

STOCK MEN WAR OVER PASTURES

Shepherders Cross Deadline Into Cattle Range and Are Captured by Cowboys, Who Shoot Sheep and Scatter Herds.

HELENA, Mont., July 27.—War between the cattle and sheep men in the northern part of this county has broken out again. As usual, the fight is over the range.

Information received here today states that four sheepherders in charge of the Stowe bands, crossed the deadline separating the sheep and cattle range yesterday.

The herders were captured by a gang of cattlemen, who disarmed the sheepmen, shot down a number of sheep, scattered the bands, and chased the herders over the "deadline" at the point of revolvers.

It is reported that the cattlemen have posted a last warning to sheepmen to keep off their side of the imaginary line separating the sheep and cattle ranges. Should sheepmen trespass a pitched battle in which men, not sheep, will be the targets, is predicted.

On account of the rapid settlement of the country, valuable range land has become comparatively scarce in this district.

To equalize matters, the sheepmen and cattlemen agreed upon a certain division of the grazing lands for their respective bands. This was done because cattle will not graze on lands on which sheep have been fed over. In consequence cattlemen are exceedingly bitter toward sheepmen who allow their sheep bands to stray over the so-called deadline.

Too Late to Classify

WANTED—Light one-horse wagon or gear. Address H. care of this office. 110

BIB FITZSIMMONS GETS HIS LOST PAJAMAS BACK

SPOKANE, Wash., July 27.—Bob Fitzsimmons is happy today. He has mauve pajamas back again—not one pair, but a whole trunkful. When Ruby Bob struck the United States after a hurried trip from Australia to witness the Jeffries-Johnson argument at Reno, he was in such a hurry that he told the officials "just to ship his trunks to Reno."

After the unsatisfactory fistic set to Bob began searching for the boxes. He wanted his pajamas.

They had not arrived at Reno, nor Vancouver, nor any other place as far as the ex-champion could ascertain.

Until yesterday Fitzsimmons, who is now playing on a vaudeville circuit, burned the wires in an effort to locate the missing trunks.

His efforts were rewarded yesterday, when the trunks arrived at Spokane.

CITIZENS OF AURORA MUST BATHE WEEKLY

AURORA, Ill., July 27.—Aurora has witnessed many oddities, but citizens today declare that rule 11, just issued by the health officer, takes the cross bun.

According to the new rule, residents of Aurora must bathe at least once a week. Failing, they will be arrested and imprisoned.

The exact reason for so stringent and personal a regulation is not given beyond that "the city's sanitation demands it."

PUBLIC SPANKINGS FOR MINNEAPOLIS MASHERS

MINNEAPOLIS, Minn., July 27.—Mashers who hunt in Minneapolis parks hereafter will do so at great risk to their personal dignity. Chief of Police Kingsley today caused to be circulated an order directing his officers to stretch carefully over one knee any masher caught in the act, and apply with vigor the palm of a white-gloved hand.

Haskins for health.

73 CARS STEEL HERE FOR P. & E.

Work of Laying Track Started This Morning—Chief Engineer Corrects Report Concerning Construction of Steel Bridge.

Seventy-three cars of steel rails have arrived during the past few days for the Pacific & Eastern railroad. They were taken to the yards on the heights above Eagle Point and unloaded. This work of unloading the cars delayed track laying, which was not started until this morning.

Chief Engineer Gerig of the Pacific & Eastern today corrected the report that construction of a new steel bridge across Bear creek was to start at once. Such is not the case. Some day, states the chief, in the future a steel bridge will probably be constructed across Bear creek for the road, but present plans do not include one.

The work of grading the right of way into Medford is progressing rapidly. The heaviest fill which is near the main line, having been nearly completed. This work is being rushed by Thompson brothers.

FIND REMAINS OF LOST STUDENT ON MOUNTAIN

SAN FRANCISCO, Cal., July 27.—Members of the Sierra club, an organization of mountain climbers, today say they are certain that proofs they have discovered leave no doubt that J. D. Archibald, a Cornell student, who disappeared two years ago, perished in the shifting surfaces of Mount Rixford, which he attempted to cross.

Following the disappearance of their companion, several members of the Sierra club started in search for Archibald. They have returned with Archibald's eyeglasses, parts of his clothing, money he is said to have had and bones alleged to have been part of his skeleton.

It is believed Archibald traveled over the mountain for two or three days, but was finally engulfed in the treacherous surface near the headwaters of King's river.

WALLA WALLA WILL WAGE WAR ON CODLING MOTH

WALLA WALLA, July 27.—The second brood of codling moth will soon be busy, according to the local fruit authorities, and spraying for the pest must be made again this week. This will make the third treatment the trees have had this year.

"There are a few moths left on the trees," said a well known orchardist Friday. "The first spraying was thorough, and covered the ground well. Thus most of the first brood was killed and little remained for the propagation of the second. However orchardists are going to take few risks, I find, and will make the third and even the fourth spraying with unabated vigor."

Does Damage in Three Weeks
The moth will be on the fruit from about July 20 to August 10, says a local authority, and spraying should be done immediately. Some 20 days will elapse before the third brood appears and the final spraying will then be at hand.

Orchards are clean in Walla Walla valley this year. There was much talk about a little blight that affected the apples this year, but under the direction of District Fruit Inspector C. L. Whitney, this was well cleaned out, and the trees are doing well. There was no damage at all to the old trees, and consequently this year's crop was not affected.

Pear Trees Affected Lightly

Pear trees have been slightly affected and have been treated carefully. Orchardists are warned to watch for any reappearance of the pest and to cut it out at once.

If they do not understand the treatment, Inspector Whitney has determined to go in person and supervise the work. Some scale is noticed this year but not enough to be seriously taken into consideration in figuring the crop for this year.

ANARCHIST BLOWN UP WHILE MAKING BOMBS

BOCA, Cal., July 27.—The police are satisfied today that the killing of an unknown man in a cabin near Warn's sawmills, in an explosion has saved the authorities the trouble of rounding up an anarchist or at least a dangerous fanatic.

Several persons saw the man working in the cabin yesterday with what appeared to be bombs, but he was not molested. The explosion shook the whole neighborhood and blew the man to pieces.

SAYS UMPIRES NOT BRIBED

President of Coast League Takes No Stock in Report That Portland Gamblers Tried to Fix Game—Good Ball Being Played.

SAN FRANCISCO, July 27.—While Judge Thomas F. Graham, president of the Coast league, personally takes no stock in the story that Portland gamblers made an attempt to bribe pitchers on the Oakland team, he declared today upon his return from Portland and Sacramento that he will investigate closely the report which was published in a Portland newspaper. Judge Graham said today that he would see Captain Wolverton of Oakland and Pitchers Willis and Harkins and secure statements from them. He declared, however, that he felt sure there was nothing in the charges.

Incidentally, while in Portland, Judge Graham took up with Congressman McCredie the proposition of extending the Coast league next year to eight teams, putting it on a par with the National and American leagues.

"Right now," he said, "the Coast league is playing better ball than the big eastern leagues and the fans are finding it out. There were splendid crowds out during the San Francisco-Portland series and at Sacramento, where I watched the game with Los Angeles yesterday, there was a good attendance. The chamber of commerce and the merchants of Sacramento are taking the matter up, and the Senators will receive better support from their home city from this time on."

Judge Graham does not favor the double umpire system.

"Hildebrand umpired wonderful ball in the San Francisco-Portland series," said President Graham, "and I saw no necessity for calling in an assistant, even though many of the fans considered that the importance of the series warranted it. Of course, if the directors and fans want the double system, I am agreeable, but I am opposed to it myself, and think it takes the spirit out of the game."

EIGHTY-TWO JAPANESE IN OPEN BOAT AT SEA

TOKIO, July 27.—Although every effort has been made to find the missing lifeboats containing 82 of the passengers and crew of the Tetsurei Maru which foundered near Chintao July 23, with the loss of 106 lives, no trace of the small boats has been reported. The missing lifeboats are said to contain four army officers, 50 civilian passengers and 28 of the ship's crew.

Officials of the Osaka Shosha Kabushiki, owners of the wrecked liner, express the hope that the persons in the missing lifeboats succeeded in landing somewhere on the coast and soon will be picked up by a war vessel.

The Tetsurei piled between Kobe and Darien and carried about 246 passengers and crew on her last voyage.

Columbus' Population

WASHINGTON, D. C., July 27.—The census bureau today announced that the new enumeration showed the population of Columbus, O., to be 181,500.

Little trouble to find (because classified) or to answer (because you can write letters) or find your way—

CHINESE PIRATES ATTACK TROOPS

Third of Portuguese Forces Sent to Suppress Rebels Wiped Out—Hundred Killed in Attack on Robbers' Stronghold.

HONGKONG, July 27.—A third of the Portuguese force landed from the fleet sent by the governor of Macao to wipe out the Chinese rebels on the island of Colowan was destroyed by the pirates, according to advices received here today.

It is estimated that 300 men were landed from the Portuguese gunboats and that 100 men were killed in the attack on the robber stronghold. Further operations were ordered suspended by the governor and a strict censorship has been established.

It is reported that the governor ordered a Chinese gunboat, which was sent to co-operate with the Portuguese, to retire, alleging that its presence encouraged the pirates to believe they were supported by the Peking government. It is reported that the Chinese commander refused to withdraw.

WIRELESS USED TO LOCATE DR. CRIPPEN

MONTREAL, Que., July 27.—Wireless operators at Labrador were requested today to communicate with the liner Montrose to ascertain definitely whether Dr. Hawley H. Crippen, suspected by the London police of the murder of Belle Elmore Crippen, his wife, in London, and Mile. Ethel Claire Leneve are aboard the vessel.

The requests were made by the Canadian police, who are perplexed at the admission of Scotland Yard that they are not sure that "Dr. Robinson and son" are really Crippen and his companion. The Canadian authorities say they previously understood that there was no doubt of the identity of the suspects.

DESTROYS SLEEP

Many Medford People Testify to This.

You can't sleep at night. With aches and pains of a bad back.

When you have to get up from urinary troubles.

All on account of the kidneys. Doan's Kidney Pills bring peaceful slumber.

They cure all kidney ills. G. L. Boone, 533 Grape street, Medford, Or., says:

"The public statement I gave in praise of Doan's Kidney Pills in September, 1907, still holds good. I recommend this remedy in the hope of bringing it to the attention of other kidney sufferers. I was in bad shape with rheumatism at one time and despite all my efforts I was unable to get relief from pain and stiffness in the small of my back. My kidneys were also out of order and sometimes I had to get up at night to pass the secretions from these organs. When I had about given up hope of being cured someone told me to try Doan's Kidney Pills, and I did so, procuring a supply at Haskins' drug store. I soon found that the claims made for them were true, for I had not used them long before my rheumatism began to disappear. As I continued taking this remedy I steadily grew better and the contents of eight boxes restored me to good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

ILLNESS DELAYS PROF. O'GARA

Owing to Severe Illness of Professor O'Gara's Sister, His Return to the Rogue River Valley Has Been Delayed—Will Return Soon.

Professor O'Gara has written friends here that the illness of his sister has delayed his return to the Rogue river valley, but that he will return as soon as possible.

For the first time in ten years, Professor O'Gara writes, the family is together. His sister is very ill and cannot recover. Hence his delay in returning.

2,000,000 CHILDREN ARE DRINKERS OF ALCOHOL

LONDON, July 27.—A remarkable statement concerning the drinking habits of school children was made at the annual meeting of the Women's Total Abstinence union.

F. G. Mackereth asked the question: "Do school children drink alcohol?" and answered his own query in the affirmative, gave results of investigations which he had made on the subject.

In one school alone, he said, it was found that 40 per cent of the children drank alcohol regularly. If the same proportion obtained all round there must be some 300,000 child drinkers in London (probably in all the large towns and districts there must be some 2,000,000) who drink alcohol.

WENT HUNTING A BRIDE WITH A LICENSE

SACRAMENTO, July 27.—Hunting a bride with a hunting license is a new method of modern days, according to the experience of Thomas A. Lamdon, a young resident of Elk Grove. But when Lamdon found that he was making the search with a hunting license instead of a marriage, he rushed back to the county clerk's office for instant relief.

Lamdon entered the registration department of the county clerk's office and stated that he wanted to get a marriage license and also to register. He was told to go to a desk where Deputy County Clerk was at work issuing hunting licenses.

"Do you want one too?" asked the clerk, thinking that Lamdon also wanted a permit to hunt.

The young man answered in the affirmative, and Prior took the color of his eyes, hair, etc. and told him to return in a minute and he would have his license ready. Lamdon went and registered as a voter, and then returned for his license, which was neatly done up in a package, accompanied by a copy of the game laws. Lamdon paid his dollar and left.

About five minutes later there was a rush in the corridor and the door of the county clerk's office flew open as Lamdon, all out of breath, came tearing into the office.

"Here! I don't want this thing, I want a marriage license," yelled Lamdon as he flaunted the hunting license under the nose of the clerk.

After Prior recovered from the shock, explanations were in order. Lamdon said that had it not been for curiosity in looking at the license while in the restaurant, he would later asked the minister to wed him to his chosen one on the strength of have later asked the minister to wed him to his chosen one on the strength of a hunting license.
