FUGITIVE FROM JUSTICE CAUGHT

Man With Aliases Caught by Local Police—Wanted on Felony Charge at Sacramento—Working for Cement Company in This City.

Charles Franklin Harris, alias Frank Vivian, was arrested Tuesday evening on orders from Eugene S. Wachorst, district attorney for Sacramento county, on a felony charge, but the nature of the offense is not set forth in the telegrams received here.

Harris is a cement finisher by trade and a hypnotist by profession. Some 18 months ago he played an engagement in the latter role at a picture show in Medford. The theater went broke and so did Harris. He was game, however, and went back to the cement work, securing employment with the Medford Cement company, and worked several months for them. He returned a few days since and easily secured his old job, which he held until arrested.

"I am sorry to see the young man in trouble," said S. L. Leonard, "and hope that it is nothing serious. He was as good a workman as I ever had, and I cannot help believing that he will come out all right."

Officers with requisition papers will be here Thursday.

ALLEN TELLS OF GAYNOR'S TRAITS

Says New York Mayor is Most Lovable of Men and Most Potential Presidential Possibility in the Whole Country.

PORTLAND, Or., Aug. 10.—"Mayor Gaynor, least of all men, seemed to fear assassination," said J. R. Allen, noted New York financier, and personal friend of the New York City chief executive, who is in Portland, in discussing the attempt made yesterday to assassinate Mayor Gaynor.

"He had a great fashion of walking by himself," Mr. Allen continued. "Sometimes a friend would join the mayor. He was most democratic in his manner and few of New York's prominent men were more approachable. He gave opportunity dozens of times every day for the firing of such a shot as that fired today.

"Nearly every morning he walked into the city over the Brooklyn bridge from his farm, where he delighted to stay. He had a cheery good morning for every one that he knew and he knew and remembered so many that it kept him continually bowing and smiling.

"In my opinion, Mayor Gaynor was the most potential presidential possibility before the American people.

"He would be missed in New York. He had gotten a grip on the turbulent New York situation and he was resolving order out of a political chaos."

COMING SOON.

Burk's Big Uncle Tom's Cabin Company Under a Mammoth Canvas.

One of the many events of the season will be the coming of Burk's Big "Uncle Tom's Cabin Co." which will exhibit here both in afternoon and evening. A modern feature of this organization is a monster street parade like a circus, consisting of more men, women, children, horses, ponies, donkeys and dogs, chariots, tableaux wagons, floats, bands of music, etc., than any other similar exhibition on the road. This magnificent free street parade will be seen daily on the principal streets and thoroughfares of our city during the day of their exhibition here, and it is worth coming many miles to see.

HALLEY SAYS NO PLACE LIKE HOME

After Over Three Months' Trip East. R. H. Halley and Wife Find Medford is Best Place After All—Had a Pleasant Trip.

Mr. and Mrs. R. H. Halley returned Tuesday from a trip of over three months to their old home in the east.

Leaving here May 4, they first went to Los Angeles, then to El Paso, Kansas City and St. Louis. Then visited with relatives in Missouri and other states.

"We had a great trip," said Mr. Halley "but we are certainly glad to get home. Medford is the liveliest place of its size that we found in all our pilgrimage. East of the Rockies the towns seem to be at a standstill, to say the least, but west they are building, but none of them can compare with this city for hustle and enterprise."

"After only four months' absence Mrs. Halley and myself hardly could recognize the town. Mrs. Halley's mother, Mrs. S. J. Bethel, and her three sisters, Mrs. Anna Barton and children, Mrs. Sarah Bellamy and Miss Ethel Bethel, accompanied us to Medford. Mr. Barton will follow later, as soon as he can settle some business affairs. Oh, yes; it was a great trip, but this is home."

TO CORNER WORLD'S SUPPLY OF SILVER

CALCUTTA, India, Aug. 10.—Rumors in high financial circles report the attempt of a banking combine in Calcutta and Bombay to corner the silver stock of the world. It is said that on July 26 one-ninth of the total supply of the metal was in the possession of the pool.

The authorities are skeptical as to the success of the plan, in view of the numerous failures in the far east, where silver is in small demand.

American holders are said to be ready to part with their interests at the first opportunity, but it is doubted that the buyers can hold such quantities of the metal until a normal market is restored.

PORTLAND BUSINESS MAN IS A SUICIDE

PORTLAND, Or., Aug. 10.—J. A. Gallagher, known among some of Portland's business men as a person of brilliant qualities, committed suicide yesterday at a Turkish bath by taking an overdose of bromide.

Gallagher had been drinking for two weeks.

Gallagher engaged a bed at the Turkish baths about 1 o'clock this morning. Half an hour later the attendant, hearing a sound of distress, investigated and found Gallagher dead with the empty bromide bottle

THE OCCIDENT AND ORIENT

Meet in the Arena of Buffalo Bill Wild West and Pawnee Bill's Far East to Celebrate Buffalo Bill's Farewell

Two sides of the earth are reflected in typical scenes with the Wild West and Far East; many nations are shown in representative deeds and pastimes. There will be Western history pictures, Indian battles and an oriental spectacle to illustrate the attributes of Occidentals and orientals. The Far East scene will reflect a bit of the Sahara, its camel caravans and native Bedouins. A party of tourists are shown in a visit to the pyramids and Sphinx. There begins a parade of the eastern tribes and people, costumed and equipped in native paraphernalia, on foot and mounted on camels, and soon the arena is filled with a moving pageant of brilliant color. As a particular feature of the spectacle Roast's Musical Elephants will be introduced in a demonstration of animal training such as has never before been witnessed with any exhibition. These mammoths of the jungle perform harmoniously upon various musical instruments—pump organs with their feet, ring strings of bells and blow trumpets. They are directed through their specialty by four beautifully costumed young ladies, who lead them in dances and marches and in other feats unusual to such mammoth animals. Bedouin athletes and acrobats, Japanese jugglers and neeromancers, whirling dervishes and other skillful experts will demonstrate various feats of agility and strength. The whole scene will be typically oriental, in marked contrast to the Wild West section of the united exhibition, which retains all the stirring features that makes it so famous as a realistic replica of our history.

Haskins for Health.

County Clerk Coleman has an extra force of deputies taking care of the registration of voters. The Medford registration has given him and is still giving him more or less trouble. Many voters since registering have moved sometimes several blocks and other times just across the street, but in each case sufficient to take them out of the precinct in which they originally registered into another one. Applicants for change of registration will be accommodated as fast as their applications are made, otherwise they will probably have trouble in voting at the primaries.

TOWER OF BABEL SOON IN EAST

Esperanto Congress Gathers Next Week in Washington—Over Fifteen Hundred Delegates From All Sections Will Be Present.

WASHINGTON, Aug. 10.—Men and women from thirty-five countries will gather at Washington soon but there will be no babel of voices for the men and women will be the delegates of the sixth International Esperanto congress which is to be in session from August 14 to 20.

Though the delegates are coming here from the farthest points of the world yet there will be no confusion of mother tongues but a free conversation in a common language.

Approximately 1500 delegates are expected, and a program elaborate for the convention of such a nature has been prepared. Distinguished linguists of this and other countries will be present and these men will transact the business necessary to the dissemination of their idiom.

Aside from the serious meetings and discussions, many interested features have been prepared for the seven days of the congress. There will be an elaborate open air presentation of Shakespeare's "As You Like It" by the Hickman players. The lines have been translated into Esperanto by Dr. Iry Hilleman of Washington, and with the players drilled until they are letter perfect. The spectacle of men and women from all sections of the globe, easily following the performance will be witnessed.

Another of the features standing out from the program of the week is a ball game on the afternoon of Thursday, August 18. Spree has been reserved at the ball park of the Washington American league team and the delegates to the Esperanto convention will attend the game in a body. Many of the delegates will be treated to their first exhibition of the American game, but the plays will be understood by all. The officers of the American Association of Esperantists have had translated into Esperanto a baseball guide especially prepared for this day by one of the leading baseball writers of Washington.

LOVE IT SOON TO COMPLETE TRIP

Will Arrive in Portland Tonight After Long Auto Drive Through Central Oregon—Says He Can Foresee No Interruption.

BEND, Or., Aug. 10.—President R. S. Lovett, president of the Harriman lines, and the party of officials from the Oregon Short Line and O. R. & N. who are inspecting the proposed east and west line across Oregon, left here today and will cross the Cascades to Lebanon. Thence it is understood the party will proceed to Portland by train, arriving there late tonight.

The party started from Ontario in three automobiles last Friday.

In speaking of railroad conditions in central Oregon, President Lovett said: "I know of no reason for the interruption of the work now under way. If this country will produce traffic to support railroads, I think we ought to build them. I never personally have examined interior Oregon, and took this trip for the purpose of looking into native conditions and getting acquainted with the country."
