VANCOUVER MAY GET HUGE SHIP YARD

VANCOUVER, B. C., July 8.—It is generally believed here today that actual operations toward the erection of either a huge dry dock or of a shipyard capable of building vessels for the new Canadian navy yard will be started at Vancouver within the near future.
The latest report is that Roche Point, on the mainland and near this city, will soon be the site of a second class dock large enough to accommodate vessels of 15,000 tons. Ottawa has granted the subvention for the dock. The enterprise is to be undertaken by the Imperial Car and Shipbuilding and Dry Dock company, in conjunction with Messrs. Nicol, Thompson and Bullock of this city.

BETTER TONE IN NEW YORK MARKET

NEWY ORK, July 8.—Sharp gains were made in the leaders in the stock market today and a better tone was felt by the general list. The bulls were busy and the market experienced a gradual uplift early. A few industrials declined shortly before noon.
American Smeltin, General Electric and Colorado Fuel rose 1 1-2; Canadian Pacific 1 5-8, St. Paul, Reading and Rock Island 2, Soo line 2 1-4, Atchison 2 1-2, and Union Pacific 2 3-8. Later Union Pacific jumped 3, Reading 2 3-4, Southern Pacific and Consolidated went up 2, Northern Pacific and Northwestern 1 1-2. Westinghouse Electric declined 1.
Bonds were irregular.

HOME COMING OF JEFFRIES IS GLOOMY

LOS ANGELES, Cal., July 8.—James J. Jeffries' home coming today was far different from the rousing send-off he received when he departed for Rawardenman three months ago to prepare for his battle with Jack Johnson.
Instead of ab rass band and hundreds of cheering friends and admirers to welcome him, less than a score of loungers, reinforced by a dozen loyal friends, were present when the fallen idol stepped from the train here today.
Looking neither to the right nor to the left, Jeffries hurried to a waiting automobile. He was the first of the party to climb into the car. When Mrs. Jeffries, Jack Kipper, the big fighter's business partner; Mrs. Kipper and brother Jack Jeffries were seated the car sped to the Jeffries city home on Cypress Street, where the ex-champion barred himself in and refused to receive callers.

PROF. T. H. B. TAYLOR WRITES OF THE 4TH ON EVANS CREEK

In the course of human events it becomes necessary to do quite a lot of things we would rather not. That is one reason why I am saying a few things here. Seems like I have read in a somewhat ancient chronology that "God hates a liar." Now in this one particular God and I are very much alike. I hope I may not be considered any way vindictive, for, as I recall, some men are born great (liars); others achieve greatness, while some others have it thrust upon them, either through environment, occupation or a natural tendency thereto and that is why I have compassion for your correspondent who wrote a brief article a few days ago on the Fourth at Woodville. His statements were all O. K. about a fine time—but about the baked chicken, etc., etc., all for 25 cents, he was a most inveterate, consummate, biliterate l-i-a-r—that is, well, I am loth at times to call a man a liar, owing, of course to his construction. I will say that he was very much mistaken or a dealer in the worst form of fabrication, if not provarication—as you very pertinently remarked you could not see where we would get off for 25 cents. No sir, and it was just about all we could do to get off for 50 cents, which was the price that day at the Waldorf. The prime feature of the day was the drilling contest between Sam Sandry and team and Ralph Kitterman and Dick McDonald, which was a fine display of the art or science of drilling. They were badly handicapped in the first place by a very refractory rock being, as one was heard to remark, as hard as—an adjective, and in the second place by faulty drills; so they failed to make the stipulated depth of hole—but to show you there are no hogs in Woodville, except one old sow and seven pigs, those stalwarts who shed their linen—part of it, you understand—and pounded those old drills in the hot sun for a full half hour—filling the air—and themselves full of disintegrated rock got their money, just the same. Ladies and gents, please remove your hats. All of which constrains me to remark that
If our seeds of oats we sow,
In good soil they're bound to grow,
And they'll make the old mare go.
While the train is going by.

WATER IS KING ALFALFA IS QUEEN THE FRUITS OF THIS ROYAL UNION ARE RICHES AND INDEPENDENCE.

And where is the kingdom pray? In "Sunny California, Tehama county, at the upper end of the great Sacramento valley, there is a tract of the finest land in the world, all of which can be irrigated and carries with it title to a perpetual water right. Six cuttings a year of alfalfa, a production of ten to twelve tons per acre, and an average price of nine dollars per ton in the stack. Sounds good, but is it true? Let us prove it to you. This land can be bought for \$150.00 per acre, one-fifth cash, balance in four equal annual payments.
The income from the land will more than keep up the payments.
If you are looking for a home, independence and success, we have it.

BRADBURY MAKING GOOD HIS PROMISE

SAN RAFAEL, Cal., July 8.—William B. Bradbury, millionaire ex-convict, is making good his promise to assist released first-term convicts. He is planning to do so to Santa Rosa today for the purpose of assisting an ex-convict who is in jail there on a petty charge.
Bradbury called at San Quentin penitentiary late yesterday and offered Warden Hoyle \$2500 to be used as a fund for aiding released convicts. This was the amount promised by the aged millionaire when he was released from the prison one week ago after serving ten months for perjury.
Warden Hoyle declined to take the money, saying he had no authority to do so. He promised to lay the matter before the prison directors at the next meeting.
Read the furnished room ads in the paper today—and then write a better one. It'll find you a lodger.

CHAFING DISHES
With an ALCOHOL Lamp you must fill the lamp, adjust the wick, strike a match, and be very careful not to spill alcohol on the table top.
With ELECTRICITY you insert the plug and turn the switch. When this is done you can devote all your attention to the recipe.
We have the ELECTRIC kind, made by the General Electric Co. Ask us about them today.

THE BIGGEST RETAIL BUSINESS IN THIS CITY COULD BE CREATED BY ADVERTISING EXCLUSIVELY IN THE MAIL TRIBUNE.
No business of any moment could be built up in this city WITHOUT THE PATRONAGE OF THE READERS OF THE MAIL TRIBUNE.
ANY BUSINESS which persistently seeks and secures the patronage of THE READERS OF THE MAIL TRIBUNE can be made BIG ENOUGH TO SATISFY ANY BUSINESS AMBITION—any mercantile aspiration.
If there is any wisdom in CONCENTRATION, then there is wisdom in a one-newspaper campaign of publicity. Such a campaign is AIMED AT SOMETHING DEFINITE—it has direction, objective. There are no wasted expenditures—no experiments, no advertising to prove your "friendliness" to some cause, or faction, or interest.
The patronage of the Mail Tribune readers can "make" any store—any enterprise—in this city. THE LACK OF IT CAN QUICKLY UNMAKE ANY STORE OR ENTERPRISE IN THIS CITY.
And, more and more, the Mail Tribune's readers are coming into the self-interest habit and practice of buying things that are advertised in the Mail Tribune. For they are realizing—more of them every day—that the firms that advertise in their newspaper are rendering them a REAL SERVICE. And they APPRECIATE it.
