

ANTI-PENROSE CONVENTION

Independents of Pennsylvania to Name Non-partisan Ticket to Rescue State From Machine Rule—Insurgents to Participate.

PHILADELPHIA, Pa., July 25.—More interest is taken throughout the country in the state convention called by the independents to meet here next Thursday. Until recently the promoters of the movement have been generally looked upon as anti-Penrose republicans, but the managers of the convention declared this afternoon that out of 207 delegates who will be present 90 will be democrats.

It was also announced that the state ticket to be named will be absolutely non-partisan. Three names have been suggested for governor. They are former State Treasurer William H. Berry, D. C. Gibboey, the Philadelphia reformer, and Rudolph Blankenburg. The remainder of the ticket places are to be equally divided between the republicans and the democrats.

In most of the 136 legislative districts, independents will be put in the field and in others there will be combinations either with the democrats or with the insurgent republicans. There will also be combinations in the congressional fight.

It was officially announced that the platform to be adopted will be progressive in the extreme.

EXAMINATION OF AMENT FINISHED

Attorneys in Case Conclude With C. W. Ament as Witness and Will Next Turn to Testimony of Experts Who Have Gone Through Books.

After six weeks the attorneys conducting the case against C. W. Ament in connection with the Golden Drift Mining company have concluded their examination of Ament and will next take up the testimony of the experts who have been going through the books in order to determine where the money went. The case will be resumed soon, having been continued until the circuit court concludes a week's business in Jacksonville.

The examination of Ament was prolonged owing to his refusal to answer questions. Practically no progress was made until Judge Calkins informed Ament that all of his "I think so" answers would be considered as "yes."

SWITCH ENGINE LABORS HERE

Great Increase in Local Business Causes Agent Rosebaum of Southern Pacific to Add Additional Men to Large Force now Employed.

In order to facilitate the freight business of the Southern Pacific company in this city, a freight engine has been placed in the local yards. Medford is the only city in Oregon south of Portland, not a terminal point, which has a switch engine in operation. The engine started work at 6:30 this morning and at 10 a. m. had not completed its work in the yard. The engine is also to haul cars of sand and crushed rock from Gold Ray to Medford, as well as handle the fruit cars during the shipping season.

The business of the local office has so increased of late that Agent Rosebaum has added two men to his force, making 15 men employed. Additional men will be needed in the fruit season, which will open soon.

FOREIGNERS TO ENTER RACES

Cash Prizes Aggregating Eight Thousand Dollars Offered to Enter from Italy, France and Likely to be Successful.

INDIANAPOLIS, Ind July 25.—Cash prizes aggregating \$8000 will be given to automobile racers of Italy, Germany and France as inducements for them to enter the September meet in Indianapolis motor speedway. The official program for the Labor day events, Saturday and Monday September 3 and 4, was made public today. Each day's card offers ten races. The first award range from \$75 to \$1000.

The generosity of the management in offering larger money in September than ever before in to tempt famous foreign pilots who will invade American courses late in the summer and prepare for the grand prize and Vanderbilt event on Long Island in October. The speedway management is determined to make local events international in character as a means of avoiding criticism of its event as being the "show" of American manufacture. Such criticisms has been directed at race meetings here this year.

The longest race of the meet will come on Labor day. This will be run 200 miles. The prizes are \$1000, \$500 and \$300. A 100 mile free-for-all is scheduled for Saturday with four prizes, \$1000, \$500, \$100 and \$75.

TO MAKE KNOX PROVE HIS JOB

Attorneys of Cadlot Will Apply for Habeas Corpus Write if Secretary of State Signs Extradition Papers—Prove Power of Action.

WASHINGTON, D. C., July 25.—Secretary of State Knox may be given opportunity in the near future to prove that he is actually secretary of state of the United States.

Attorneys are now contesting the extradition of Porter Charlton, accused of the murder of his wife at Como, Italy, today declared that should Secretary Knox sign extradition papers which would result in Charlton being tried for the crime in Italy, they would make it necessary for Knox to prove that he is secretary of state with powers to sign extradition papers. To do this, the attorneys say, they will institute habeas corpus proceedings based on the point that Knox is not secretary.

The Charlton attorneys have revived the discussion over Knox's appointment which arose soon after President Taft named him for the position. It was discovered at the time that a clause in the Constitution prohibited former senators or representatives in congress from holding office whose compensation had been increased while they were members of congress.

MRS. BEAULIEU DIES SUDENTLY

Well Known Resident of City Passes Away Sunday Morning—Was Thought to be Improving in Health at Time

Mrs. F. E. Beaulieu died at the home of Mr. and Mrs. Williams on South Oakdale avenue Sunday morning at 8 o'clock.

Mrs. Beaulieu had been complaining for some few weeks, but was not considered seriously ill. Two weeks ago Mrs. Williams took her to Klamath Falls on a visit. They returned a few days ago, with Mrs. Beaulieu a little worse. A physician was called and prescribed, and she at once began to improve. Saturday afternoon she felt so much better that she thought she would be able to sit up a little on Sunday. Sunday morning Mr. Beaulieu asked her if she would like something to eat and she replied she did not wish anything. She did not complain of being worse—in fact, all felt that she was better.

Mr. Beaulieu went to breakfast with the Williams' leaving Mrs. Beaulieu for a few moments. When he finished breakfast and without a moment's warning, he felt that he should go to his wife's room, and when he arrived he found her gasping and in a short time she had passed away. Friends came in at once and the doctor was phoned for, but she died before he could reach her.

Mrs. Beaulieu leaves, besides a most devoted husband, a mother and two sisters in Spokane, Wash. (now on their way here) and two aunts, who reside in Portland. No arrangements have been made for the funeral and none will be made until relatives arrive. Mr. Beaulieu is a member of the Knights of Pythias and both were members of the Pythian Sisters.

CENTRAL OREGON NEEDS GOOD ROAD

Klamath and Harney County Men Pull Together for Road Across State, Says George Baldwin, of Klamath Falls.

PORTLAND, July 25.—Judge George T. Baldwin, vice-president of the Oregon State Automobile association for Klamath county, who was in Portland during the week, told of plans he and Archie McGowan of Harney county are making for an improved highway from The Dalles to Klamath Falls, and thence through to California.

Judge Baldwin is enthusiastic over the proposition of securing a good road through central Oregon and thinks this route, when made passable, will be more used for the trip between Portland and the California cities than the Willamette valley route.

F. L. Parker of Clatsop county reports that much work is being done on the roads from Astoria to Portland and thinks the trip should be made now without great difficulty. E. Burton Watterman of Medford, Or., who was in Portland during the week, reported much road work being done in that section and that he had secured a large list of members for the state association.

BALAKALA SMELTER ORDERED SHUT DOWN

CORAM, Cal., July 25.—One furnace of the Balakala company's smelter was shut down here yesterday afternoon, leaving only one in operation. This action was taken immediately after Attorney W. D. Tillson, representing the smelting company, sent word to General Manager White that the Shasta Farmers' Protective association had demanded a strict compliance with the order of the court in regard to the correction of the smoke nuisance, as was first told in the Bee.

Following this shut-down of one furnace General Manager White requested President McCoy Fitzgerald of the Protective association to call a meeting at Redding Monday, to be followed by a meeting of the entire association to consider conditions and to apportion in allowing the company to operate one furnace until the Cortrell system of smoke control is installed.

IMMIGRATION SHAKE-UP DUE

Concerted Effort by Chinese Merchants and Labor Unions to Secure Removal of Commissioner North Like to be Successful.

WASHINGTON, D. C., July 25.—The immigration service on the Pacific coast is facing the greatest shakeup in its history, which it is predicted will take place when Secretary Nagel of the department of commerce and labor returns from Alaska.

It is intimated by high officials in the department that the secretary personally will take a hand in the long standing row over the administration of the immigration offices at San Francisco. It is no secret here that the enmity of influential Chinese merchants in San Francisco and recently ran afoul of the labor unions in connection with Hindu immigration.

The department officials admit that a concerted attempt has been made to "get North's scalp." It is not believed here that the attempt has been successful. It is thought that Nagel will personally approve North's official acts, but will order transfers and changes in the bureau.

The shakeup that is predicted will not only affect San Francisco, but will extend to other coast towns where coolie immigration exists.

It developed today that among the charges made against Commissioner North by Inspector Ainsworth at mission of 52 Hindus into this country were those of general unfitness and laziness.

Ainsworth was a member of a special board of inquiry at the time Hindus arrived at San Francisco. The board decided that the Hindus should not be admitted but later two or three members reversed this decision. Ainsworth protested, was over-ruled and filed charges at Washington. Washing sustained the inspector and Ainsworth's additional charges followed.

TO OUR READERS!

By special arrangement we offer you a great opportunity to read

"Chantecler"

EDMOND ROSTAND'S wonderful "Chantecler" is the dramatic sensation of the world. In it Rostand proves himself to be one of the greatest dramatists of all times. "Chantecler" is not only the greatest play of the century—it is the one great play of the last hundred years. It is an exquisite story, palpitating with human sympathy and interest. It warms the blood—stirs the emotions—arouses every commendable sentiment. "Chantecler" sparkles with wit—counsels with wise philosophy—entertains with fascinating idiom—while the tones of the hour bell of today, and today's problems, are heard through the medium of "Chantecler's" deliciously up-to-date slang. No language contains sufficient superlatives to describe it. Only reading and study will enable you to appreciate it. It has aroused all France—London has gone mad over it.

The Only English Translation

Rostand has chosen HAMPTON'S MAGAZINE as the medium through which to present "Chantecler" to the English-reading world. The publication will be in four instalments, one act to each instalment, beginning in the June number. The translator is the same who helped to make "Cyrano de Bergerac" so fascinating to American booklovers.

We have made special arrangements with the publishers of HAMPTON'S by which our readers may get "Chantecler" and the many other fine features published in HAMPTON'S in connection with our own paper, practically without cost. Read our offer below.

OTHER EXPENSIVE FEATURES

HAMPTON'S MAGAZINE every month contains the most costly, most important, and most interesting contents ever put between the covers of a general magazine. "Peary's Own Story" of the discovery of the North Pole, a \$50,000 feature, is now in its most interesting stage, giving the positive "proofs" that Commander Peary and no other man discovered the North Pole. "The True History of the Southern Pacific Railroad" by Charles Edward Russell is one of the greatest magazine serials ever published. Mrs. Rheta Childre Dorr's articles on the "Power of the Women's Clubs" are without an equal in their appeal to women everywhere. Fiction contributors include the foremost story-tellers of the world; Arthur Stringer has a new series called "The Adventures of an Insomniac"; James B. Connolly describes in several stories his Trip Around the World with the American Fleet; Frederick Palmer is contributing a series of airship stories of which Danbury Rodd is the central character. The only new idea in detective fiction since Sherlock Holmes is provided in the second series of stories about Luther Trant, the psychological detective, written by Edwin Balmer and William G. MacHarg. Other Short Stories are by such favorites as O. Henry, Gouverneur Morris, Charles Belmont Davis, Rupert Hughes, Josephine Daskam Bacon, Harris Merton Lyon and many others.
