BALLOON FOR SIGNAL CORPS

Experts to Urge Congress to Provide Funds for Building and Equipping Two Large Dirigibles for Signal Corps Work.

WASHINGTON, D. C., Aug. 10.—Military experts of the war department have under consideration a plan to add the dirigible balloon or airship to the equipment of the signal corps. A strong plea will be made to congress during the coming session for an appropriation sufficient to enable the department to purchase one or two airships of the Zeppelin type and to build a plant necessary for the maintenance of these aerial monsters.

This means that the army is not ready as yet to adopt the aeroplane as a part of the military equipment for national defense. The experts are of the opinion that the dirigible has been perfected, while the aeroplane is still in the experimental stage. Recent accidents to aeroplane operators have accentuated this point of view. The dirigible, they say, is making trips with a high degree of certainty and has demonstrated its usefulness as a war machine, not only for scouting purposes, but for carrying materials and men and warships which could be used to great advantage.

This pronouncement on the merits of the dirigible by the officers of the general staff is the present decision on the controversy which has been maintained by the partisans of the two types since the aeroplane came into the aerobatic field. The army has faith in the dirigible, despite the accidents to the Zeppelin ships, and has not faith in the aeroplane, whatever hope there is of its further development.

It is the ultimate purpose of the signal corps, according to the general plan which has been adopted, to establish the aerial corps as subsidiary to the coast artillery corps. Stations will be established for the big airships at first along the coast, so that they may be ready for service either in connection with naval engagements in case of attack by a foreign navy or in connection with land maneuvers. As part of their practice work the big ships will sail up and down the coast in order to train themselves for their work as a sort of aerial scouting line rimming the entire country.

If congress, which has shown much opposition to such an innovation as flying machines, can be persuaded to adopt the point of view of the general staff, it would not be an unusual sight, within a year or two, to see a huge cigar-shaped dirigible sailing over any coast city.

It is expected, at least, that the interest in dirigibles which has waned in the United States since the Wright brothers demonstrated the possibilities of the aeroplane, will revive again and it is hoped that further improvements over the Zeppelin type, making them still more valuable for air navigation, will be brought about.

BETTING FAVORS NEGRO LANGFORD-KAUFMAN GO

PHILADELPHIA, Pa., Aug. 10.—Betting odds show Sam Langford is the favorite in his fight with Al Kaufman, scheduled for tonight. This is in spite of the fact that the white man will enter the ring outweighing the negro by 40 pounds.

It is reported that several wagers ranging from \$1000 to \$2000 at 10 to 9 have been made on Langford.

According to the promoters, the receipts will easily reach \$30,000. Bert Crowhurst will referee the contest.

GOLD STRIKE EXCITES CITY OF SACRAMENTO

SACRAMENTO, Cal., Aug. 10.—Excitement over the discovery of gold in the Sacramento, where shafts are being sunk for a railroad bridge, increased today when nuggets as large as sparrow eggs were thrown out by the discharge pipe. Large numbers of men and boys are panning along the river.

One nugget discovered this afternoon is worth \$10 or \$15. Many sluice boxes are rigged along the river.

RACE QUESTION IN CUBA ACUTE

Reports of Outbreaks Are Continuous—Troops Are Ever in Readiness to Be Rushed to Quell Small Riots—Big Problem Ahead.

WASHINGTON, Aug. 10.—Reports of outbreaks in Cuba which are of the intermittent and unceasing variety, are but the reflection of the problem which threatens the new republic with the most serious consequences according to the experts who are in touch with affairs in the island. This problem is the race question, and the situation is more acute than in the United States.

It is for this reason that the government at Havana takes no chances with small outbreaks. Troops are at once rushed to the scene as soon as a disturbance is reported. In every instance the disorders have been suppressed, but the difficulty of which they are but a manifestation is not materially diminished.

At the time of the war of liberation when the island undertook to lift the yoke of Spanish dominion, fully sixty per cent of the army came from the province of Santiago. A large portion of this army was made up of negroes. Whether or not they were given promise of equal representation with the whites beside whom they fought or promised a share of the public offices under the new government, the negroes have that impression. So far they have not received any offices, and their privileges are in fact, so extensive as those of the white element of the population. They feel that they have not been treated fairly and, since the establishment of the present government, there have been numerous outbreaks of a revolutionary character—disturbances which presage a more serious revolution later if conditions do not change.

Until recently the outbreaks have been led by negroes themselves. The last affair of this sort, which was promptly suppressed, was led by General Minite, a discontented white officer. Under white leadership the agitation became much more serious. The danger became greater as the malcontents and agitators increased. The negro element of Santiago has been trained in military experience. It is very numerous. All it needs to become a serious menace is the leadership of competent white officers. The prediction is freely made that trouble originating from this source will lead to the overthrow of the republican government, and necessitate the third interference of the United States in the affairs of the island.

AGATE, Aug. 10.—About a month ago the Socialists of this section organized a local. At a second meeting held the evening of August 6 there were about 100 in attendance. The program for the evening was as follows:

Instrumental music, Miss Messenger; business and communications; political forecast of the fall campaign, Marion Nealon; "Sailing on the Sea," quartet; short address, G. P. Hall; song, A. O. Tarbell; "Franchises," Harvy Richardson; instrumental music, Richard orchestra; select reading, R. C. Avery; "We All Have a Very Bad Cold," quartet.

Three new members were added to the local. Every number on the program was a success, and it is predicted that Agate will have the largest and liveliest local in the county before many months.

SOCIALISTS AT AGATE HAVE SPLENDID TIME

AGATE, Aug. 10.—About a month ago the Socialists of this section organized a local. At a second meeting held the evening of August 6 there were about 100 in attendance. The program for the evening was as follows:

SPECIAL SESSION OF LOUISIANA LEGISLATURE

BATON ROUGE, La., Aug. 10.—For the purpose of revising the act imposing the Panama exposition tax so that \$7,500,000 instead of \$4,000,000 may be raised, Governor Sanders has issued a call for a special session of the legislature. The step was taken upon an appeal from the Panama Exposition company, which found itself unable to raise the amount required by voluntary subscription. It is hoped to have the fund ready when congress convenes next fall.

The additional tax will amount to three-eighths of a mill in the county and six-eighths of a mill per capita in the city of New Orleans.
