

DOUBT IDENTITY CRIPPEN CORPSE

Scotland Yard Officials and Well-Known Barrister at Outs—Demands Proof That Body is That of Belle Ellmore.

LONDON, Aug. 3.—Scotland Yard officials and Arthur Newton, a barrister, newly retained by friends of r. H. H. Crippen, today became involved in a wrangle over the identity of the body found in the Crippen house at Islington, believed by the police to be that of Belle Ellmore Crippen, wife of the doctor, who stands accused of her murder.

The police detectives declare there is no doubt of the identity of the body found in the Crippen house at Islington, believed by the police to be that of Belle Ellmore Crippen, wife of the doctor, who stands accused of her murder.

The police detectives declare there is no doubt of the identity of the body and assert they have gathered evidence which makes their proof positive. They refuse to reveal the nature of this proof, and Newton, who is a noted lawyer in criminology, demands either the proof or the release of his client. Newton has been working quietly the interests of Dr. Crippen and is said to have secured information that promises startling developments. He would not discuss this report and would neither affirm nor deny if it goes to prove that Mrs. Crippen is alive.

MA LEADER WANTS REFORM.

note in a speech in which he used the progressives and denounced the tariff.

At the district caucuses today six progressives and five regulars were voted for the committee on resolutions. It is expected that the platform submitted will be strongly in favor, but there may be a minority report from the committee.

Senator Dolliver, who probably will be permanent chairman of the convention, commenting on the news he insinuated victory in Kansas.

We expected the insurgents to visit their increased the interest against the "interests." Under the leadership of Murdock and others, Kansas and Iowa will take leading part in national life.

Cummins' Keynote Speech.

DES MOINES, Ia., Aug. 3.—Senator A. B. Cummins, temporary chairman of the Republican state convention, today in his keynote speech, scored the tariff, declared "stand-patism means monopoly made a general plea for insurmountable ideas."

He understood perfectly that there were some shortsighted men who will insist to bewail or denounce individual independence and who will demand free criticism of party leaders and party acts," said Senator Cummins. "Such men disparage the influence of the people. The voters there is more hope of making Republican party progressive there is of efficient and constructive legislation by the Democrats."

will admit that the differences between Republicans are many and, but any Republican who, by one of these differences, votes Democrat will find that he has led from the frying pan into the fire.

Cummins then turned to the tariff, saying of the pledge of the party to revise the schedules, he said: "There are many gratifying reductions in the Payne-Aldrich act, but not as a whole a fair exemplification of the protective policy, nor an honest performance of our party promise. The only thing that can be said in favor of our tariff revision is that it is vastly better than any tariff the Democrats enacted founded on the exploded doctrine of levying duties for revenue only."

Correct All Mistakes.

is the only logical thing to do now correct our mistake—none but Republicans can correct it." Cummins spoke of the achievements of the insurgents in congress and to the railroad regulation and the postal savings bank law and the progress of legislation in which the progressives had fought in the name of the people.

FOREST FIRES AGAIN RAGING

Destructive Blazes Again Sweeping Many Parts of British Columbia—Rain Alone Can Prevent Enormous Loss—New Fires.

VICTORIA, B. C., Aug. 3.—A recurrence of forest fires is reported from various parts of the province and again hundreds are looking to the skies for rain, which alone can assure the safety of their property. Fresh fires of threatening proportions are reported from the vicinity of Sandon, from the Big Bend district, from Comox, Salt Spring Island and from Cobble Hill, while the following telegram from the government agent at Nelson indicates the seriousness of the situation in that district:

"Forest fires raging throughout this district. I have so far answered all calls for assistance and done everything possible to check, but the demands are increasing and expenses also. New fires are breaking out in every direction, and I find it very difficult to cope with the situation. The Hall's Siding fire has extended to the Silver King mine and burned out a number of mine buildings and is spreading rapidly. Bad fires are reported from many points and small ones are numerous. If rain does not come soon the situation will be exceedingly serious."

REGULARS CAPTURE ALL MISSOURI NOMINATIONS

ST. LOUIS, Mo., Aug. 3.—Only one congressman in Missouri, Coudrey of St. Louis, who was not a candidate to succeed himself—failed of re-nomination at the primaries yesterday. All the regular Republican congressmen who were renominated are "regulars." No Republican was a candidate in the eighth district, which is overwhelmingly Democratic. In the twelfth district, which has been represented by Coudrey, Republican, the Democratic candidate, Thomas Kinney, is very popular, and Republican leaders admit that Kinney will likely carry the district.

In St. Louis county, where the only contest between the regulars and insurgents were fought, the regulars, backed by Governor Hadley, succeeded in capturing the central committee. Former Chief of Police Creech, who was deposed following a shake-up in the department, was nominated for recorder of deeds by the Democrats.

KING'S OATH AMENDED BY VOTE OF LORDS

LONDON, Aug. 3.—On the third reading the house of lords passed, without amendment, the accession declaration bill, which eliminates a phrase objectionable to Catholics from the king's oath. The bill already has passed the house of commons.

MANIAC'S 4TH VICTIM DIES FROM WOUND

SAN DIEGO, Cal., Aug. 3.—Captain Peter Sampsell of the fire department, who was shot by Bert Durham, a former member of his company, early Monday morning, died this morning. Sampsell is the fourth victim to die of those shot by Durham, the others being Engineer Donald Grant, Mrs. Durham and the Durham baby.

Driver Elliott of the hose company, wounded by Durham, is recovering. Funeral services for Mrs. Durham, the baby and Durham, who committed suicide, were held today.

It is now declared that Durham's feeling against Sampsell, against whom he had made many threats, was due to the fact that Sampsell was made captain of the company over Durham.

"Chantecler"

EDMOND ROSTAND'S wonderful "Chantecler" is the dramatic sensation of the world. In it Rostand proves himself to be one of the greatest dramatists of all times. "Chantecler" is not only the greatest play of the century—it is the one great play of the last hundred years. It is an exquisite story, palpitating with human sympathy and interest. It warms the blood—stirs the emotions—arouses every commendable sentiment. "Chantecler" sparkles with wit—counsels with wise philosophy—entertains with fascinating idiom—while the tones of the hour bell of today, and today's problems, are heard through the medium of "Chantecler's" deliciously up-to-date slang. No language contains sufficient superlatives to describe it. Only reading and study will enable you to appreciate it. It has aroused all France—London has gone mad over it.

The Only English Translation

Rostand has chosen HAMPTON'S MAGAZINE as the medium through which to present "Chantecler" to the English-reading world. The publication will be in four instalments, one act to each instalment, beginning in the June number. The translator is the same who helped to make "Cyrano de Bergerac" so fascinating to American booklovers.

We have made special arrangements with the publishers of HAMPTON'S by which our readers may get "Chantecler" and the many other fine features published in HAMPTON'S in connection with our own paper, practically without cost. Read our offer below.

"The True History of the Southern Pacific Railroad" by Charles Edward Russell is one of the greatest magazine serials ever published. Mrs. Rheta Childre Dorr's articles on the "Power of the Women's Clubs" are without an equal in their appeal to women everywhere. Fiction contributors include the foremost story-tellers of the world: Arthur Stringer has a new series called "The Adventures of an Insomniac"; James B. Connolly describes in several stories his Trip Around the World with the American Fleet; Frederick Palmer is contributing a series of airship stories of which Danbury Rodd is the central character. The only new idea in detective fiction since Sherlock Holmes is provided in the second series of stories about Luther Trant, the psychological detective, written by Edwin Balmer and William G. MacHarg. Other Short Stories are by such favorites as O. Henry, Gouverneur Morris, Charles Belmont Davis, Rupert Hughes, Josephine Daskam Bacon, Harris Merton Lyon and many others.
