HEAVY INCREASE PEAR SHIPMENTS

Canners Now in California Market Taking Liberal Supplies at Good Prices. Which Will Interfere With Eastern Shipments.

The California Fruit Distributors, under date of July 16, say:

The following gives number of cars of deciduous fruit shipped from all points in California for the week ending Friday morning, July 15, 1910.

Peaches—123 1-2 cars. Demand for peaches during the past week has been exceptionally good, considering the large quantities of southern peaches now being received in eastern markets. Early Crawford are now practically finished and a very satisfactory crop of late Crawford, Susquehanna and Elberta are now available. In clings we have Tuscan to offer. The bulk of the peach offerings of this state will be made during the next two weeks, after which time supplies will materially decrease. Quality of the fruit is first-class.

Pears—291 1-2 cars. As will be noted, there is a heavy increase in the movement of this fruit since our last report. Pear shipments, however, have now passed their zenith and will decline from this time on. Canners are now in the market taking liberal supplies at good prices, which will certainly interfere with the free movement of this variety for eastern shipment. The heavy movement from the river will be followed by liberal shipments from Suisun and Vacaville, which may be expected to continue during the next two or three weeks.

We are pleased to report that the splendid f. o. b. demand for California fruits mentioned last week has continued and we have sold unusually large quantities. The season for California tree fruits will be shorter than usual this year, owing to the greater earliness of the season. It is advisable for all dealers to place orders at once covering their requirements.

GOOD NEWS FOR BARTLETTS

Heavy Rains Injure Georgia Peach Crop, Making Good Demand for Pears—Shipments Can Commence in July.

The Stewart Fruit company has written the Rogue River Fruit & Produce association regarding the pear crop as follows:

"Dear Mr. Wilmeroth: We are in receipt of wires stating that heavy rains in Georgia have badly injured the peach crop. We also are in receipt of direct news to the effect that Texas peaches will be through in a few days. This is encouraging news as far as Bartlett pears are concerned. The present week is the heaviest week off the river and we just commenced this week at Suisun. There will probably go forward this week an average of 50 to 60 cars of Bartletts daily. The Sacramento river shipments will rapidly decrease after this week. Suisun of course will go heavy yet for two weeks. It looks to us as though you would be safe in figuring about July 25 to commence in a light way. Of course you will have quite a good deal of competition from California on your shipments prior to August 10, but your shipments commencing July 25 should miss the heaviest throw of peaches, as Georgia, Texas and Arkansas should be entirely out of the way by the time those shipments arrive east. Of course if it is necessary for you to ship a few cars before July 25 it would be all right, although we do not look for extreme prices before that date."

Medford, Oregon: This certifies that we have sold Hall's Texas Wonder for the cure of all kidney, bladder and rheumatic troubles for ten years, and have never had a complaint. It gives quick and permanent relief. Sixty days' treatment in each bottle. Medford Pharmacy. Haskins for health.

NO CHANGE IN SCORING APPLES

Spitzenberg and Newtown Remain the Standard of Excellence at Spokane Apple Show, Despite Protest from Wenatchee.

SPOKANE, Wash., July 18.—Seven changes in the quality ratings for scoring exhibits at the Third National Apple Show in Spokane, November 14 to 19, are announced by E. F. Carter Van Dassel, chairman of the board of trustees, which adopted at its last meeting the recommendations made by growers in various parts of the northwest in convention at the exposition in 1909.

The changes are on Arkansas, Arkansas Black and Baldwin apples, formerly 7-8 and 5-6, respectively, now scored 6-7 under the new rating; Delicious, formerly 9-10, now 8-9; McIntosh Red and Wealthy, formerly 5-6 and 6-7, respectively, now 7-8, and Winesap, formerly 7-8, now 8-9. No changes were made on the following varieties:

Ben Davis, 4-5; Cox Orange Pippin, Gravenstein, Grimes Golden, Jonathan, Yellow Newtown, Stayman Winesap, White Pearmain, Winter Banana, Yellow Bellflower, King of Tompkins County, Northern Spy, 8-9; Rhode Island Greening and Wagener, 7-8; Rome Beauty and York Imperial, 6-7; Wolf River, 5-6; Spitzenberg, 10.

The chief point for discussion was the question of raising the rating on the Winesap, placing it on the same quality basis with Yellow Newtown and the Grimes Golden. At the request of the Wenatchee representatives the trustees sent telegrams to commercial clubs in the larger apple growing districts, also to growers who exhibited carloads in 1909, asking if the Wenatchee proposition would be satisfactory to them.

Replies to the 16 telegrams sent showed an even divide of opinion. Three commercial clubs were willing a change should be made and three clubs were opposed to it. Three carload exhibitors were willing and three others voted to the contrary. Two responses were that the change would be satisfactory provided the McIntosh Red were advanced another point. Two carload exhibitors did not answer. As the vote showed such a lack of unanimity, the trustees did not feel justified in making the change requested.

"There is no more difficult problem than a proper scoring of apples for quality," said Ren H. Rice, secretary of the National Apple Show. "This is due largely to the fact that in the Pacific northwest many varieties are grown to a perfection that is not reached anywhere else and which command a price in the market far above the quality ratings formerly placed upon these apples."

Useful Things Should Be Used --- By Someone

How many really valuable things do you own that are useless to you? How many things are simply in your way that other people would be willing to pay a fair price for? Take an "account of stock" among your chattels and "things." Privately, if you wish, sell the SUPERFLUOUS things—through a classified ad. The cost is small—so keep it "there" for a while, and your buyers will materialize.

placed upon these apples.

"The American Pomological society published a score card of quality ratings on apples 14 or 15 years ago, at which time few commercial apples were raised in the northwest, and the ratings made by the society were then considered a fair standard. At various fruit shows in the last 12 years the old score card has been a standard, and after the first apple show in Spokane many exhibitors requested that the society's score card be used for the 1909 show, and the trustees adopted the quality ratings as follows:

Arkansas, 7-8; Arkansas Black, 5-6; Baldwin, 5-6; Ben Davis, 4-5; Cox Orange Pippin, 8-9; Delicious, 9-10; Gravenstein, 8-9; Grimes Golden, 8-10; Jonathan, 8-9; McIntosh Red, 5-6; Northern Spy, 8-9; Rhode Island Greening, 7-8; Rome Beauty, 6-7; Spitzenberg, 10; Stayman Winesap, 8-9; Tompkins King, 8-9; Wagener, 7-8; Wealthy, 6-7; White Pearmain, 8-9; Winter Banana, 8-10; Winesap, 7-8; Wolf River, 5-6; Yellow Bellflower, 8-9; Yellow Newtown, 9-10; and York Imperial, 6-7.

"Protests were received soon after the score card was announced and it became evident that many of the growers who requested the adoption of the old score card were under the impression that it had been revised. Unfortunately, no such revision has taken place, as the society does not meet until 1911.

"Meetings will be held at the show next November to discuss this important subject of quality ratings, and it is the earnest hope of the trustees that there will be a larger representation from all parts of the district and that agreements will be reached on scoring which will be more satisfactory than the schedule recommended for this year."
