loom up as the most important things in town for you.

You should watch them with a watchfulness that is not to be denied. You should answer and investigate every one of them that LOOKS GOOD TO YOU—for it is in this way that you will finally find the right one—the one that will mean everything to you—that will alter and change and redirect the course of your earnings and goings, of your aspirations, your accomplishments!

WANT ADS—ONE CENT A WORD.

GIRL WITCH DRIVEN OUT

Indians Compel Fifteen-Year-Old Miss to Leave Camp in Search for Magic Spring Which Drives Evil Spirits Out of Body.

SAN BERNARDINO, Cal., June 8.—After wandering for four days in search of the Arrowhead Hot Springs, a bath in which evil spirits are driven from one's body, Mamie Holmes, a frail little Indian girl of 15 years, is recuperating today at the Santa Manuel Indian agency.

Mamie had been declared a witch by the old men of her tribe on the Coachella reservation. She had been driven from her parents' home and compelled to sleep outside the village. Last Friday she learned that the tribe's council had decided that she must die, and under the cover of night she started on foot for the Arrowhead springs, the waters of which, the Indians believe, will break an evil spirit's charm.

Officials of the Santa Manuel agency heard of the girl's flight and for three days tried to find her on the desert. Their search was not rewarded until last evening, when they came upon the little girl, weary and worn, within three miles of the springs. She had been unable to go further.

Mamie will be sent to the government's Indian school at Phoenix, Ariz.

THE GARDEN OF LOVE.

I WENT to the garden of Love And saw what I never had seen. A chapel was built in the midst, Where I used to play on the green.

AND the gates of this chapel were shut And "Thou Shalt Not" writ over the door, So I turned to the garden of Love That so many sweet flowers bore.

AND I saw it was filled with graves And tombstones where flowers should be, And priests in black gowns were walking their rounds And binding with briers my joys and desires.

—William Blake.

THE PIONEERS.

TOAST to all the pioneers Who press through dangers, doubts and fears To be with their achievements great.

The playthings of a tricky fate And come victorious to stand, But enter not the promised land.

In every field of human thought Their skirmish battles have been fought They are the scouts who forward go And draw the fire of all the foe.

Their failures are our beacon lights And their successes point our heights.

Their names are not on any tongue, They seldom hear their glories sung. Rebuffs are theirs instead of praise, The later comers wear their bay.

No costly piles surmount their bones, Their monuments are stepping stones.

—McLandburgh Wilson.

THANKSGIVING SUNSHINE.

CHEERYS hearts and smiling faces, Gentle speech and ways, Make a cloudy, dull Thanksgiving Sunniest of days.

—Youth's Companion.

Net a Bit Consented. Husband—How concited you are, Ethel! You're always looking at yourself in the glass. Wife—I'm sure I am not. I don't think I'm half as pretty as I really am.—Illustrated Bits.

The kingdom of Prussia gets out of its cultivated forests over \$24,000,000 a year.
