## DAY PREDICTS HEAVY CROP

H. W. Day of Sqohl & Day Gives Summary of His Trip Through the Northwest—Prosperity in Fruit Sections Generally.

(Special Correspondence.) NEW YORK, June 4.—Enthusiasm over the prospects for good fruit crops and a prosperous season, H. W. Day of Sqohl & Day, and his son, returned from California and the Northwest on Thursday, where they made a special study of deciduous fruit conditions. They report that the cherry and apricot crops of California are rather light, but of good quality. The peach crop is expected to be large, while pears will not be below normal. It is not expected that over 60 per cent of the Bartlett's will leave that state, the decrease being aided by the heavy purchases and bids at advancing prices made by canners who were anxious to tie up crops for five years. Fall and winter pears are also very short, especially Winter Nellis. A very heavy crop of grapes is looked for, especially Tokays. The bunches are very large for so early in the season. Plums and prunes promise a fair yield, especially of the better varieties, although Tragedies are very short.

### In Medford District.

In the Medford section of Southern Oregon Mr. Day and his son ascertained that there will be no more Bartlett's than last year, when about 65 carloads were sent in. Comice and D'Anjou pears will be equal to last year's yield, possibly a few more cars. A very good crop of apples, especially of Spitzenbergs and Newtown Pippins, are expected. In the Hood River section, there will be a few cars of Bartlett's and a heavy increase in apples, especially Spitzenbergs and Newtown Pippins. Mr. Day was told that 90 per cent of the apples in bearing and growing in that section are of these two varieties.

### In Washington Section.

At North Yakima, Wash., a very large crop of all fruits is expected, but the peaches there are marketed in the northwest and in the mining states. They have a pretty good crop of Bartlett pears. Some of the Winesap apples are very fine, and there is a large crop of other varieties. The yield at Walla Walla and Milton will include 125 cars of Italian prunes, quite an increase over last season's crop.

The apple crop of Idaho is very large, and there will probably be over 400 cars of Italian prunes where last season they had a very light crop. However, as these prunes from Oregon and Washington are out of the way, it will strengthen the marketing season, especially so as the prunes in Oregon and Washington will be very early this year.

### Prosperity General.

Mr. Day found that the frost did some damage in Utah, and that there will perhaps be about 400 cars of peaches marketed from that state, with few if any pears and prunes. The apple crop in Utah will be fair.

A tour of Colorado convinced Mr. Day that a very heavy crop of all fruits was expected in that state, but that the same was cut down by unfavorable weather. However, possibly 1200 cars of peaches will be sent from Palisade and Paonia. Almost all are Elbertas, and over 2000 carloads of apples if all goes well. "There is great prosperity all over the fruit section of the northwest," said Mr. Day, "almost every grower has an automobile, finding the same almost absolutely necessary. The banks have plenty of money, the crops are good and the growers all look forward to a satisfactory year."

## APPLES STEADY IN NEW YORK

Good Demand for Fancy Fruit in Metropolis—No Aggression Selling—Receipts Light and Movement Slow—Cold Wave Benefits.

(Market Letter.) NEW YORK, June 4.—Apple market calculations were again upset this week by an unexpected drop in the temperature, which caused an improvement in the demand for fancy fruit. The movement, however, was slow, and the total volume of business transacted was light. While strictly fancy apples were firm, in none of the few assortments offered was there any sign of aggressive selling. Receipts were light the movement slow and prices on ordinary to choice kinds favored buyers.

The recent cold weather has proven a great boon to holders of apples in up-state and other places. Up to a few weeks ago, the belief was entertained that the season would end unsatisfactorily, but recent weather conditions upset these predictions, and the general opinion now favors a satisfactory windup of the year.

The interruption of Memorial Day at the first of the week had an adverse effect upon the market, but owing to the very moderate receipts it was possible to maintain recent prices on the highest grades of fruit. Medium kinds, however, were neglected. Fancy Baldwins had the call at prices ranging from \$4.00 to \$5.00. Limited quantities of strictly fancy marks sold as high as \$5.50, while undergrades dragged at \$3.00 and \$4.00.

Northern Spy apples, when showing strictly fancy quality, commanded almost as much as the Baldwins, but \$2.50 to \$4.00 were the more general selling prices.

Greenings are practically out of the market, and the few lots offered this week did not show quality enough to bring over \$2.50 to \$4.00 per barrel. Some Missouri Ben Davis fruit commanded as high as \$6.00, but the latter figure was extreme, and most of the sales were made on a basis of from \$3.50 to \$5.00 per barrel.

Western box apples were in fair demand, and prices remained unchanged. Colorado Missouri Pippins brought \$2.25 to \$2.50; Washington Winesaps, \$2.25 to \$2.75, and Ganos, \$2.00 to \$2.50.

### Eastern Markets.

Boston apples, Ben Davis, per barrel, \$2.50 to \$3.25; Stark, \$3.00 to \$3.75; Northern Spy, \$3 to \$4.50; Russet, \$3 to \$3.75.

Philadelphia—Receipts of apples this week were fully equal to the demand, as a result, prices showed no material change. Baldwins moved at the range of from \$3 to \$4.50 per barrel, and Russets at \$3 to \$3.75. Undergrades of both kinds sold at a range of from \$1.75 to \$2.50 per barrel.

Cincinnati—Apples were in light receipt this week and firm. The first new apples of the season were received, but the quality was not attractive. New apples, per hamper, \$1.75 to \$2; old, per barrel, as to variety, \$3.75 to \$6.50; per box, \$1.75 to \$3.

### MANITOBA MUST LOOK TO OREGON FOR FRUIT

C. Metcalfe, commissioner of transportation and markets for the British Columbia government, threw a bombshell into the Manitoba fruit importers' camp when he stated that Manitoba would not get any shipments of fruit this season from British Columbia, as Alberta and Saskatchewan would require it all. There will be nothing left for Manitoba. It is not on account of a scarcity in the crop, but the market in the prairie provinces is growing too big to handle.

If Manitoba wants coast fruit her dealers must go to Oregon, Washington and California for supplies, paying a stiff duty. This has upset the plans of the fruiters for this season's supplies.

### WHIPPLE HALL NOW “WORLD GREAT AVIATOR”

Whipple S. Hall, one of the world's greatest aviators, arrived in Eugene yesterday with his Curtiss aeroplane, and the big bird like piece of machinery is being set up at the fair grounds. The starting place is being fixed up and all preliminary arrangements are being made for Saturday and Sunday's flights. The event promises to be of rare interest, and already farmers and people from neighboring towns are arranging to come to Eugene to see the “King of the Air” take his flight on his white pinions.

The above from the Eugene Register will be interesting news to the Medford Atrahip Stung club. Mr. Hall was unable to fly at all here, not even getting as high up in the air as the garden fence.

### STATE EDITORS' MEET AT BAKER POSTPONED

BAKER CITY, Ore., June 10.—Because of the large number of editors attending the Rose Carnival who could not attend the meeting of the State Editorial association in this city on June 17 and 18, the meeting has been postponed until a date to be chosen later by the executive committee. At that time the editors will be the guests on an excursion over the Sumpter Valley railroad, noted for its mountain scenery, and will also be taken on auto trips through the valley. The Commercial club will give them a big banquet and they will also be entertained at La Grande.

### Honors for an Ashland Boy.

Word comes to Ashland that Lieut. Thomas W. Hammond, U. S. A., who has been acting as commissary and quartermaster for his regiment on Alaska assignment for some time past and who had expected to go with his command to a Texas post shortly, has been detailed as an instructor at the national military academy at West Point, a distinction which many Ashland friends will rejoice to see the young army officer attain. He expects to begin his work at the school with the new term.
