

PINCHOT, BACK FROM VISITING TEDDY, CHEEFUL

Says Roosevelt Has Shown His Appreciation of Men Supporting Conservation Idea and That He Is Glad of It—Criticizes Ballinger.

NEW YORK, June 25.—Gifford Pinchot, back from a conference with Theodore Roosevelt at Oyster Bay last night, today praised the work of the insurgents, and, by innuendo, criticised Secretary of the Interior Ballinger and Attorney General Wickersham. He announced that Roosevelt will address the Colorado Livestock association in Denver Sept. 1.

"I am glad Roosevelt has shown his appreciation of the men who supported the conservation plan and the Roosevelt policies," Pinchot said. "The colonel will address the industrial and conservation congress at St. Paul on Sept. 6."

Pinchot refused to discuss his visit with former Secretary Garfield to Sagamore Hill yesterday.

"The withdrawal bill," he said, "was one of nine bills recommended by Ballinger and was thoroughly unfavorable to conservation as introduced. Former Secretary Garfield and the National Conservation association opposed the bill, and it was modified and passed as a good bill. It was a great conservation victory. The conservation association co-operated with the insurgents in their fight on the bill."

"I feel cheerful over the insurgents' ability to convert bad bills into good ones," Pinchot continued. "Take the railroad bill. As it was prepared by Attorney General Wickersham, it was bad. The insurgents re-wrote it and made a valuable measure. Senators Cummins, La Follette, Beveridge and Dolliver did superbly. The insurgents' services to the nation have been remarkable and I believe they have been appreciated. Conservation has been maintained. We do not oppose development but we want the development in the public interest, not for the benefit of special interests."

INSANITY IS PLEA OF CHARLTON

Three Doctors Appointed to Examine Young Man—If He Is Found Insane He Will Be Sent to Asylum for Treatment.

JERSEY CITY, N. J., June 25.—If the three doctors appointed to examine Porter Charlton unite in calling him insane, the youth who confessed that he killed his wife, Mary Scott Castle Charlton, will go to an asylum, while if they find that he is sane, his extradition to Italy for trial will be demanded.

Drs. A. M. Hamilton, Cahries A. Dana and Arlitz Fisher are the alienists who have been commissioned to examine Charlton.

Attorney Edwards, for the defense, said today:

"We are willing to abide by the decision of the physicians. If Charlton be found sane, Judge Charlton will not fight to prevent his trial. All the youth's father asks is fair play. If the alienists find the boy insane we will abide by that decision."

Attorneys for Captain Scott, brother of Mrs. Charlton, plan to prove Charlton sane. They intend to present letters written by Charlton to Captain Scott and statements made by him to friends of Scott.

Charlton spent a quiet night at the jail reading "The Last Days of Pompeii."

ALL PRIZEFIGHTS ARE STOPPED IN CALIFORNIA

SAN FRANCISCO, Cal., June 25.—That Governor Gillett's order preventing the Jeffries-Johnson and Langford-Kaufman fights in this city was far reaching enough to kill the real right game in San Francisco is realized by fight fans here today, following action of the police in stopping four four-round contests between professional pugilists last night. Among the bouts scheduled was a "boxing contest" between Al Neil and George Green, two old-timers at the prize fight game. It was the opinion of Chief of Police Martin that these men were professionals and would fight a professional prize fight of the prohibited character, so he interfered and prevented the match.

Three similar fights were stopped and the management filled in the bill with three or four short bouts between amateurs.
