

In the district court of the United States for the district of Oregon. In the matter of George A. Butt, bankrupt.

The undersigned trustee of the above entitled estate in bankruptcy will receive sealed bids at the Jackson County bank, in Medford, Oregon, up to 12 o'clock noon, of Friday, August 19, 1910, for the following described property belonging to said estate, namely, a stock of merchandise, consisting principally of jewelry of the inventory value of \$2987.47, together with a lot of store fittings of the inventory value of \$175.50, all now in custody of the undersigned at Medford, Oregon. Cash or a certified check for ten per cent of the amount offered must accompany each bid and the sale is made subject to confirmation by the court, the right being reserved to reject any and all bids. The said property and an inventory thereof may be inspected upon application to the undersigned, at Medford, Oregon.

Dated at Medford, Oregon, August 8, 1910.

WM. ULRICH, Trustee.

Haskins for Health.

Newsy Notes from Rogue River Valley Towns

Butte Falls Items

Manager Mills is having Architect Powers to erect near Bluff addition a neat, comfortable bungalow for the use of himself and family.

The young men, Allen, Thornburg and Leonard, of Medford, are camping nearby and are enjoying themselves hunting and fishing and romping through the hills.

Mrs. Marcy and Mrs. Prudens of St. Johns, Or., are visiting the family of J. P. Hughes.

Grandma Edmonson is suffering from a severe attack of erysipelas. Dr. Holt of Eagle Point is in attendance.

Dr. Bundy and friends are encamped at Camp Nick.

Ora Hayes brought in a large load of freight on Saturday for Wheeler & Claspill.

Mr. Castor of Derby was interviewing our merchants on Saturday and he reports that they have a splendid wagon road from Castor to the railroad.

Mrs. John Allen of Derby is with her mother, nursing her during her sickness. Mrs. Allen is the daughter of Grandma Edmonson.

Thomas Howard and Horace Howard, with Mrs. Howard, Mrs. Gaddis and Miss Howard, autoed to Camp Nick Sunday morning from Medford and are now snugly located and drinking in of the beauties and refreshing breezes of our clime.

The "Hill" campers are frequent visitors to our town, and, like all modern persons, urge that we introduce methods and conditions in harmony with the age. We will do so just as soon as we have the people who can intelligently conduct city affairs, and the time is ripe, for we are only too anxious to be in the procession and make a showing creditable alike to our town and the intelligence of our people.

H. E. Boyden and son, of Medford came in on Sunday on their way to Mr. Boyden's homestead.

Mrs. Morris, daughter of Townsman Clark, has opened a home bakery and is establishing a good trade, and she will soon find her trade much increased, as home baking always has the preference, and Mrs.

Morris is noted for excellent housewifery.

If the people of the town would look after their yards and burn all rubbish and decaying vegetation around an epidemic might be avoided and a more sightly appearance be given our streets, which seem to be the depository for the sweepings.

There has not been much hunting hereabouts as yet, and we hear of no accidents of mistaking a man for a deer, but we expect to learn of some such mishaps before the season is out, and it would be well to make an example in the case, for there is no reasonable excuse for such mishaps, and the rigid enforcement of law, in this as in other particulars, would soon put an end to such recklessness.

There is no reason why people should go to Newport, North Beach and other seacoast places for a summer outing and to escape the heat when they can find delightful opportunities near at hand and such as Butte Falls affords. With the advent of the railway they can make the trip without any discomforts and, through our local stores and their nearness to Medford, enjoy the best the markets have on sale.

Rev. Mr. Howard preached two excellent sermons on Sunday to very good congregations and was very favorably impressed with our town and the surrounding country and saw a bright future ahead for our town and this section.

There is more or less complaint of the rocks strewn along and over the highway between this point and Brownsboro and some needed work should be done on the road and the streams that run across the roads and are impassable save with teams or horseback should be attended to and either bridged or footwalks made across them. It is hard to get us out of the old ruts, but we live in an age of progress and criticism is not slow to express itself when large taxes are paid for these purposes.

T. J. Morris has been away fighting forest fires, and there are still some fires raging, but they are under control.

Central Point Items

J. C. Young of this place was the first man in the Rogue River valley to put melons on the market this year, and for two weeks before other melons were ripe Mr. Young sold on an average of \$10 worth every day. He also expects to have the latest crop on the market and has styled his place the "First and Last Melon Chance." Mr. Young is a newcomer, having bought the Love place near the Bear creek bridge at this point, and is more than satisfied with his bargain. He located here in May.

I. B. Rhodes, state secretary of the Y. M. C. A., is here with both sleeves rolled up and diving deeply into the work of raising the building fund for the Central Point association. Mr. Rhodes will speak after-

noon and evening Sunday and at the evening meetings asks all to attend.

M. Jessorund of Clho, Ia., an old time merchant of that state, is here on a visit to friends and thinks so much of the valley that he is half a mind to spend the rest of his days here.

The contract for plumbing and piping the high school was awarded, so we are informed, to the Rogue River Plumbing company of this place. It will be necessary for the work to be done by September 1, that the school may not be interfered with.

S. K. Adams and family are away on a fishing, camping and hunting expedition and will not return for two weeks. Mr. Adams says many Table Rock citizens are enjoying a short vacation.

OSTROM & NELSON,
Props of Granite City Hospital,
Ashland, Oregon.

Fine Printing

We make a specialty of fine printing, carry the necessary stock to enable us to fill all orders promptly, and guarantee satisfaction.

Best equipped job office in Oregon south of Portland; most expert printers.

Before sending your orders out of town, call and figure with us—if we can serve you for the same price as an out-of-town concern you will wish to patronize home industry.

Medford Printing Co.

Anybody can attach the plug

The G.E. Flatiron then heats itself in about three minutes and will stay hot without further attention.

Saves time, steps and fuel

If the washing and ironing are sent out, the G.E. Electric Iron will still be found a marvelously convenient utensil to have in the house. There are many little things women like to iron themselves, and many times it becomes necessary to wash and iron a few handkerchiefs, etc., before the "wash" comes home. When occasions like these arise, and there is a G.E. Iron handy, it is the work of but a moment to attach the cord to a lamp socket—and the iron is ready. Get one today.

ROGUE RIVER ELECTRIC COMPANY

Make Every Dollar Worth More Than a Dollar!

An educated ad reader will never be poor. To "know advertising" is to have a practical knowledge of values—of things—of when and how and where to buy. No one, having and utilizing such knowledge, could ever be unthrifty, or in any sense careless or reckless of expenses. For such knowledge makes for thrift—for saving. It makes one proof against shams—false values—manipulated reductions.

The intelligent ad reader uses as much thought and ability in buying things as is required in earning the money that is spent for them. And that amounts to a substantial increase of the value of every dollar of the family revenue!

Dr. GOBLE'S Optical Parlor

REMOVED TO NO. 301 EAST MAIN

A complete lens and grinding plant has been installed. Glasses ground while you wait. Bring a piece of your broken lens and we will grind another one like it. No more long delays in getting glasses.

(Ground Floor, No. 301 East Main)

NORTH MEDFORD ITEMS.

William Owings, Jr., of Woodville came up Thursday for a brief visit with his sick wife, who is the guest of her parents, Mr. and Mrs. De Roboam, of North Central.

George Owings has disposed of his residence property on North Central to Mr. Halley.

Emil De Roboam has disposed of his residence property on North C avenue to Mr. Halley; consideration \$2500.

Mr. Farlow and family of North Beatty are sojourning in the cool shades of the Dead Indian country.

Clarence Wilhite, the popular farmer and fruit-raiser of Beagle, came over Thursday with a choice variety of fruit and vegetables, which he readily marketed in Medford.

MINNEAPOLIS MAN INVESTS IN VALLEY

W. E. Wells of Minneapolis, Minn., has purchased lots 4 and 5, in the Perry subdivision, containing 20 acres, paying \$20,000. Mr. Wells will make his home on the property and is now engaged in harvesting this year's crop, which is heavy and consists of Bartlett's and Comice pears and Newtown and Spitzenberg apples. McArthur & Alexander made the sale.

Mr. Wells plans to erect a modern bungalow on the place and will reside there. He already has a force of men at work improving the property.

"I was attracted to the Rogue River valley by your booklet," states Mr. Wells, "and after investigation I decided that I could not do better than remain here. It is a wonderful spot and I expect to spend the rest of my days here."

SAN FRANCISCO RAISES REQUIRED SUM FOR FAIR

San Francisco is within striking distance of the \$7,500,000 required to be raised before she is eligible as an exposition location. Every dollar of the exposition stock subscribed has been by popular subscription, and as the plan to bond the municipality of San Francisco for an additional \$5,000,000 for exposition purposes is yet to be heard from, San Francisco will have no trouble in securing the necessary funds.

FIRES RAGING IN YELLOWSTONE PARK

BUTTE, Mont., Aug. 11.—Forest fires are raging in the Yellowstone National park. A force of 200 regulars are fighting the flames and backfiring at Lake Yellowstone, where the blaze is worst. The heaviest timber in the park is burning.

It is feared that thousands of head of big and little game have burned. Deer, elk and moose are flying in panic to the open places in the park and to the Montana and Wyoming hills.

A bi-timber belt in the St. Mary's mountains caught fire today, but vigorous backfiring proved successful and the flames died out.

The fires are not close to the line of tourist travel, but much beautiful scenery is being marred.

HOOD RIVER GROWERS TO FORM CORPORATION

HOOD RIVER, Or., Aug. 12.—The members of the Hood River Apple-Growers' Fellowship have voted to incorporate that organization in order that they may conduct their business affairs more conveniently. The character of the society will remain the same and the object, which is to investigate orchard pests which may from time to time appear in the Hood River valley will be still pursued. It was also voted to amend the by-laws to make the professors of horticulture, pathology and entomology at the Oregon Agricultural college advisory members of the board of trustees.

PROSECUTION OF GALLAGHER IS POSTPONED BY COURT

JERSEY CITY, N. J., Aug. 12.—Chief Justice Swayze yesterday instructed the grand jury not to consider the case of James J. Gallagher, Mayor Gaynor's assailant, unless given further notice. He expressed the fear that if Gallagher were indicted on a minor charge, justice might be impeded.

"The temptation to act speedily is great," said the chief justice, "but justice does not require haste, and no action should be taken until the final result of the injury is ascertained."
