

CENTRAL POINT NEWS ITEMS

Mr. and Mrs. Lynn Purdin are spending their honeymoon on a tour around the Globe.

The Central Point Commercial club is taking steps to secure a fine exhibit of products to be sent to Traffic Manager F. W. Graham, of the Great Northern railway, to be placed in a car and exhibited along the lines of the Great Northern system. This is a case where every community in the Rogue River valley should be represented.

C. F. Willhite of Bozeman, Mont., who is looking over the valley with a view to investing in a fruit farm, was here for a short time on Friday. Mr. Willhite is well pleased with the Rogue River country and especially with Central Point.

A. E. Ford, who has been suffering for some time with a badly smashed hand, is much improved and will soon be at his work again.

C. H. Arnold of Ashland, a recent arrival in the valley from Salt Lake, Utah, was transacting business of a legal nature in Central Point Friday evening. Mr. Arnold has not as yet decided in which of the many valley towns he will locate, but declares that he will go no further than the Rogue River valley to select his future home. He is stopping in Ashland at present and may decide to locate in that city.

The Y. M. C. A. membership list has grown to 171 and almost enough more are in sight to complete the 200 mark.

The Central Point water system will be finally received next Tuesday night, if there are no more leaks in the pipes and "jacks" on the part of the contractors.

John N. Hayes, who resides several miles east of town, was in on business Friday evening. Mr. Hayes, who was last week bereaved of his faithful wife, wishes to thank the many kind people of this community who extended him their help and sympathy and with loving hands covered the casket of his beloved wife with a wilderness of flowers. Attorney Walker, our village Blackstone, reports things exceeding-

ly quiet in the legal line at this time. Mr. Walker, however, has faith in his location and there being no legal battles to fight, is busying himself by registering voters.

The Valley Building & Loan association is being formed in Central Point by two Portland architects and some local business men. The object of the association, if successful, will be the building and selling of cottages to homeseekers on the installment plan, giving the poor man a chance to buy a home with the money he pays out otherwise in rents. The promoters decline to have their names published as yet, as the association is not yet formed completely. The concern is to be incorporated. John Sawyer of Klamath Falls is visiting at Tolo, the guest of his cousin, John Goodwin. Both Mr. Sawyer and Mr. Goodwin will go to Redlands, Cal., on a business trip next week and will be absent until September.

Eighty degrees was the warmest the thermometer could register Friday.

The fine new residence of W. H. Norcross is ready for the painters and finish men. The new home will be, when completed, one of the most modern in the valley.

Work will commence at once on the new sewerage system for the Central Point high school.

It is understood that valuable improvements are to take place at the Christian church. While this improvement and renovation is going on it would be a good idea for the brethren to remove that old disease-breeding outbuilding, which is a menace to health. Such lavatories should not be permitted to stand, not even should they be located in a frog pond environed village of Arkansas, let alone Central Point.

It comes to your correspondent's ears that the Methodist people of this city are going to build a fine new church. This denomination is growing rapidly, have an able pastor and certainly deserve a new home. The old one is too small for the rapidly increasing family.

EAGLE POINT EAGLETS

By A. C. Howlett

Messrs. Spencer and Baker, two young men who are connected with one of the P. & E. Railroad company surveying gangs, came out from Medford Thursday morning without breakfast and called at the Sunnyside for bread and milk and after satisfying their appetites took the Butte Falls and Eagle Point stage for Butte Falls.

Mrs. Netherland and her two children came out from Butte Falls on the stage Wednesday and the same day took the car for Talent to visit her mother. She reports that Mr. Netherland has sold his farm near Derby to a man by the name of Hall of Klamath Falls; consideration, \$3000.

Wednesday afternoon J. L. Demmer, one of the city dads of Medford, and George C. Walter and his brother, Earnest E. Walter, Messrs. H. A. Voyce, A. P. Whitney and W. Whiteside, all of Medford, met at the Sunnyside to wait for the 6 o'clock train to Medford. They had been up the country looking for an opening. Some of them had been to Butte Falls, while others had been up the Rogue river; some had been out here before and those who had not seen our town before were well pleased with the outlook, and those who had been here in times past expressed their surprise at the growth and development of our valley.

George Wilson and family, formerly from Chicago, came in Wednesday night and are sojourning at the Sunnyside until they can get moved onto their homestead near Derby. Mr. and Mrs. Wilson, I understand, have been engaged in teaching in some of the colleges in Kentucky and Illinois for several years, and now desire to retire to a more private life, where they can raise apples, poultry, etc.

Mr. and Mrs. Charles Edmondson and their daughter, Miss Bertha, after having Bertha's throat operated on by Drs. Seeley and Holt, returned here Wednesday evening, remaining until Friday morning, when they took the stage for Butte Falls.

Speaking of the Butte Falls and Eagle Point stage, the drivers have about all that they can do in hauling passengers. This morning (Friday), there were two ladies from Talent and two men who could not go on the stage, so had to hire rigs here to take them.

W. R. Hall, recently from Bakersfield, Cal., stopped here for dinner Thursday on his way from Butte Falls. He is looking over the country to see the prospect for securing a good-sized tract of land for fruit

and to find a model climate, and he thinks that he has found the latter, at least.

I understand that a brother of G. W. Owings, the landlord of the Eagle Point hotel, has come to town and may remain here.

I learned that there is to be a cobler shop opened up here in the near future, but have not learned who the person is who will open it.

Lee Edmondson and wife, with Mrs. A. R. Zimmerman, called Thursday, and Mr. Edmondson reports that last Saturday morning when he went to start up his sawmill near Derby that he found that during the night someone had stolen the big driving belt from the mill. It is made of heavy leather and the supposition is that someone who wanted it for shoe soles had taken it.

A short time ago A. B. Zimmerman put an ad in the Daily Mail Tribune, advertising a lot of land he has for sale, and a few days ago he received a letter of inquiry from a party in Illinois, asking about the land, so the reader can see the advantage of letting people know where you are and what you have.

Miss Sarah Tinker, a sister of the late Mrs. George Brown, arrived Thursday from Iowa. She is visiting her brother-in-law, George Brown, and family. I am sorry to say that Mr. Brown is in poor health.

Mrs. Harriet Davis and Mrs. J. H. Clark of Milwaukee, Wis., arrived in our town Thursday. They came out with Mr. O'Brien of Medford in an auto and are guests at the Sunnyside. Mrs. Davis has a tract of timber land on Roundtop and is here to look after her interests in that line and to see the country generally, and Mrs. Clark owns the Jack place, adjoining the Tronson orchard, and a farm on the beaver dams, about 16 miles northeast of Butte Falls, and is here looking after her interests in that line. She is also interested in the cause of education, she being one of the superintendents of schools in her town, Milwaukee. How long they will remain they have not given out as yet.

Our barber, Mr. McDonnel, has been installing an "electric fan" without electricity. He has invented, or rather installed, a water wheel in the irrigating ditch, and by the use of belts and pulleys arranged a fan so as to keep up a breeze in the shop. Scott Claspill, who has been back to visit his mother in Illinois, returned Friday morning and took the stage for his home in Butte Falls.

M. W. A. Attention!
Our next business meeting will be held at Smith's hall Tuesday, July 26. Visiting neighbors welcome. Invitation. COMMITTEE.

Haskins for health.

MADRIZ' INTERFERENCE WILL NOT BE TOLERATED

WASHINGTON, D. C., July 23.—The state department formally declared today that no blockade exists at Bluefields, Nicaragua, and that any interference with American ships and property by vessels of President Madriz will not be tolerated. Instructions have been sent to Commander Gilmore to seize the Madriz gunboats Venus and San Jacinto and end the blockade if any interference is attempted.

ROOSEVELT CANNOT ATTEND ROADS MEET

NEW YORK, July 23.—The principal visitors at Colonel Roosevelt's at the Outlook included members of a good roads committee, who urged the colonel to attend the national good roads convention at Niagara Falls next week. Roosevelt said he regretted that he would not be able to attend the convention, but said he would send a written communication endorsing the movement. Several other visitors called on the former president, but their calls were not of public interest.

You may learn just what you want to know about your chance to buy a home by studying the want ads today.

Double Your Business-- Let In The Sunlight

Suppose you knew a man who kept his shades drawn tight all day and burned kerosene instead of letting in the sunlight.
Suppose you knew a man toiling along a dusty road who would not accept a lift—when there was plenty of room in the wagon?
Suppose you knew a miller—with his mill built beside a swift-running stream—who insisted on turning the machinery by hand.
All foolish, you say? And yet look around you—how few retailers take advantage of the great advertising campaigns run by food, textile, cloth and every other manufacturing line that you can name.
Think a moment! What was the last advertisement you read and wondered just which store in town would be progressive enough to have the goods in stock so you could see them—and purchase?

More goods are sold under the evening lamp at home than you dream of.
Practically every live retailer advertises in his local papers. But how.
Put up your lightning-rod! Let your customers know that you can deliver to them the goods which great advertising, paid for by manufacturers, has interested them in.
They will get the habit—and you will get the business.
Practically every manufacturer stands ready to help you help yourself. Ask them for electrotypes suitable to run in your own advertising. Hook their trade mark to your store.
Consumer demand for advertised goods is now divided broadcast among all the stores in town.
Use your advertising in local papers to focus this demand upon your store—And don't forget to send for those helpful electrotypes.
Read this again, for it means money to you.
