## LOOKING FOR OIL IN COAST RANGE

Portland Chamber of Commerce Has Caused Uncle Sam to Make Geological Survey of Western Part of This State.

PORTLAND, Or., June 18.—Believing that oil exists in the Coast Range mountains in quantities such as enriched California more than \$100,000,000, the Portland Chamber of Commerce has caused the government to begin a geological survey of Western Oregon for the purpose of locating likely oil fields.

Chester W. Washburn of the United States geological survey has been placed in charge of the work. He is making a preliminary survey of the various counties of the state for evidences of oil, after which he will confine his efforts to those counties in which evidences of oil, such as seeps, asphaltum, sulphur springs and the like, indicate that the sought-for fluid is present.

### SEATS ARE NOW ON SALE FOR PRODUCTION OF GREAT "HELLO, BILL"

Seats are now selling for all three performances of "Hello, Bill," the great laughing play which the Athlon Stock company will use as the vehicle for their second week's stay in Medford. This clever company was a complete surprise to Medford theater-goers, who were wont to associate "stock company" with the cheap variety which formerly appeared here for a single week's engagement with a repertoire of pirated plays. But when they found a really metropolitan organization with reputable management, producing standard successes, mounted as well as the best traveling combinations, they were quick to show their appreciation, and the advance sale already is double that of last week.

Notice the change in dates. Hereafter the performances in Medford will be Monday, Tuesday and Saturday nights instead of Monday, Tuesday and Wednesday.

### COLUMBIA PARK BOYS WILL BE HERE ON JUNE 22 AND 23

The Columbia Park Boys of San Francisco, now on their annual summer tour, will appear in Medford for two days, Wednesday and Thursday, June 22 and 23.

This organization is unique in its conception, embracing a superb military band of 40 pieces, crack baseball and football teams, a corps of athletic gymnasts, etc.

In the afternoon each day they will cross bats with our own fast baseball team and each night they will appear at the Medford theater in an artistic musical, vaudeville and athletic entertainment. Prices 50, 75 cents and \$1. Seats on sale at Haskins' Monday morning.

## MAUSOLEUM BURIAL

The International Mausoleum company have decided to erect a community mausoleum in Medford. This mausoleum will be constructed of solid reinforced concrete and, like the Pyramids of Egypt, will outlast the ages. The American people everywhere have come to know that the burial of their loved ones in the ground is a relic of savagery and war; that the highest and truest senses suggest a more cleanly and sanitary method of disposing of their sacred dead, and this much more as a means of protecting the living from the pollution of the earth, water and atmosphere.

Do you realize what the polluting of the soil, air and water, with the dead bodies of your loved ones in your city means in the time to come? Practically every large city has reaped their harvest of deaths from diseases traceable to graveyard seepage into its waterways and through the soil and air, so in time will it come to Medford if the practice of earth burial is continued. Sir Henry Thompson, one of the greatest sanitary experts of his day, speaking before the American Medical society, states, "No dead body can be put into the ground without poisoning the earth, the air and the water above and about it."

The Mausoleum which the International Mausoleum will build here will be absolutely sanitary in every respect. It will simply be laying your loved ones away in a clean, dry, snow-white tomb, where neither the elements of the weather nor the vermin of the earth can affect them. This Mausoleum will be endowed with a fund, placed in the hands of trustees, this fund to go to the upkeep of this Mausoleum forever, and in the time to come you will not find the graves of your loved ones unworked and unkempt, as you see them today in every cemetery in the country.

Is not this "better way" of interest to you? Is it not worth your while to acquire apartments in this beautiful Mausoleum for the last sleep of your loved ones, that must be for the long time to come?

It is only within the last few years that Mausoleum burial has been placed within the reach of all men, but it has come. You can buy apartments in this Mausoleum for less than it costs to bury your loved ones in the ground. The price is \$150 per apartment to all.

Logan Blizzard, the special representative of the International Mausoleum company, is here and will take pleasure in calling and explaining the merits of mausoleum burial to all those who are interested. Call Main 1141.

## DO YOU KNOW THE NATURE OF DEHYDO PRODUCTS?

Take any kind of highly developed garden truck or fruit and extract the water, leaving only the condensed powdered essence of the fruit or vegetable treated, and you have a fairly clear idea of DEHYDO PRODUCTS. The secret of preserving this powder so that it may be utilized as food has been solved for several years, but up to about one year ago the U. S. government took all that could be supplied. Only just recently have these products been offered to the retail trade.

When you think of camping or going on an outing trip be sure and take along some of these goods.

Ex-President Roosevelt took an enormous quantity of these products with him to Africa.

## Cold Storage and Its Advantages

Ever study cold storage very much? It's quite a study and about one person in every 100 or 1000 understands it as they should. One firm selling fresh meat in Medford have a cold storage plant that is the best for its capacity on the coast. Fresh meat, eggs, chickens, etc., may be kept indefinitely in this plant without freezing, and when sold to the trade will be in first-class condition and be in no danger of deteriorating in any way. It is a pretty well-known fact that meat kept on ice is likely to freeze, and frozen meat becomes bad very quickly when taken off the ice or after thawing out. Don't let any one fill you up on a story that ice is the only cold storage, for, as a matter of fact, ice is not only the most expensive method, but is unreliable to a degree, and has to be carefully handled.

If you want to see a cold-storage plant that never freezes anything,

that is scientifically perfect and absolutely reliable at all times, you are invited to call and inspect the plant at Warner, Wortman & Gore's any day. You'll decide to buy your meat there, too, when you understand the methods employed. One fair trial of the meat sold will convince you.

### NOTICE OF ANNUAL SCHOOL MEETING.

Notice is hereby given to the legal voters of school district No. 49 of Jackson county, State of Oregon, that the annual school meeting of said district will be held at high school building, to begin at the hour of 2 o'clock p. m. on the third Monday of June, being the 20th day of June, A. D. 1910, and polls to remain open until 6 o'clock p. m.

This meeting is called for the purpose of electing one director for the term of five years and the transaction of business, usual at such meeting.

Dated this 6th day of June, 1910.

J. H. COCHRAN,

Chairman Board of Directors.

Attest: ORIS CRAWFORD, Clerk.

## TWO ARTICLES SHOULD TRY

By all means, try Golden Gate Coffee and Pure White Flour. Ask the woman who uses them and she will tell you that they are good enough for her.

We are exclusive agents for those two lines in this section and know that once they are given a fair trial that they will win in your estimation. Have you ever tried either of them? We wish to recommend them for a trial. If they don't suit you the grocer from whom you bought them will take them back. Think of the chance to prove to your entire satisfaction that Golden Gate Coffee and Pure White Flour are the two best brands of flour and coffee offered for sale in Medford.

Fourth of July at Jacksonville.

Watch our smoke on that auto pageant July 4, 1910. Be sure and enter your car and win one of those cash prizes offered, Mr. or Mrs. Autoist. Get in line, even if you only have a one-lunger. Compete for that

## WHY WE ADVERTISE

We advertise for a great many reasons, but principally to invite you to trade at this store. We know when someone asks us to do something for them that we are a great deal more inclined to favor them than if they hadn't asked. We wish to assure every reader that they will receive fair treatment and the best goods will be offered at low prices. We mean to merit your business in every way and feel that once you get in the habit of coming here that you will be thankful.

## Allen & Reagan

COR. MAIN AND CENTRAL AVE.

\$100. Remember a fifty in gold will be given as a second prize. Come, Mr. Auto Owner, and enter your car July 4.

P. RITNER, A. M., President.

## A B C's of Irrigation

QUESTION—What is irrigation?

ANSWER.—Irrigation is the practice of wetting the soil by means of pumping water or by gravity flow from mountain streams, by means of a dam and ditches.

QUESTION—Is irrigation better than rainfall, and why?

ANSWER.—Yes. It beats rainfall because the farmer can apply the water, just as he needs it. He knows exactly what he can do. The element of chance is eliminated. Crop failure is reduced to a minimum.

QUESTION—What is the best system of irrigation?

ANSWER.—Gravity flow, because when once installed, it is there for all time and the maintenance expense is reduced to a minimum.

QUESTION—Why is a farmer on irrigated lands the most independent man on earth?

ANSWER.—Because he does not have to lay awake night asking these questions—Will it rain? Will it rain enough or too much. Will it rain at the right time. He gets moisture when and where he wants it. His strawberries and alfalfa may want water, but the orchard might be injured by rain just at that time. He is master. He does not have to PRAY FOR RAIN. Can you beat it?

QUESTION—Why do we make the statement that "the lands of Los Molinos Land Company are the RICHEST in the great Sacramento Valley of California?"

ANSWER.—Because it is a fact. The soils are 15 feet to 30 feet in depth, are of a dark sedimentary loam nature, studded all over with gigantic oaks, park life in effect, and drained by several rapid streams that flow into the Sacramento river, with an abundance of water for irrigation.

QUESTION—Is there any danger of a lack of water for irrigation?

ANSWER.—No. The water supply is from Los Molinos river, which rises at Mt. Lassen, 10,400 feet high, perpetually covered with snow, 30 miles east of Los Molinos. This river carries more water during the summer months when the snow is melting "by degrees" and at the time when the most water is needed for irrigation.

QUESTION—How can I obtain more information about these lands and what are the prices?

ANSWER.—Call on our Medford agent, Mr. Frank G. Andrews, No. 6 South Fir street, office between the "Bunch of Grapes" and the "Jug and Bottle," and he will give you our literature.

THESE LANDS SELL AT \$150.00 PER ACRE—\$30.00 DOWN, BALANCE IN FOUR ANNUAL PAYMENTS—INTEREST 6 PER CENT WATER DEEDED WITH THE LAND.

### FOR A HOT DAY

Nothing equals an Electric fan for comfort on a hot day. It cools the atmosphere and makes work easy. No home, no office, no store or factory should be without one or more of these aids to summer living. Why suffer with the heat when at small cost you can have an ocean breeze in your home? An Electric fan brings vacation pleasure to those who can not go away. There are a variety of fans for various specific places. Large ceiling fans for public buildings and small styles for residences. Look into this matter now and keep cool later.
