Assassin Must Hang.

CAIRO, Egypt, June 13.—The court of session has denied the appeal of T. I. Abraham Wardani from the judgment of the lower court imposing a death sentence on Wardani for the murder of Premier Boutros Pasha.

The case has attracted considerable attention in Europe and later in America, because of the utter-

ances of Col. Theodore Roosevelt, who, in his speech at Alexandria, Egypt, condemned the action of the Egyptian nationalists in attempting to gain importance through assassination.

KAUFMAN PLANS TO TOUR ENGLAND SOON

SAN FRANCISCO, Cal., June 13.—If Big Al Kaufman manages to put a crimp in "Bone-Crasher" Sam Langford at their little fistie meeting he will make a tour of England under the management of Bob Brady and glean a little coin from the English sport lovers. If he fails to win, he is going away.

Al is training at the Seal Rock house with Jackson, and says he is in first-class shape. He sees nothing to the scrap but himself, and declares that he is going to lower Sam's championship pennant and send him back to Boston with a large "L" opposite his name in the record books.

ABOARD STEAMSHIP KAISERIN AUGUSTE VICTORIA, June 13.—With "Bongo," Miss Ethel Roosevelt's dog, in full possession of two pairs of sea legs, the entire Roosevelt family and entourage reported a clean bill of health today.

The colonel was busy throughout the morning writing and reading letters.

Yesterday Roosevelt attended worship and addressed the European immigrants aboard the vessel, welcoming them to America and exhorting them to become good citizens. At the conclusion of his speech the emigrants crowded about him and kissed his hands.

Answers Roosevelt.

LONDON, June 13.—Sir Edward Grey, secretary of foreign affairs, today answered the criticism of England's policy in Egypt voiced by Col. Theodore Roosevelt recently at Guild hall.

Sir Edward declared that the government has complete confidence in Sir Eldon Gorst, consul general of Egypt and British agent.

The reply of Sir Edward was received with especial interest, as Roosevelt spent his last night in England as the guest at the country home of the foreign secretary.

Grey's speech came in response to questions asked by Sir Henry Daldell, a liberal. Grey declared that there was nothing in Roosevelt's address to justify the questions of the liberal representative.

INSURANCE COMPANIES MUST PAY LOSSES

SAN FRANCISCO, Cal., June 13.—Three insurance companies which endeavored to avoid payment on 35 policies following the earthquake and fire of 1906, are subject today to payment of \$208,446.08 as a result of a jury's verdict in the United States circuit court. The defense of the companies lay in the earthquake clause, which provides that fires caused by earthquakes would nullify the payment on all policies.

The taking of testimony covered a period of four weeks and the jury remained out 48 hours before returning a verdict.

The defendant companies are the Commercial Union Insurance, Palatine Insurance and Alliance Assurance. The California Wine association will receive \$242,466.07 of the total award.

MRS. MORRIS WRITES LETTER TO UNCLE JOE CANNON

WASHINGTON, D. C., June 13.—Mrs. Minor Morris, whose forcible ejection from the white house several years ago caused such a sensation, has written a letter to Speaker Cannon, deploring the fact that the defeat of her brother, Representative Hull of Iowa, has been explained by his regularity and devotion to Cannonism.

"No doubt," says Mrs. Morris in her letter to the speaker, "you have made your share of the trouble, but I protest against your being the opponent of J. A. T. Hull's defeat, for I do not think you were responsible for it.

"Cannonism did not defeat Mr. Smith of the same state. Cannonism cannot make or unmake."

CONVICT SEEKS REVENGE AFTER HIS RELEASE

CANTON, Ohio, June 13.—Frank Nunamaker, a former convict, is in jail today pending the outcome of wounds inflicted on John Pope of Alliance, Ohio, and two other men while they were attending a charetizing in a church at Louisville, near here. Pope may die.

Nunamaker alleged he was sent to prison two years ago on testimony of Pope. With two revolvers and a dagger he appeared at the church last night and shot Pope in the breast and lightly wounded two other men. The influence of the priest prevented a lynching.

The local Rugby union is entertaining the Americans and New Zealanders. The visitors have already been driven around the city and lunched at the clubhouse, where President Calvert heartily welcomed the Americans, not only "as Americans, but also as representatives of the culture and athleticism of the universities of the United States."

ABE LABEL OF CALIFORNIA MEETS LOUIE LONG TONIGHT

TACOMA, Wash., June 13.—What is expected to be one of the best boxing bouts in Tacoma for a long time is that scheduled for tonight between Abe Label, the clever Californian, and Louie Long, the veteran local fighter, over a ten-round route. The bout is to be the topliner at the snoker of the Puget Sound Athletic club. Both men have finished their training and report themselves in fine condition. Label will make his first appearance here, but he has made a strong impression by reason of his victory over Roscoe Taylor at Portland a short time ago. Taylor was regarded as the premier lightweight in this section of the country.

HAMILTON SETS NEW RECORD.

(Continued from Page 1.)

Curtiss used in his spectacular flight from Albany to New York recently.

Many See Start.

By this time nearly 400 persons had gathered on Governors Island, from which the start was made. The weather was perfect. Hamilton had stayed over night at the island, sleeping beside his machine. He arose at daybreak and began final preparations for the flight. Glenn Curtiss placed his staff of mechanics at Hamilton's disposal, and with Hamilton he examined and tested the bi-plane.

Hamilton wore a life preserver, an oilskin coat and puttees over his street clothes. He doesn't wear a hat.

Ascends Swiftly.

After the new propeller had been attached and tested Hamilton as-

cended swiftly, circled the island and then started for the Jersey shore. He passed over the upper bay at a height of 800 feet and was going at a mile a minute, headed for the New Jersey meadows.

As the machine crossed the river the aviator waved his hand to the crowds that thronged the piers and docks to get a look at him. River boats blew their sirens and many vessels dipped their flags.

Has Pathfinder.

At Elizabeth, N. J., Hamilton turned inland and followed a special "pathfinder," consisting of an engine and one car. The car was swathed in white blankets so that Hamilton could follow it over the unknown course.

The pathfinder started at a fast clip and soon was tearing along a mile a minute with Hamilton flying 500 feet directly above it.

The aviator passed Elizabeth at 7:45; Rahway, N. J., at 8:45; Trenton at 8:50 and Bristol, Pa., at 9:04. He arrived in Philadelphia at 9:28.

Asks for Cigarette.

Hamilton three times circled the aviation field at Front and Erie streets and then landed a block from the field. He was surrounded by 20,000 cheering persons and hundreds fought for the opportunity to grasp his hand.

In the center of the maelstrom of men, women and children, Hamilton said: "Anyone got any cigarettes?" A dozen packages were thrust toward him. The aviator accepted one and almost immediately scores of matches were lit and held toward him.

Weather Fine.

"It was the most beautiful flight I ever had," said Hamilton. "The weather was great."

The crowd's first view of the aeroplane was over Frankford station. It seemed quivering in mid-air, swooping upward and downward in 50-foot dips.

Hamilton bore a letter from Governor Hughes of New York to Governor Stuart of Pennsylvania. When he delivered the message to Governor Stuart the governor congratulated him on his successful flight. Hamilton also bore a letter from the New York Times to the Philadelphia Public Ledger. After delivering this he hurried to a hotel for luncheon.

MANY ROADS ARE BUILDING

This Year Contracts Will Aggregate About \$30,000,000—Many Other Projects Will Probably Be Mapped Out and Started Before 1911.

PORTLAND, Ore., June 13.—(Special.)—By the end of the present year it is promised that the most remote districts of Oregon will be served by railroad transportation.

Central Oregon will have two main lines, the Oregon-Trunk and the Deschutes railroad, and the building of these roads is of course the prime achievement of the year in transportation. In addition, the Harriman line to Tillamook will be completed and much progress will have been made by the end of the year on the Natron-Klamath roads. This year the cost of contracts for new railway lines and betterments in this state will aggregate about \$30,000,000. Many other important new projects will undoubtedly be mapped out and started before 1911.

Portland will get the forty-seventh annual convention of the National Wool Growers' association, the dates for which have just been fixed for Jan. 5, 6 and 7, 1911. On these dates there will be thousands of delegates here from the wool growing states, and the convention will be of wide interest to stockmen. In connection with the gathering there will be a big sheep show that is expected to draw many exhibits from the farms of Oregon sheep raisers, and many blooded sheep will be brought here from other parts of the country. Preliminary plans are now being made for the gathering, various committees being already at work.

John H. Hartog, formerly manager of the Eugene Commercial club, his good-bye to Oregon and the United States, and with his two daughters sails this week for Rotterdam to again be associated with the firm of Hartog & Fesel. This company was established in 1783, was the first large importer of American packing house products, and had the contract with the German government to furnish the meats in the Franco-Prussian war. Mr. Hartog came to America as a lad of 18 to be associated with Armour & Co. of Chicago.

Livestock shipments to the Portland markets for the month of May are far ahead of the same statistics for May of last year, showing the growing importance of this market. Particularly is a big gain shown in hogs, which is gratifying to the trade. A total of 515 cars of livestock of all kinds came to the stock yards during May of this year. The increase in hogs received was over 7000 head. The O. R. & N. has decided to place in commission a regular stock train service, operating twice a week from Huntington to Portland and way points. This will begin June 21 and will be a great convenience to the stock raiser.

Douglas county is taking active steps in securing good roads. A county association has been formed at Roseburg to boost the movement in that section of the state, and the result of this action will be valuable. The organization was perfected through the efforts of the state association and M. O. Eldridge, the government road expert.

BRIEFS BRISTLE WITH INVECTIVES

Attorneys Who Appeared in Ballinger-Pinchot Controversy File Briefs — Vituperation Is Indulged in Generally on Both Sides.

WASHINGTON, D. C., June 13.—Their thousand pages bristling with vituperation, briefs were submitted today by attorneys who appeared before the special Ballinger-Pinchot investigating committee.

"The record discloses Ballinger as hostile to the people and shows his co-operation with special interests and with violation of the law," said the brief submitted by Attorney Brandeis, representing Glavis.

"I trust this committee will report that the public domain is in unsafe hands," says the brief of Attorney Pepper, representing Pinchot.

"The prosecution is cruel and baseless. It is no idle thing to assail the character of a member of the cabinet. Here there are no grounds for attack," said Attorney Vettes, representing Ballinger.

The three briefs, all of which were voluminous, totaled nearly a thousand typewritten pages.

The briefs reviewed the case largely on the same lines as the arguments of the various attorneys made before the committee some days ago. They added a number of points, however, that had not been incorporated in the original addresses.

Brandeis asked that L. R. Glavis, whose charges that the Cunningham claims were going to patent illegally, be rewarded as a patriot.

Vettes referred to Glavis as a "traitor and a snake."

Pepper, defending his client, Gifford Pinchot, former chief forester, discharged for his stand in the Ballinger-Glavis squabble, refers to him as a "zealous advocate of good government."

Vettes calls him the "arch conspirator," seeking to destroy the name of a cabinet officer.

Brandeis, referring to the Glavis charges, declared:

"The records prove the facts as stated. They are not the same records which the president saw. In this proceeding Attorney General Wickersham appears no longer as an assistant judge, but as an overzealous advocate. Oscar Lawler is no longer a judge, but stands in his true light, a prejudiced witness, bitter and vituperative.

"In these controversies, Glavis, Pinchot, Jones and Kerby have been dismissed. Hoyt has resigned. Newell and Davis hold a slight tenure of office and may be dismissed before the committee reports. The committee will determine whether they are snakes to be killed, traitors to be shamed. If any of them told the truth the secretary of the interior should be dishonored and declared unfit for office."

Vettes called Stenographer Frederick M. Kerby a "traitor" and a creature who made a "treasonable publication."

NOW BELIEVE CHARLTON DEAD

Police Receive Word That He Was Seen in Lucerne Saturday—Russian Held on Suspicion—May Have Been Murdered as Was Wife.

COMO, June 13.—The local police today received word that Porter Charlton was seen in Lucerne, Switzerland, last Saturday. The Swiss police say they traced Charlton to Lucerne, where he disappeared. Meanwhile Constantine Ispoltoff, a Russian, is being held on suspicion pending the investigation of the murder of Mrs. Mary Scott Castle Charlton. Other European cities report having seen Charlton.

Opinion here is divided regarding the identity of the murderer. Many believe that Charlton's disappearance places him under suspicion and attribute his possible action to jealousy or indifference for his wife, to whom he had been married only three months.

Others believe that Charlton was murdered by the same persons who struck down his wife and thrust her alive into the iron-bound trunk to drown in the lake. The police attach significance to this theory and are again dragging the lake in an effort to find Charlton's body in case he has been murdered.
