

# Newsy Notes from Rogue River Valley Towns

## Eagle Point Eaglets

—By—  
A. C. Howlett.

George Von der Hellen is getting the material on the tract of land he bought of J. B. Jackson to build a residence.

Miss Cavara Pool took the stage Tuesday for the upper country. She seemed to think when she left that she would go to the Soda Springs, on the south fork of Little Butte creek.

Mr. Pelouze, one of our enterprising farmers and fruitraisers, was down on Tuesday after shingles to roof an addition to his barn, to be used as a wagon and tool house. He says that he has completed his water system and now can irrigate the most of his place. He seemed to be considerably disappointed over the discouragement that was given the gentleman who was trying to work up an interest in the establishment of a bank here. He happened to meet with the wrong man. It is not always that the business men of a town will work for the best interest of the town in which they live.

Benj. Fredenburg of Butte Falls and his stepdaughter stopped here for dinner Tuesday, while they were on their way to Jacksonville, where Miss Ada Greyham will take the examination for a teacher's certificate. Mr. Fredenburg returned and spent Wednesday night with us. He is hauling in his supplies for winter. Mr. Wolvertson of Butte Falls, who has considerable holdings in the timber belt, was a pleasant caller Tuesday. He reports that the work is progressing finely along the railway. The right of way runs across a part of his land and he thinks that that part of the country will become a great fruit center when the timber has been cut off.

H. W. Combs of Medford was a pleasant caller Tuesday night. He was out here in the interest of a sewing machine company.

Miss Blossom Morris and Leta Pettor of Butte Falls stopped here on their way from Butte Falls to Jacksonville to take the teachers' examination.

Ed Walker and Mr. Johnson came out from Medford Tuesday night on the P. & E., ate supper and then Ed took his team and started for home. He has charge of the Hafer company sawmill. He authorized me to say that the fire in that section was under control; that it had done practically no damage.

Mrs. T. J. Holt of Portland was a pleasant caller at the Sunnyside Tuesday night. She came out on the Eagle Point-Peyton stage. She is a niece of Frank Manning of Peyton, one of our hustling farmers, and had been visiting her uncle and family for a few days.

E. P. Power of Medford also came in on the same stage and spent the night with us. He had been up to the Hill orchard, on Rogue river, the old Stewart place, to make some wagon crates to haul fruit in. He reports that Mr. Hill has a heavy crop of pears and that they will compare favorably with any pears in the up there. He says that the fruit crop up there is extra fine and that the berry crop cannot be beaten.

Vincenzo Zelondek of Chicago also spent the night. Mr. Zelondek is an artist, but his health has failed him and he is now looking for a place where he can raise fruit and have good health, and he has found it right here, and that is no "booster's" yarn, either.

Miss Lillian Lunden of St. Jewett, Pa., came out on the P. & E. Wednesday night and expects to have an old-time friend, Mr. Martin Spencer, meet her tonight, Thursday. Mr. Spencer is one of the enterprising citizens of Dudley, and Miss Lunden has come out to make them a visit. She has fallen in love with the Sunnyside and our delightful climate and thinks that our little Butte creek is one of the most lovely streams she has seen yet. She may remain here a few days before she goes to the timber belt.

Mr. Paine, who bought the Alfred Gorden ranch, on Rogue river, spent the night with us Tuesday. He is quite enthusiastic over the Crater Lake road and proposes to give \$200 toward the completion of it. Although he is a newcomer here, he knows a good thing when he sees it.

There have been several strangers here today, but I did not learn their names. Three of them were traveling salesmen, but I only saw them a minute at dinner time and was so busy that I had no time to talk with them.

Mr. Thomson, the Lake creek postmaster and expert painter and paperhanger of the Lake creek country, came in from Medford Thursday, took dinner and transacted some business and went home.

## Central Point Items

John N. Hayes has gone to Skye, Wash., where he will visit for several weeks with a daughter and other relatives. Mr. Hayes is a prosperous farmer on the desert, but being advanced in years and having been but recently bereaved of his estimable wife, is broken down with grief and has been advised by friends to take a change of scene and rest for a few months.

Those of our citizens who are not busy today are congregated on the street corners arguing paving pro and con. The majority of our people are for progress, but there are a few who would rather wade mud knee deep for all eternity than to pay an extra dollar of taxes for street paving purposes.

The Rogue River Plumbing company will commence work next week on the new sewerage and water system for the public school building.

Rev. T. J. Hazelton claims the prize tomato vine of the Rogue River valley. The vine has grown to a great height and has been yielding great quantities of delicious fruit— if fruit it is—for more than three weeks and promises fair to keep up its yielding pace until frost. The plant was propagated by the minister, although he denies its authorship, and is called the "Charles Wesley." Hazelton says it is the only genuine Methodist tomato in existence.

Warren Miller of Marysville, Wash., arrived Friday evening and will spend a week in the valley.

The R. A. Bissell bungalow was sold last week for the sum of \$1600. Lee Evans was the purchaser. C. S. Sanderson made the sale and reports having sold an option on a large orchard tract a few miles from Table Rock.

Harry Darsbach of Quincy, Ill., arrived today and announces that he will enter the mining business near here in a very short time. Mr. Darsbach is waiting here for a party of friends from Illinois, who are interested in claims near Grants Pass, Gold Hill and Central Point, and when they arrive, which will be in about ten days, development work is to begin in earnest.

J. H. Hills, who has been here inspecting the valley lands as to their adaptability for growing cucumbers, tomatoes and pickle onions, took the train south for St. Louis today and while waiting here gave out the following information to your representative. "I find in the Rogue River valley the finest cucumber and tomato land I have ever seen, and every condition here is favorable for abundant crops. The only difficulty that is the one hardest to overcome is to get the land owners interested. I find it all orchard with them; they don't favor the idea of giving up their valuable lands to cucumber and tomato culture and will not sign an agreement to raise so much pickle stuff, which we must have should we locate a factory in the valley. There can be no over-production; we contract at a stated price for all that is raised, and would take it all if every

acre of land in the entire valley was planted to cucumbers and tomatoes, but the farmer and orchardist must be shown these things. Orchards need not interfere with the raising of an abundance of cucumbers, and the profit to the land owner would be double and in this rich soil a great home to report to my people, but you may expect me here again in the early spring, and at that time I shall approach all the farmers and orchardists on the subject of pickle raising." Mr. Hills is a representative of the Dodson-Braun company of St. Louis, Mo.

Central Point is preparing to invite Medford and other valley cities and towns to attend the ground breaking for the Y. M. C. A. building.

Luke Walker, who is mining near Woodville, was in town for supplies Friday afternoon. Mr. Walker reports much activity in the hills these days and many fine prospects are being uncovered.

Cransfill & Robnett of this city boast of one of the most prosperous business years in the history of their large institution. They were forced to enlarge their clerical force during the very dullest month of the year and are still short-handed on big days.

S. A. Pattison and wife were in Medford Friday afternoon enjoying the country air.

John Carnicle, architect of Los Angeles, Cal., was in Central Point on Friday evening. Mr. Carnicle is here on business connected with a large

**Robert F Maguire**  
Late special agent U. S. General Land Office, announces that he has opened law offices in the Medford National Bank Building, for general practice before state and federal courts and the Department of the Interior.

**300 ACRES**—Alfalfa land, covered with irrigation ditch and perpetual water right. Has coal outcropping. At a bargain on long time, easy payments.

## Gold Ray Realty Comp'y.

209 WEST MAIN ST.

Anybody can attach the plug

The G.E. Flatiron then heats itself in about three minutes and will stay hot without further attention.

## Saves time, steps and fuel

If the washing and ironing are sent out, the G.E. Electric Iron will still be found a marvelously convenient utensil to have in the house. There are many little things women like to iron themselves, and many times it becomes necessary to wash and iron a few handkerchiefs, etc., before the "wash" comes home. When occasions like these arise, and there is a G.E. Iron handy, it is the work of but a moment to attach the cord to a lamp socket—and the iron is ready. Get one today.

**ROGUE RIVER ELECTRIC COMPANY**

## Make Every Dollar Worth More Than a Dollar!

An educated ad reader will never be poor. To "know advertising" is to have a practical knowledge of values—of things—of when and how and where to buy. No one, having and utilizing such knowledge, could ever be unthrifty, or in any sense careless or reckless of expenses. For such knowledge makes for thrift—for saving. It makes one proof against shams—false values—manipulated reductions.

The intelligent ad reader uses as much thought and ability in buying things as is required in earning the money that is spent for them. And that amounts to a substantial increase of the value of every dollar of the family revenue!

## SEVEN INJURED PORTLAND WRECK

Electric Car Crashes Into Freight Cars—40 Passengers Were Hurl'd From Their Seats—No Lights on Cars on Main Line.

PORTLAND, Or., Aug. 13.—Seven passengers were injured and many others severely jolted at 1 o'clock this morning when an electric car bound for Portland from Oregon City on the Oregon Water Power & Electric company's road crashed into several freight cars, which were standing on the main track at Sellwood, five miles east of Portland. The more seriously injured are: A. W. Strahorn, Portland, severe cuts on head.

C. L. Brown, Portland, severe cuts about mouth by his false teeth, dislodged by the force of the collision. Edgar Strenia, Portland, face and head lacerated.

Miss Mattie Taylor, Portland, injured about the face and head. The freight cars were being switched on the main lines and the passenger car crashed head-on into them, hurling 40 passengers from their seats. The injured were brought to Portland on a car as soon as the track could be cleared to permit its passage and removed to hospitals.

None of the train crews were injured.

It is believed the accident was caused by the freight crew not placing lights on the cars left standing on the main line.

**PROBATE COURT.**  
Estate and guardianship of J. D. Evans, insane; order confirming sale of real property.  
Estate and guardianship of William Robinson, incompetent; report of guardian approved.  
Estate Martin Purkeyette; Maria Purkeyette appointed administratrix and W. C. Leever, T. J. O'Hara and G. P. Mims appraisers.

## NEW FRONT NOW COMPLETED

The Medford Hardware Company Has Just Finished Installing a Very Modern Plate Glass and Stone Front to Their Building.

Quite the neatest front that Medford has yet seen has just been finished by J. M. Lyon for the Medford Hardware Co.

The windows are of extra heavy plate glass, with no obstructions between the passer-by and the displays.

A beautiful showing may be made in these windows. The interior is finished in panels of veneered oak, with solid oak beamed and paneled ceilings and veneered oak floors. The natural finish will make a background that will show off the goods to fine advantage.

## CARLTON EXTRADITION CASE IN SEPTEMBER

NEW YORK, Aug. 13.—Translators are at work today making copies in English of a dossier filed before the supreme court of New Jersey by Italian Vice Consul Di Rossa in the Charlton case. The dossier is a judicial statement of all the facts in the Lake Como murder, attested by officials of the foreign government.
