Double Your Business--- Let In The Sunlight

Suppose you knew a man who kept his shades drawn tight all day and burned kerosene instead of letting in the sunlight.

Suppose you knew a man toiling along a dusty road who would not accept a lift—when there was plenty of room in the wagon;

Suppose you knew a miller—with his mill built beside a swift-running stream—who insisted on turning the machinery by hand.

All foolish, you say? And yet look around you—how few retailers take advantage of the great advertising campaigns run by food, textile, cloth and every other manufacturing line that you can name.

Think a moment! What was the last advertisement you read and wondered just which store in town would be progressive enough to have the goods in stock so you could see them—and purchase?

More goods are sold under the evening lamp at home than you dream of.

Practically every live retailer advertises in his local papers. But how.

Put up your lightning-rod! Let your customers know that you can deliver to them the goods which great advertising, paid for by manufacturers, has interested them in.

They will get the habit—and you will get the business.

Practically every manufacturer stands ready to help you help yourself. Ask them for electrotypes suitable to run in your own advertising. Hook their trade mark to your store.

Consumer demand for advertised goods is now divided broadcast among all the stores in town.

Use your advertising in local papers to focus this demand upon your store—And don't forget to send for those helpful electrotypes.

Read this again, for it means money to you.
