Eagle Point Eaglets

—By—
A. C. Howlett.

Just after I had written for the Mail Tribune last Thursday, H. D. Edmeades, son and father, drove up to our place and gave me one of their cards, representing themselves as Edmeades Bros., shoe dealers, of Medford. They were out here looking for a situation for business.

H. L. Gilbert, a civil engineer, who has charge of a company of 25 men on their way to Crater Lake to work for Uncle Sam in the national reserve, called for dinner Thursday. They were very reticent with regard to what they were going to do, but as they wanted to hire another team they had to let it be known as to their destination.

Our community has been considerably excited here for the last two days on account of the fires raging in the tall timber. Friday morning a train of three passengers, a baggage and flat car passed through here with a company of 110 soldiers on their way to the fire belt, the cars running out to the station near Derby, about eight or nine miles from here. They unloaded the troops, wagons, mules, horses and baggage on the side of the mountain where it was so steep that they had to let the wagons down with ropes, and the poor mules had no water for about 24 hours, and there was none for them, so they had to travel almost to the Falls before they found any water. Instead of going off the right of way a short distance, they tried to follow the right of way and came in contact with some deep gorges and had lots of trouble getting through. When they reached Butte Falls teams were procured to take them to the different places where they could work to the best advantage in putting out the fire.

Word reached us over the phone last night (Friday) that the fire was raging in the country known as the unsurveyed country, and that there had been three houses burned and that all of the women and children had gone out to John Higinbotham's and Hawk's sawmill, and this (Saturday) morning we started teams to help them out.

Mr. Pratt of Medford came in today at noon and reports that the fire was general all over the country in the neighborhood of Cat Hill and Four Bit creek, and later advises state that there is a big fire on the north side of Rogue river, in the Prospect timber. Ray Harnish, the Butte Falls stage driver, came in today noon and said that he took out a load of the troops last night to fight the fire in the unsurveyed country, and that about all that he could see was a wall of fire one and a half or two miles long in the big timber.

Thursday night Messrs. Edgar

TREATY WITH KOREA WILL STAND UNCHANGED

TOKIO, Aug. 22.—Preliminary to the signing of the imperial proclamation that shall transfer the sovereignty of Korea to the Japanese mikado, certain provisions of the document became public here today.

The Japanese government will recognize for the present at least the various treaties existing between Korea and foreign nations. This clause is of primary importance to the United States, who has enjoyed under the Korean treaty certain territorial rights in Korea which Americans do not possess in Japan. The American state department unquestionably has been uneasy over the proposed annexation of Korea because of this treaty feature.

A fear has been expressed that American extra-territorial rights would be abrogated by the annexation and that Japan would refuse to recognize the existing treaty with Korea. It is understood that diplomatic notes were exchanged between the Tokio and Washington governments and that assurances were given that existing treaties would not be disturbed for an indefinite time.

The annexation proclamation will decree that the Korean emperor shall have all rights devolving on an emperor, according to the laws of Japan. These will include freedom of supervision, enjoyment of certain revenues and comparative freedom from governmental cares.

Korean officials and nobles will receive similar treatment and will be deprived of none of their privileges and the perquisites of their rank save the governmental powers that they have enjoyed.

Hafer, Tou Velle, Walter Dudley of Illinois and the news editor of the Mail Tribune, Harry H. Hicks, came out from Medford and called for a late supper. They were on the way to the Iowa mills and the next morning went to Four Bit creek to look after the Crater Lake company's interest in that section.

L. E. Smith has just phoned from Caster's that he had been as far as Hawk's mill and learned that the fire had not reached so far as the Spencer's, and that there had been but little damage done and that they had the fire under control.

George Wilson, who has taken up a homestead along the railroad near Derby, and Mr. Cameron, another gentleman from that section, were here Friday for dinner, and report that the work is progressing finely on the railroad and that the people are elated over the prospect of having a railroad station there and a good road out from the station to intersect the present county road from here to Butte Falls.

Robert Prescott of Eugene was another one of the many callers who are here to look at our country and looking for fruit land.

Mrs. Scott Claspil of Butte Falls was here Friday night interviewing our merchants and laying in a stock of dry goods for their store. She has great hopes for the future of that section.

Professor J. N. Miller and Mr. Lorrey of Josephine county came last night and called for a late supper. Mr. Lorrey had been out all day with a team and did not reach his destination until late in the evening.

Mr. Ditsworth came in from Fort Klamath Friday afternoon on his way to the valley after a load of fruit, etc., to take out to Fort Klamath, and later in the day his daughter, Miss Ada, came in on her way up home. She has been engaged teaching school in Josephine county. There are five sisters in the family that are all teachers, and a remarkable circumstance is that there is but one of the five has ever failed in their examinations, and that was when she took it the first time, and the most of them are experienced teachers, something that they and their father may well feel proud of.

Messrs. C. R. Neheit and Bud Willet came in today from the Rowley copper mine and the headwaters of the Umpqua and report that they have a very valuable mine there.

Mr. and Mrs. Blanchard, who are living on the old Charley Knighton place, came in Friday, bought their load, stayed at the Sunnyside all night and Saturday morning started for home. Miss Ada Ditsworth accompanied them.

Never Had a Dream.

LEBANON, O., Aug. 22.—Henry L. Holland, the man who claimed that he never had a dream in his life, is dead at the age of 90 years. He was born in Hanover, Germany, and came to America in 1854, settling with his family in Lebanon. His wife died 20 years ago, and since he and his eldest son, Charles, have lived together. The fact that he never dreamed is said to be unequalled in the country.

PITTSBURG, Aug. 22.—Although flames were raging in the building at Penn and North Highland avenues and four young women were at work on the third floor, it was with difficulty that the police could persuade Miss Josephine Corbett to leave the building, she saying she must stop to wash her face.
