Carl also told of a spring on Joe Rader's place that has not been dry for years going dry this summer, but after the cool weather commenced the water raised, showing that this has been the driest summer we have had for years.

SUMMIT AVENUE IS BETWEEN WEST MAIN AND FOURTH STREETS. IT IS NOW A PAVED STREET WITH CONCRETE WALKS ON BOTH SIDES, AND OF COURSE THE WATER AND SEWER CONNECTIONS ARE MADE TO ALL LOTS. WITH A BUILDING RESTRICTION OF \$2500, THIS SHOULD MAKE AN IDEAL HOME ADDITION. SEE TORRY & MURPHY OR W. T. YORK & CO.

Make Every Dollar Worth More Than a Dollar!

An educated ad reader will never be poor. To "know advertising" is to have a practical knowledge of values—of things—of when and how and where to buy. No one, having and utilizing such knowledge, could ever be unthrifty, or in any sense careless or reckless of expenses. For such knowledge makes for thrift—for saving. It makes one proof against shams—false values—manipulated reductions.

The intelligent ad reader uses as much thought and ability in buying things as is required in earning the money that is spent for them. And that amounts to a substantial increase of the value of every dollar of the family revenue!

A LAVATORY LIGHT
What a convenience is an electric light in the lavatory. It can be switched on and off when needed. The danger of breaking chimneys by spattering them with water is eliminated. The necessity for matches is overcome. A simple turn of the wrist and the room is flooded with light.
It may be arranged so that the light can be switched on before or after entering the room.
This is only one of the many comforts possible in an electrically lighted home.
Our representative would be pleased to talk this matter over with you.
