10,000,000 BOXES OF APPLES NORTHWEST CROP THIS YEAR

**Buyers for Commission Houses of
New York Estimate 15,000 cars of
Apples Will Be Shipped From
Northwestern States.**

SPOKANE, Wash., June 20.—Buyers for commission houses in New York, Chicago, Boston, Philadelphia and other large distributing centers traveling in the northwestern and Pacific states, estimate that 15,000 cars, or from 9,500,000 to 10,000,000 boxes of apples, suitable for eastern markets, will be shipped from commercial orchards in Washington, California, Colorado, Oregon, Idaho, Montana and Utah this season. It is also estimated that between 3,000 and 4,000 cars will be required to supply the local and European trade.

The market value of the crop in the several states is placed at from \$27,000,000 to \$29,000,000 at present prices, which are likely to advance because of the decreased crops in Ohio, Missouri and other central apple states. Buyers say that the

Pacific and New England states will supply the bulk of the apple crop this year. The last statement is borne out by United States government reports for June, just received in Spokane.

Washington is given first place, with an output estimated at 4,850 cars, of which Yakima valley will contribute between 2,000 and 2,250 cars; Wenatchee valley, 1,800 to 2,000 cars; other districts in eastern Washington, including Walla Walla and Spokane valleys, 800 cars; western Washington, 300 cars; Colorado, including 2,500 cars in the Grand valley, 4,000 cars; California, 4,000 cars; Oregon, 1,200 cars; Idaho, 750 cars; Utah and Montana, 750 cars. Eastern Washington is credited with the largest increase in acreage and crop in the country.

Arrangements are being made in various parts of the district to hold several thousand cars in cold storage until early next spring. Four warehouses are being equipped in Spokane, the shippers saying there will be sharp advances in prices all over the country before the Christmas holidays.

LIGHT OFFERING AS YET OF BARTLETT'S

Withing Ten Days, However, California Pears Will Be in Considerable Supply—Many Plums Shipped.

The California Fruit Distributors, under date of June 18, issued the following Market Letter: to the trade: The following gives number of cars of deciduous fruit shipped from all points in California for the week (seven days) ending Friday morning, June 17, 1910:

Cherries—50 $\frac{1}{2}$ cars. Shipment of this variety is now nearly concluded and will not very little figure from this time on.

Apriots—81 $\frac{1}{2}$ cars. As will be seen by reference to our last letter the movement of apriots is lighter than that of last week. Early sections have finished shipping and there are no considerable quantities now available for eastern shipment. High prices for the dried product has had a depressing effect on eastern shipment, owing to the fact that the fruit is worth as much for drying as for shipping, with no chances to be taken. There will be fair quantities of this variety available during the coming week, but that will practically close the season.

Peaches—50 cars. There has been a slight increase in the shipment of this variety during the past week amounting to practically 10 per cent. Alexanders are entirely gone and Hales will be available in but limited supplies. Triumph peaches are coming in in considerable volume and the shipment for the next ten days will consist mostly of this variety and St. Johns.

Plums—80 $\frac{3}{4}$ cars. The plum shipments have nearly doubled in the last week. Early varieties are finished and the later varieties of better quality are now going forward. Climax, Red June and Abundance are now nearing their close and will be followed by Tragedy, Burbank, Sierra, etc. There has been a material improvement in quality since the better varieties have been offered.

Pears—4 cars. Shipment of this variety is composed almost exclusively of Comet, Wilder and Lawson. An occasional box of Bartletts has made its appearance, but this variety will not be in considerable supply during the next ten days.

Grapes—Previous favorable conditions continue. The crop is looking fine and developing fast. Should nothing unforeseen occur the present crop of this fruit will be one of the finest in point of quality that California has ever grown.

Weather conditions have generally been good. High winds have prevailed in some sections and considerable damage has resulted, owing to fruit, both green and ripe, being blown from the trees. The damage, however, was not widespread and will not appreciably affect shipments.

The fine demand reported last week in the f. o. b. section has continued and large quantities have gone forward into this territory, where it is meeting with very cordial reception and giving excellent satisfaction.

LOCAL MARKET SHOWS LITTLE CHANGE

Local Produce Is Crowding California Product out—Berries in Good Demand and Prices Steady.

The local produce market shows little change outside of the appearance of some new local products.

Blackberries are showing in fair quantities and are bringing \$1.25 to \$1.50 per crate.

The Mammoth Blacks are strong at the latter figure.

Young onions, new potatoes, young carrots and beets still hold at the former prices, the difference being only in quality.

CATTLE MARKET IN PORTLAND DRAGGY

PORTLAND, Ore., June 20.—Receipts at this market for the week have been: Cattle 2142, calves 190, hogs 945, sheep 3611, H. & M. and goats 180.

The cattle market has been slightly draggy; sheep have sold briskly on an ascending market and the hog market recovered about 20c from the low point of last week.

A good many California cattle were among the receipts and while the cows and butcher stuff sold at high prices the steer market was slow and sellers found difficulty in disposing of their offerings. A great many more cows could have been sold without affecting prices, but the over-production of good quality steers militated against an evenly balanced market.

There was a brisk demand for sheep and anything that was fat brought good prices. In the offerings there were not many sheep of good quality in the matter of flesh

Furnished Rooms May Be Rented Profitably!

Just to have "furnished rooms to rent" is no great feat—or novelty. It is said that one in every three families in the city rent furnished rooms. The number of people whose homes are in furnished rooms, "homes within homes," is very large.

And among the people who live in "one-room homes" are an increasing number who like to have things a little better THAN USUAL. They like to have a pleasant room, and they like to have it fitted up DISTINCTIVELY, with taste.

They will cheerfully, eagerly pay for SOMETHING BETTER in the way of a furnished room. Fix yours up to please the particular tenants, and ADVERTISE ACCORDINGLY, and you'll get back your investment with profit in a very brief time!

and the demand for lambs and fat mutton was only supplied in part.

Receipts of local territory hogs were next to nothing and prices advanced 15 to 25 per cent over the low point registered last week.

Clusters of lights along the curbs would prove a thousand fold more attractive than the present overhead lights. Why not change the system, at least on Main street?
