

AUTO STAGE LINE TO LAKE STARTS FRIDAY

Preparations are Made to Put on Stage Line Commencing Tomorrow—Leave Medford Three Times a Week—May Run Offener.

On Friday morning the first automobile in the regular Crater Lake stage service will leave for the lake. Regular trips are to be run during the season leaving Mondays, Wednesdays and Fridays, returning Tuesdays, Thursdays and Saturdays. The machines will leave at 7 a. m. Later in the season if the business is such as to justify it the service will be increased.

The Crater Lake Company has issued a neat pamphlet giving complete information as to the trip, for the benefit of the tourists.

The auto stage line will prove of great benefit to those wishing to visit the lake which has heretofore been accessible only to such visitors as were willing to forego the ordinary comforts of traveling, hire their own conveyances and endure all the incident delays of passing through an almost unexplored region. This season the Crater Lake Company will open up on the rim of the lake with a fully equipped kitchen and dining room, and will provide comfortable, floored tents for sleeping accommodations, heated with oil stoves. By the close of the season a fully equipped lodge will be finished, that is now in course of construction. It will contain, among other attractive features, four massive fireplaces, one of which will be placed on the outside of the building and will be used for camp fires, where strangers will meet and part as friends, where story and song will blend with joy and gladness and the ills of man be forgotten.

MAYOR IS STRICTLY UP AGAINST IT

Mayor Cannon had the time of his life this morning in untangling a row among some Greeks who have been living in a shack on South D street. The row arose over the division of the expense, didn't amount to a fight, but each party had the other arrested.

When the trial commenced the room was full of Greeks. Two witnesses were examined. When a question was asked both principals and the witness would start talking at once, and the rest of the bunch would join in part of them in their native language and part in broken English. The occurrence at the Tower of Babel couldn't have been any worse.

One Gus Vougeralis seemed to have been the aggressor and the judge fined him \$5 and fired the balance of them out of the courtroom.

ANOTHER MURDER MYSTERY FOR MOUNT TAMALPAIS

CAN RAFAEL, Cal., July 7.—That the man whose skeleton was found on Mount Tamalpais yesterday was killed by a bullet wound in his head was determined today when his skull was examined by Coroner Sawyer. The wound was at first thought to have been caused by a sharp pointed weapon, and one theory advanced was that the man had been stabbed with a hatpin, probably by the woman whose skeleton was found on the mountain six months ago. The two deaths were linked by this theory.

Coroner Sawyer and the officials of Marin county today believe that the two deaths had no connection. The man's skeleton was found on the east side of the mountain about four miles from the place where the woman's skeleton was discovered.

RIOTING BREAKS OUT ANEW IN CHINA

LONDON, July 7.—Dispatches from Shantung province, China, tell of incipient riots today at Lanchow and predictions are made that the disorders may develop into an anti-foreign demonstration.

The officials of the war office here express little fear of a serious outbreak against the foreigners in the Shantung province because of the proximity of English and German garrisons at Wei Hai Wei Wanchow.

Both England and Germany have naval stations in Shantung province and could protect foreigners. The cause of the minor riots could not be ascertained at the Chinese embassy here.

SAYS FASTING CURED HIM OF NASAL CATARRH

DETROIT, July 7.—Having finished a thirty-five days' fast for his health, Judson M. Perry, a Detroit attorney, expresses his belief that fasting is a cure for all ills.

The particular ill for which he made this fast was nasal catarrh, and he thinks he has cured it. For the first twenty-six days of this fast he was at his office daily. He grew weak after that, and spent the last nine days in bed. His weight was reduced from 140 to pounds to 85 pounds.

"Nothing but water passed my lips during the thirty-five days," said Mr. Perry. "My theory is that nothing nutritious should be taken, not even fruit juices. After the first few days I felt no pangs of hunger, the body becoming accustomed to the fast."

Mr. Perry now looks like a living skeleton.

What the Merry Widow is to light opera, Thaviv and his wonderful organization of musicians and Russian dancers is to the world of band music. Wherever Thaviv has appeared the public has given him an ovation. More than half a million people have listened to his band at Idora Park and in San Francisco during the past six weeks. So great was the impression created by his band that negotiations have practically been closed whereby the great Russian conductor will return to this country in 1915 with a band of one hundred players which will form the official band at the Panama Canal Exposition in San Francisco.

The incomparable band which Thaviv now has with him on tour, together with the Russian dancers and grand opera soloists, will have one open date between San Francisco and Portland and this day is to be given to the local music lovers. Popular prices will be charged and the concerts should be greeted by crowded houses. The advance sale indicates that this will be the case. The programs will be of a character to suit all tastes. They will include the latest two-steps and stirring march numbers. They will offer the best known overtures and fascinating Russian music.

The vocalists, including the famous baritone, Max Bing, and the prima donna, soprano, Annette Woodwards, will give splendid selections. The entire organization will appear at the auditorium next Thursday night under the management of the Southern Oregon Chautauqua Assembly. 92

BUSINESS CONDITIONS.

(Extract from editorial, New York Herald, May 30, 1910.)

The only unfavorable element in the situation is the unfavorable attitude of federal lawmakers and state officials towards the railways and the spirit which would prevent the companies from moderately advancing their charges to offset the increased cost of operation. When the manufacturer is obliged to pay higher prices for raw material and increased wages he does the only possible thing in the circumstances and correspondingly raises the charge for his product. The railways are obliged to pay increased prices for supplies and higher wages, and it is only reason that they should get more for what they sell, namely, transportation.

That they are impelled to raise their charges is plain from current traffic returns showing increased gross takings, while costs of operation have increased in still greater ratio, with resulting decrease in net earnings. Unless the greatest of all industries is permitted to prosper the country cannot be prosperous.

And such other business will be transacted as may properly be transacted before such meeting.

Dated this 30th day of June, 1910.
