WATER IS KING
ALFALFA IS QUEEN
THE FRUITS OF THIS ROYAL UNION ARE RICHES AND INDEPENDENCE.

This applies particularly to the Dairy industry and to the business of cattle, hog and chicken raising.

We have the five absolutely necessary elements of California farming, viz.: deep, rich soil, abundant water supply, growing climate, cheap transportation and established cash markets.

The money-making capacity of the land is extraordinary.

The intelligent handling of it brings immense crops.

It is impossible to find a region where the returns are more generous.

LOS MOLINOS farms earn the purchase price in a few years.

TO THE PRACTICAL FARMER the above conditions mean riches and independence.

THESE LANDS, INCLUDING A DEEDED PERPETUAL WATER RIGHT, SELL AT \$150.00 PER ACRE, one-fifth down and balance in four equal annual payments.

Call at the office and let me explain the project in detail, or write for free booklet and literature.
