CATCEL PART OF CONTRACT

Extension of Oregon Trunk From Madras South to Edge of Klamath Reservation Postponed on Account of Condition of Money Market.

PORTLAND, June 9.—Final survey of the United Railways route through Tillamook Bay has been approved by President John F. Stevens of the road, and contracting firms are now going over the proposed line for the purpose of preparing bids on construction.

While plans have been completed, so far as possible at this end of the line, for the letting of the contract for the construction of the Tillamook extension, Mr. Stevens says that immediate action will depend probably on the condition of the money market in the East. This condition, which has not been satisfactory, was given an additional setback by the stock flurry that followed the filing by the government of injunction proceedings to restrain the increase of freight rates decided upon by the Western railroads.

Financial Flurry's Effects.
This situation has already caused a temporary curtailment in work under way in Central Oregon. On Monday the Oregon Trunk Line canceled a part of the contract recently let to H. C. Henry for the construction of the road from Madras south to the edge of the Klamath Indian reservation. The cancellation was made necessary by the unsatisfactory financial condition in the East and involved about 80 miles of work, or the section from Bend southward.

The portion of the contract covering the 45 miles between Madras and Bend is still in force, and Mr. Henry will construct the railroad to the latter point. Actual work on the contract has not yet commenced, but engineers' construction camps had been established and Mr. Henry was moving in his outfits. The engineers who have established camps south of Bend were called in yesterday.

Mr. Stevens says that the abandonment of no other part of the plans of the companies he represents is under consideration, so far as he knows, and that he believes the suspension will not extend further. Mr. Stevens also expressed the hope that the abandonment of the work south of Bend would be temporary only. Conditions that have delayed work in Central Oregon, it is thought, may prevent the immediate letting of the contract for the Tillamook extension of the United Railways. The extension of the United Railways, however, is definitely planned and will be built in the course of time.

Central Point orchard lands again top the market, 12 acres having been sold yesterday (Tuesday) for \$22,000. The buyer of this fine piece of property was George A. Butz of New York city and the land in question was 12 acres of the orchard originally belonging to W. H. Norcross, and known as the Plainview orchard. The above 12 acres were sold to a Mr. Cutler last December, the price paid by Mr. Cutler being \$16,500 without the crop. This week Mr. Cutler sells the same tract for \$22,000. The whole of Plainview orchard, consisting originally of nearly 24 acres, has sold within the past three months for \$44,000, the buyer of the other part being Attorney Beckwith, also of New York city. The orchard lies about one and a half miles from Central Point on Bear creek and is considered one of the most valuable properties in this section of the Rogue River valley. The sale was made through the agency of the Huntley-Kremer company of Medford.

Spotted Dog Spoils Deal.

Because Joe Scott would not "throw in" the black and white spotted coach dog which travels with him part of the time on the water wagon and part of the time off, he lost the sale of his water wagon and team.

Joe was approached by an old resident the other day and was asked to put a price on his sprinkling outfit "for the benefit of an old friend of mine," said the prospective buyer.

er, "whom I want to put on the water wagon."

"Six-fifty just as she stands," said Joe.

The bargain was made ??????? and Scott thought he had sold out. Two days afterward the purchaser appeared and asked if the dog went with the wagon. There was nothing doing in that line. "I sold you the rig as it stood," said Scott. "Neither I nor the dog were on the water wagon at that time, so the dog don't go."

"My client will not take the outfit without the dog," said the purchaser. And the deal was called off.
