ORDINANCE NO. 248.

An ordinance declaring the assessment on the property benefited for the cost of laying a six-inch water main on Roosevelt avenue and directing the recorder to enter a statement thereof in the water main lien docket.

The city of Medford doth ordain as follows:

Section 1. Whereas, the city council did heretofore, by resolution, declare its intention to lay a six-inch water main on Roosevelt avenue and to assess the cost thereof on the property fronting on said portion of said street in proportion to the frontage of said property, and fix a time and place for hearing protests against the laying of said water main on said part of said street and the assessments of the cost thereof as aforesaid.

And whereas, said resolution was duly published and posted as required by section 116 of the charter of said city.

And whereas, a meeting of the council was held at the time and place fixed in the said resolution, for the purpose of considering any such protests, but no protests were at said time or at any other time made or received by the council to the said laying of said water main or the assessment of the cost as aforesaid, and said council having considered the matter, and deeming that said water main was and is of material benefit to said city, and that all property to be assessed therefor would be benefited thereby to the extent of the probable amount of the respective assessments to be levied against said property, did order said main laid.

And whereas, the cost of the said water main has been and hereby is determined to be the sum of \$1517.58.

Now therefore, it is hereby further determined that the proportionate share of the cost of laying said water main of each parcel of property fronting on said portion of said street is the amount set opposite the description of each parcel of land below, and that each piece or parcel of land benefited by the laying of the said main to the full extent of the amount so set opposite the description of the same, and that the respective amounts represent the proportional benefits of said water main to said respective parcels of land, and also the proportional frontage thereof on said street, and the council does hereby declare each of the parcels of property described below to be assessed and each of the same is hereby assessed to the amount set opposite each description for the cost of laying said water main.

PROFIT BY OTHERS' EXPERIENCE

Gray Hair Restored

My hair was getting quite gray and falling out rapidly and I was troubled with a terrible itching of the scalp. My head was full of dandruff, which fell upon my clothes and kept me continually brushing it off. While on a visit to Rochester I heard of your Sage and Sulphur for the hair. I got a bottle and used it. A few applications relieved the itching, my hair stopped falling out and gradually came back to its natural color. It is now a nice dark brown color, soft, glossy and pliable. Several of my friends want to use it, and I want to know what you will charge me for six bottles of it.

MISS P. A. ROES, Sharon, Mercer Co., Pa.

Grew Hair on a Bald Head

For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly until now I have used four bottles. The whole top of my head is fairly covered and keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.
