

MANY SETTLERS COMING WEST

An Unusual Heavy Movement Is Reported by Reclamation Service—12,000,000 Acres Will Be Made Available in This State Alone.

WASHINGTON, June 25.—Reports from all over the west, received by the reclamation service at Washington, indicate an unusually heavy movement of homeseekers this spring. Trainloads of settlers are pouring into Montana, Oregon and Washington, and large numbers are seeking the regions of milder climate in the southwest. A feature in connection with this movement of homeseekers is the return of thousands of Americans from Canada.

The recent cold wave which was so disastrous to fruit in the Mississippi valley and in the south did not extend to the far west, where the fruitgrowing districts are predicting record crops, with promise of high prices. All the important irrigated valleys report favorable crop conditions, with a steady increase in land values. Extensive railroad building is now going on in Montana, Idaho, Washington and Oregon.

In Oregon a virgin empire is soon to be made available for settlement by the construction of numerous lines penetrating a region which is largely public domain. It is estimated that an area of 12,000,000 acres in Oregon alone soon will be made available. The great plateau region of that state with its splendid forests, its beautiful lakes and valleys, its broad stretches of uplands whereon dry farming may be successful, and its hundreds of thousands of acres of lands, which, with irrigation, will become productive, are even now the Mecca for homeseekers from all parts of the country.

On the reclamation projects in all the states the influx of settlers is rapidly increasing, and the industry of those who have located is evidenced by the broad fields of alfalfa and grain, and in the hundreds of attractive and prosperous homes. At the present rate of settlement every farm unit included in the government projects thus far completed will be taken up before the end of the year. On nine of these projects not a single acre of public land remains unentered and the remaining projects do not contain, all told, more than 800 farms now available for settlement.

Construction work on the several projects is being pushed as rapidly as funds will permit to make ready for settlement by next fall or early spring additional areas for the great army of homesteaders.

MISS CROSMAN IS SOON TO BE HERE

Clever Actress Will Be Seen at the Medford July 13 in Brilliant Comedy Success, "Anti-Matrimony."

When Miss Henrietta Crosman goes to New York again, which will occur during next September, she will leave as her dramatic offering her present vehicle, "Anti-Matrimony," the marvelous comedy of Perry Mac Kaye, which has electrified the western states. The actress must be given credit for her daring, as she deliberately violated all the laws of theatrics by taking a new play by an American author, and going west with it. In every other instance on record the play has been first tried either in New York or Chicago, and then, having demonstrated its worth, was taken "on the road." This method of procedure did not meet with Miss Crosman's views. She was going west and she decided to go to the enormous expense of producing a new play which was entirely problematical.

Miss Crosman, Miss Crosman came, and she conquered. She has proven that she knows a good thing when she sees it, for her new play is the "funniest comedy of the past ten years," says Mr. MacKaye has at one time been included into the foremost class of plays. He has done more. He has proven that there is someone else besides late Clyde Fitch who can deal with the social problems of today for the purposes of the stage, and who can claim to be an American playwright.

Miss Crosman comes to the Medford on Wednesday, July 13.

EXPORTS GROW A HUNDRED MILLION

Demand for American Manufactured Goods Constantly on the Increase

WASHINGTON, June 25.—Exports of the United States to the other countries of the Western Hemisphere during 11 months of the current fiscal year increased \$80,000,000 over the preceding corresponding period, while exports to the Eastern Hemisphere for the same period decreased \$14,000.

According to a report to the department of commerce and labor, the gain in exports was shown in countries where manufactured goods formed the greater part of the trade, the decreases occurring in parts of the world where foodstuffs were the principal article of trade.

Of the domestic exports to the various grand divisions last year, manufactures formed in the case of North America 60 per cent; South America, over 85 per cent; Oceania, 85 per cent, and Africa, 60 per cent of the total, and in these sections of the world the exports of the United States increased, while in the case of Europe, to which manufactures formed 30 per cent and foodstuffs 31 per cent of the exports, and Asia, to which manufactures formed 70 per cent and foodstuffs 10 per cent, there were decreases.

DEEDS, NOT WORDS.

Medford People Have Absolute Proof of Deeds at Home.

It's not words but deeds that prove true merit. The deeds of Doan's Kidney Pills, for Medford kidney sufferers, have made their local reputation. Proof lies in the testimony of Medford people who have been cured to stay cured.

T. J. Williams, 617 Oakdale avenue, Medford, Ore., says: "In 1907 after Doan's Kidney Pills benefited me so greatly I publicly recommended them. At this time I am pleased to again speak in their praise and give permission for the continued publication of my testimonial. I suffered for years from kidney and bladder trouble, the symptoms being slight at first, but growing more pronounced as time passed. The pains in my back became so acute that I could hardly endure them, and as the result of restless nights, I arose in the morning all worn out. Often I was so lame and stiff that I could not stoop and headaches and dizzy spells were in evidence. I took so many remedies without being helped that I grew discouraged, but when Doan's Kidney Pills were recommended to me, I decided to try them as a last resort. I procured a supply at Hyatt's Drug Store and after using two boxes, I could see that a great improvement had been made. I grew better from that time on and when I discontinued using Doan's Kidney Pills, I was free from every symptom of kidney complaint. This excellent medicine cannot be praised too highly."

"SIGN OF THE FOUR" THIS WEEK'S BILL

Great Sherlock Holmes Will Be Presented by Athon Stock Company Tomorrow Night at Opera House.

For the third week of the Athon Stock company at the Medford theater, Manager Zimmer has selected Sir A. Conan Doyle's great Sherlock Holmes play, "The Sign of the Four." The book is so well known and the merits of the company have been so well established by the first two productions that a splendid performance is assured. Mr. Howard has the part of Sherlock Holmes, Mr. Athon the comedy part of Dr. Watson and Miss Johnson the boy part, Wigwags.

Seats are now on sale for each performance during the week. Notice—The curtain will rise at 8:30 sharp each night, if there are only two people in the house, and positively there will be no one seated during the action of the piece. You will have to stand during the entire first act.

Where? and Why

Every woman who starts out to buy flour has in mind a definite place and a good reason for going to that place.

Why? Why does she insist on a certain brand of flour? Simply because she has tried that particular brand and found that it was just the best in the land for making bread and pastries.

Where? Are all women satisfied with the flour they are using? No; not by a jugful. They are asking, Where can I get the right flour?

The best answer to that question is Pure White. Get a sack of Pure White and your flour troubles will all be ended. You are sure to get the best results. No poor bread—no ammunition biscuits or poor pastry.

Painting Time

IS your home or other building taking on that faded, "seen-better-days" appearance that reminds you that a new coat of color is due?—Time to call in a painter and arrange for repainting.

But this time get a lasting painting—a paint that will keep its brightness and beauty years longer than ordinary paint, and that will fail gradually, leaving a smooth, even, "paintable" surface.

Low Brothers "High Standard" Paint Gives Best Results

It is ready-to-use, thus saving painter's time and making sure that the mixing is mechanically right.
