DIES IN MEDFORD HOSPITAL FROM DRINK

Thomas Allen, aged about 40 years, who has been working in different restaurants in the city for several months, died at the Medford hospital Friday morning from heart trouble, brought on by excessive drinking. Allen was one of those unfortunates who would work until he had accumulated a sum of money and then squander it in a few days. He has a brother in Detroit, Mich., who has been communicated with, and the remains are being held until the latter is heard from.

ENGINEER FOILS HOLD-UP MEN.

(Continued from page 1)
The echo of the shots hardly died away when Bachman, the fireman, suddenly dodged under the express car. The bandit on guard turned and fired at him. As he did so Engineer Stewart picked up a rock and brought it down upon the robber's head with crushing force. The bandit toppled over and in an instant Stewart had wrenched his revolver from him and opened fire on the other two masked men.

Engineer Balls.
The fire was returned and a fusillade sent a shower of bullets in Stewart's direction. The engineer fell with a bullet in his leg, but continued firing until his revolver was empty.

At this juncture some of the trainmen and a few passengers who had procured weapons began a flank attack upon the highwaymen, who, seeing their plan had failed, fled. They continued firing until out of sight.

Miss Painter and Mrs. Montgomery will have charge of the millinery department at the Emporium for the fall season of 1910. They have just returned from the eastern markets and will announce the date of the formal opening soon.

MAN TURNS ON WATER; FLOODS CITY JAIL.

Policeman Joe Memsie made a "pinch" a little out of the ordinary routine Thursday night, just before midnight.
The fellow, who hadn't recovered sufficiently this morning to give his name, came on a run up Seventh street and jumped into an automobile standing near the Nash. The driver in charge could not remove him and Memsie was obliged to tap him with his billy before he could take him from the car. When landed in jail the first thing the crazed man did was to commence tearing up the bedclothes in the cell. These were removed. Then he turned on the water and soon had the jail flooded, while he took, perhaps, the first foot bath he had enjoyed for some time. It was necessary to cut the water off from the city hall entirely in order to keep the gent with the "bugs" from flooding that part of the city. Too much firewater is the cause of his aberration.

Parisian Sage proved a GRAND SUCCESS every way. Her hair stopped coming out, dandruff all disappeared, soreness all left the scalp and her hair is coming in again very nicely." 5 Strong Reasons for Fall Painting

- The wood is thoroughly dry. *Summer's sun has removed all moisture.*
- Paint penetrates deeper into dry wood. *The deeper it goes the better it holds.*
- Fall weather is warm, dry and dependable. *Little danger of cold, damp, rainy days, which endanger the durability of the paint.*
- Wet weather decays and destroys unprotected surfaces. *Lack of paint means unsightly and less valuable property.*
- Fall painting keeps out winter moisture. *The greatest enemy to the life and beauty of all structures.*

Ask us about **ACME QUALITY HOUSE PAINT**. It insures the greatest protection and beauty, at the least cost per year of service. Questions cheerfully answered.
