

# Write a Want Ad—When You've Quit Using it and Want to Sell it

## PEAR MARKET STILL ADVANCES

Prices in New York From \$2.75 to \$3.25 on All Good Fruit—California Bartlett's Holding Out Longer Than Usual—Other Conditions.

Scribel & Day, under date of New York, Aug. 22, report as follows on the market:

Today there were 39 cars sold, with 5300 peaches, 3400 Bartlett's, 5300 plums and pines and 12,000 grapes.

Prunes—Two cars from the northwest, both to us, catalogue enclosed. Averages, \$1.30 and \$1.37, all sizes Italians. Both cars had reddish fruit, not ripe, and not sweet, so they did not do as well as we had hoped they would, and yet these leave satisfactory net returns. Bulk of this fruit from California are Gross and Grand Duke, which are selling at \$1.50 to \$1.75. We are hoping that after this we shall find our cars of Italians more attractive; however, it is very early, as you know.

Bartlett's—Market continues to advance. Today, \$3.25, \$3 and \$2.75 on all good fruit. They seem to be finding them in several new sections in California, and they are holding on longer than was given out, but a good many are yellow ripe, and we certainly are nearly at the end of the arrivals of Bartlett's from California.

Peaches—Almost all arriving are Clings, large and high colored, which our peddlers and wagon boys are taking to palm off on the unsuspecting public, but the man who buys these never comes back for more. The first car of Elbertas from Colorado has left Chicago, and we expect to sell it on coming Thursday, if it arrives in time.

## CALIFORNIA PEARS NEARLY ALL SHIPPED

Under date of August 27, the California Fruit Distributors say:

The following gives number of cars of deciduous fruit shipped from all points in California for the week (seven days) ending Friday morning, August 26:

Peaches, 186½ cars—Peach shipment has been much better maintained than was expected one week ago. It is, however, below that of last week. Salways are now going forward in liberal quantities and will continue for the coming week, after which time there will be but few to offer. Levi Clings will also go out in considerable quantities next week, and we hope for a wide distribution which will put this popular fruit into general consumption throughout the great western and southern territory.

Plums, 20¼ cars—Shipment of this fruit has now dwindled to insignificant volume and will undoubtedly be considerably less during the next seven days.

Pears, 110¼ cars—A little more than half as many pears were shipped this last week as during the preceding one. It is expected there will be a still further decline during the week to come. There are practically no Bartlett's moving, shipment being confined largely to fall and winter varieties.

Grapes, 301¼ cars—Gradual increase in shipment is shown, but as predicted last week, the output of Malagas has declined and will continue to do so, while that of Tokays has increased. Florin is now forwarding her Tokays in fairly liberal quantities, and the Lodi section will be shipping freely next week. Thompson Seedless are nearly out of the market. Black Prince will be available in such quantities as may be desired during the next ten days.

Weather conditions have been favorable since our last report.

### Chicago Market Conditions.

Quoting the Daily Fruit Reporter of August 21, which says:

"The Rogue river pears show up fine and are commanding the best prices with good California mountain fruit running up to a close second. Small-sized pears from any section is what is wanted. The pears from other than these sections do not seem to come through in good condition and go for lower price. Some Washington pears of fancy size strike competition from other sections, which accounts for their not doing better. There is not much speculation in other varieties of pears just

at present, but when Bartlett's wind up some high prices will likely develop. It is a fine thing to be optimistic, but under pressure it is unsatisfactory. Business seems good in Chicago. The general tone of business is quiet. There is not that snap or life to trade that shows the profits and moves the goods. Green apples are worth \$2.75 to \$4 per barrel; fine color Dutchess at \$4.50, but they are fancy. Fine Waxey Blush, \$4.25 to \$4.75. It is a fine thing that the slump on apples comes at this time; it will put the whole business on a more satisfactory basis. No New York dealers have as yet been consummated on this market. One man is reported to have bought a block at \$3 per barrel. While there is little action to business just now, the future still looks more healthy. Labor is busy and makes decent wages. Money is a little tight; collections are a trifle slow; banks are very conservative, but the entire business of the country is on a good, substantial business basis and that beats the spasmodic extreme taken in the long run."

The Stewart Fruit Co. writes under date of August 22:

"The northwest certainly is turning loose on Chicago. There were over 80 cars scheduled for the sale today, but, of course, there was not shedroom for any such amount of fruit and were cut down to about 50 cars. We had nine cars advertised to sell, but only got four in the auction. We are diverting your cars to New York, Boston and other markets and will sell as freely as possible without breaking the market. In making diversions we are putting forth every effort to give your association full justice of any high spots we may see in the United States, being a little afraid that Chicago will be so filled with northwest pears, which will not carry further east, and we expect to put some of your pears in Montreal. We know you are getting trade papers and you will note we are giving the Rogue River valley all the advertising we possibly can."

Wind Blows Down Apples. DETROIT, Aug. 4.—The storm which swept here recently did considerable damage to crops, especially to fruits. Much early fruit was blown to the ground. A similar report comes from Huron county, Ohio.

NEW CUMBERLAND, W. Va., Aug. 4.—The apple crop is almost a failure. In a good year this point should produce 100,000 barrels, but we will not have over 10,000 barrels this year.

MEDFORD BIG LITTLE CITY SAYS PORTLAND AUTOIST

Thomas G. Farrell, in the Sunday Oregonian, has this to say of an auto trip to Crater Lake:

"We were out for a bath of sunshine, all of us, and we certainly, in the 13 days' trip by automobile from Portland to Crater Lake and return, soaked in enough of that life-giving agent to do us a whole lot of good.

"On Saturday, July 16, we started, two machines, A. S. Benson, E. E. Covert, Thomas G. Farrell and John B. Yeon, in the latter's car, and S. Benson in his own, driven by his chauffeur, Will McKenzie.

"We soon entered the beautiful and immensely fertile and valuable Rogue River valley. After passing through Gold Hill and Central Point we drove into Medford at noon.

"Here is certainly a big little city; good streets and a lot more in process of making; good buildings and more in course of erection; automobiles at a heretofore unheard of ratio as compared to population. I believe they said it was one machine to every 28 inhabitants. There is no question but that Medford is a live town and will be a fine city in the near future. We were nicely entertained here and the next day at 11 a. m. started up the Rogue river for Crater Lake."

Haskins for Health

The pears from other than these sections do not seem to come through in good condition and go for lower price. Some Washington pears of fancy size strike competition from other sections, which accounts for their not doing better. There is not much speculation in other varieties of pears just

## A MAJORITY OF WANT ADS BRING RESULTS

If that were not true, there would soon cease to be any want advertising. Of course not ALL want ads "pay"—not ALL want ads bring the results sought by the advertisers. But it is a self-evident fact that a majority of want ads DO PAY—do bring results. For if more want advertisers failed than succeeded there would be a gradual decline in the volume of the want ads. There would be a constantly DECREASING number of people who use them. After awhile there would be no more want ads at all.

That there are more and more want ads printed all the time proves that a MAJORITY of them are RESULTFUL—proves that they give REAL SERVICE to those who use them. And this fact ought to have its direct application to YOUR AFFAIRS.

### Want Ads—One Cent a Word

#### MEDFORD MARKETS.

(Prices paid by Medford merchants.)
