

## TEDDY STUDIES CHILD LABOR

Roosevelt, Accompanied by Lawrence Abbott, Makes Trip Investigating Conditions in Coal Regions and Steel Mills.

DELAWARE WATER GAP, Pa., Aug. 2.—Colonel Theodore Roosevelt, accompanied by Lawrence Abbott, son of Dr. Lyman Abbott, editor of the Outlook, arrived here today by automobile from New York. The object of the trip here is a study of labor conditions. Child labor in the anthracite coal regions and in the steel mills has long been a subject of severe criticism on the part of the Outlook. The actual state of affairs of the Pennsylvania railroad strike also is occupying the editorial attention of the contributing editor of the Outlook.

Roosevelt and Abbott are expected to remain here for several days.

## BEG ALICE LONGWORTH TO CUT OUT CIGARETTES

FAIRBURY, Neb., Aug. 2.—Claiming that the example of Alice Roosevelt Longworth in smoking cigarettes will have a demoralizing influence on boys and girls, four Christian Endeavor societies here today unanimously voted to write Mrs. Longworth an open letter entreating her to stop smoking. She is earnestly requested by the reformers to cease her open advocacy of indulgence in tobacco by women.

Members of the society are confident that their action will produce the desired results.

## WHITE WOMAN IS NOT JACK'S WIFE

New York Paper Calls on Police to Stop Colored Champion Motoring Through Streets With His Paramour.

NEW YORK, Aug. 2.—Alleging that the white woman Jack Johnson calls his wife was never married to the colored champion but that his real wife was driven from his Chicago home to make room for the present woman, the Morning Telegraph urges the police to stop Johnson's motoring through the streets with her. The exhibition, the paper declares, is subversive to the morals of New York and is conducive to race hatred and should be a matter for police regulation.

The paper charges that Johnson's real wife, whom he married in Australia, and who, though very light, is said to have had a trace of negro blood, was driven from his home some months ago. The white woman whom he took home with him was later installed in his training quarters in San Francisco and at Reno, the paper charges.

The Telegraph asks whether the "moving pictures of the battle between Jeffries and Johnson are more vitriol than the spectacle of Johnson in real life parading with his paramour through the streets in an automobile."

## WOUNDED FIREMEN FIGHTING FOR LIFE

SAN DIEGO, Cal., Aug. 2.—Captain Peter Sampson and Driver Elliott of company 3 of the fire department, who were wounded yesterday by Bert S. Durham, a former fireman who is supposed to have been crazed by imaginary grievances, were fighting for life today in St. Joseph's hospital. Both are in a dangerous condition.

Arrangements were made for the burial of Durham's victims—Captain Grant of engine company No. 3, Mrs. Durham and the Durhams' baby, and the man who did the killing and then committed suicide.

## CANNED SALMON CROP SHATTERS ALL RECORDS

SEWARD, Alaska, Aug. 2.—No matter how scorched the wheat fields of Kansas and the Dakotas may be, or how poor the corn prospects, the canned salmon crop is apt to shatter a few records this year. The Alaska Packers' association at Kiasloff cannery have packed 54,000 cases of king and red salmon and the Northwestern Fisheries company at Kenai have put up 24,000 cases in ten days, as a result of a remarkable run in the waters of Cook Inlet.

Both canneries expect to close with a capacity pack Saturday night.

## NEGRO QUESTION IN OKLAHOMA

Interest in Primary Election Centers in Constitutional Amendment, the Purpose of Which is to Disfranchise Blacks.

GUTHRIE, Okla., Aug. 2.—Interest in the primary election here today centers in a constitutional amendment the purpose of which is the disfranchisement of negroes in Oklahoma. The proposed amendment is being fought bitterly.

Republicans at 10 o'clock claimed the amendment would be defeated, while the democrats were confident it would be carried. The democrats say, figured on a basis of the vote now in, the amendment would be adopted by a plurality of 50,000.

J. W. McNeal and Tom Ferguson, republican candidates for governor, are running a close race. Indications are that Lee Cruse will be nominated by the democrats.

Interest in the congressional nominations is overshadowed by the county and state fight.

## WILKIE PRAISES OFFICERS.

Chief of United States Secret Service Points to Aid of Wireless.

(Written by John E. Wilkie, chief of the United States secret service for the United Press.)

WASHINGTON, D. C., Aug. 2.—"I have followed every detail of the Crippen case and I will say the denouement when the arresting officers boarded the liner Montrose was in harmony with the dramatic incidents following the discovery of the body in Crippen's house in London.

"The successful employment of the wireless telegraph is a beautiful example of what may be accomplished in the pursuit of a criminal. Its employment is a concrete illustration of the fact that modern conditions, aiding officers of the law, have made it nearly impossible for a fugitive to escape arrest.

"A phase of the case on which the attention of the police will be centered is the relatives' identification of the victim and the proof that a crime actually has been committed. I have noticed that Superintendent Forrest, one of the ablest officers in the world, head of Scotland Yard, is confident that the government has a case built on circumstantial evidence and I have the highest opinion of this conservative officer.

## PROGRESSIVES PLAN TO INDORSE THEIR LEADERS

DES MOINES, Ia., Aug. 2.—Progressives in the Republican state convention to be held tomorrow are planning a strong indorsement of Senators Cummins and Dooliver. Today they bent their efforts in promoting the boom of Senator Dooliver for permanent chairman of the convention. The stand-patters spent the day in conferring on the prospects of securing the adoption of a stand-pat platform similar to the one adopted by the regulars in Ohio. It is predicted here today that the convention will indorse the work of Governor Carroll and the state administration.

and the Carlists, seek the support of the vatican, win the temporary cooperation of the Republicans and overthrow the rule of King Alfonso. The Republicans and the disaffected thousands in industrial life probably would aid in the overthrow of the present regime, but would seek afterward to prevent Don Jaime from ascending the throne and would endeavor to establish a republic. Viewed from almost every light, the situation of Spain is dark for the present ministry.

## POPE IS ANTAGONISTIC.

Expresses Confidence That King Will Soon Dismiss Canalejas.

ROME, Aug. 2.—Ignoring the appeals of the majority of his cardinals, Pope Pius is continuing in his

antagonistic policy in Spain. It is reported that thousands of loyal Spanish Catholics have signified their willingness to take up arms in defense of the church against the state.

His holiness has expressed confidence that the Spanish king will be forced soon to dismiss Premier Canalejas from the cabinet and appoint a premier in sympathy with the clericals, and that in pursuance to this he will not recede from a firm position in the controversy with the Spanish ministers.

The cardinals, however, are more apprehensive. The consistory has received reliable information that the clericals of Spain are not prepared for war at the present time, and the high dignitaries therefore are advising greater caution on the part of the pontiff.

The vatican is well aware that a sign from St. Peter's would cause the greatest civil war in the history of

Spain and the holy see is moving with extreme caution in a situation that may mean ultimately the establishment of a republic in the Spanish peninsula.

## CLOSELY GUARDING KING.

Alfonso and Victoria Will Arrive in Paris Tonight.

PARIS, Aug. 2.—With the streets of Paris swarming with Spanish exiles, the police today took extreme precautions against the possibility of an attack on King Alfonso and Queen Victoria. Their majesties will arrive here tonight and will be guests of President Fallieres at the Elysee palace.

The royal couple were reported at Rambouillet this morning. They are accompanied by several Spanish officials and by a score of Spanish and French secret agents. They will remain in Paris until tomorrow afternoon.

Goods were carried away in wholesale quantities and in most cases at far less than wholesale prices. Enough goods sold to supply hundreds, while the way the crowd pushed and clamored for more of the many bargains was almost enough to turn the heads of the salespeople.

More and even greater bargains are prepared for the balance of the week. We do not forget that slashed selling prices are the paramount factor in rapid merchandising movements. We have made big promises and we are prepared to back every one of them.
